

# DON'T TOUCH YOUR FACE!

## HOW TO PLAY

In this game, everyone playing has to try not to touch their faces... this is harder than it seems!

**GOAL:** Be the player with the fewest points!

When you see another player touch their face, holler "**SQUIRMY-GERMY!**"

Then add points in their column on the score sheet. Points are different amounts for different parts of a face. The number of points to add is listed next to the face part on the score sheet.

If you notice that you touched your face, holler "**ACK! THE GERMS DONE GOT ME!**"

Then stagger around, fall to the floor and play dead. When you are done with that, add one point to your score... which is less than you would have to add if another player had caught you red-handed.

To take your score down, you can wash your hands or use hand sanitizer. If you talk someone else into washing their hands, you both subtract one point!

At the end of the day, add up the points and see who has the lowest score... **the lowest score wins the game!**

The winner is declared to be **THE CLEAN BEAN.**

To celebrate they get to wash their hands proudly and gloat for 20 seconds.

All is not lost for the other players, though! They can still **SAVE FACE.** If they wash their hands with soap and water for 20 seconds while singing The Face-Saving Song, then they win, too!

### **KING SQUIRMY-GERMY**

and his many messy minions are trying to invade your face!

They are hiding out all over your hands! They are so teeny-tiny, you can't even see them... but **WATCH OUT!**

If you touch your face, they'll get into your nose, mouth or eyes... and make you **SICK!**

### **THE FACE-SAVING SONG**

Wash, wash, wash my hands, don't forget my thumb,  
Because I just touched my face. Boy, that sure was dumb!  
Wash, wash, wash my hands, that should do the trick,  
because I just touched my face, which could make me sick.
