

PINE GROVE AREA BOARD OF DIRECTORS  
CURRICULUM COMMITTEE MEETING  
THURSDAY, NOVEMBER 9, 2023  
6:00 PM  
DISTRICT OFFICE CONFERENCE ROOM

1. Call to Order – Meeting was brought to order by Curriculum Committee Chair Dave Lukasewicz at 6 PM.

**In attendance:** Heath Reddinger, Superintendent, Dave Lukasewicz, Board President & Committee Chair, Genavieve Moyer, Amanda Daubert, Lauren Potter, Randy Stump, Sascha Primeau, Don Brown

2. A PreCurriculum Committee Meeting was held on Monday, November 6<sup>th</sup> where Mike Janicelli, Rich Dunkleberger, and Stephanie Ziegmont were also present to discuss the necessary options and considerations for Thursday's presentation. Their feedback and recommendations were presented to the committee during Thursday's meeting.
3. Dave Lukasewicz handed the meeting over to Genavieve Moyer to share the recommended options from Curriculum for connecting graduation credits to standards posed by the administration.
4. Genavieve showcased a PGA Focused Simulated Schedule which was developed with consultation from prior meetings with the administration regarding scheduling, Keystone Standards, and PA Readiness Index. The focus was to move us from a 26-credit model for graduation to 23-credits connected to PA state and career standards using an 8-period day.
5. A 7-period day was an option presented by the administration and considered but was not the recommendation of our Curriculum Director or was felt to be in the universal goal of the Curriculum Committee to create a PGA Focused Curriculum. The committee's goal is to build a curriculum that provides proficiency in required academics, alongside continuing to provide students with the traditional elective opportunities Pine Grove has invested in over the years.
6. The board did allow questions from the students in attendance.
7. A discussion was had surrounding transitioning our Accounting program to be seen as a math credit, along with being proactive about career planning and personal finance standards.
8. We also discussed the future development of CTE/Co-Ops, Dual Enrollment Credits, and the requirements for Fitness/Health with JROTC.
9. The Committee and Superintendent agreed to move the discussion to COW on Tuesday, November 14<sup>th</sup> with a final presentation of both our High School state standing and transition to 23 credits connected to standards by both our Curriculum Director and Genavieve.

10. The Committee discussed the next steps of Genavieve touching base with Stephanie to iron out any further details or adjustments necessary from the Curriculum Director's perspective.
11. Genavieve shared that once approved, it would then be time to work directly with each Curriculum Facilitator in each area of the course catalog for the High School. She expressed this was something Stephanie, our Curriculum Director, was already doing. We would need to go over course content and prepare the course catalog for approval early in the New Year.
12. Genavieve also presented the future discussion around class/scheduling advisors to be able to work with students during scheduling, and the importance of the development of Dual Enrollment options, CTE/Co-OP, and Career Readiness coursework.
13. With all in approval to move forward, the meeting was adjourned with an Executive Session on Personnel where no voting took place at 8:30 PM.
