

At KleintjeZuid, we offer high-quality after-school care tailored to the needs of international families.

In line with the International French School, our after-school care (BSO) for children aged 4 to 12 is bilingual, using both Dutch and English. For our youngest group, ages 2 to 4, care is provided in Dutch.

By aligning our care groups with the school's year classes, we ensure emotional security and create a smooth, continuous learning path between school and after-school care.

Holidays are a time for meaningful experiences. That's why our holiday programs are carefully designed with a rich mix of fun and educational activities—from sports and games to nature and creativity—giving every child the chance to grow, blossom, and discover the world around them.
