Shawnee Mission School District
RFP 25-004 – Pest Control Services
April 22, 2025

Addendum No. 6

Following a walkthrough of the District sites listed on page 2 of the RFP ("Non-Mandatory Site Visits"), the District would like to issue a few clarifications regarding the desired scope of work:

Building Access Keys/Badges – the District will not be issuing building access keys/badges to the selected pest control vendor. The District will work with the selected vendor to schedule treatments visits at specific sites. Treatment visits will generally occur on weekdays, after 3 pm, based on student attendance at a specific site. Generally, the selected vendor's access to the building will be through the building's receiving area, and access will be facilitated by the custodian on duty at the time of the treatment visit.

Paper and Metal Traps – the District's understanding is that paper traps are currently used at District sites, although there may be some site-specific exceptions, with metal traps used in some instances. The District's current expectation is that paper traps would be the most common type of trap used at District sites, although it would be open to using metal traps in some areas if recommended by the selected vendor.

Preferred Pesticide List – the District currently does not have a list of preferred pesticides. The District would work with the selected pest control vendor to finalize a list of preferred pesticides.

Additional Sites – in reviewing the RFP, it appears that the District did not list some sites where pest control services might be utilized, such as the District's Career and Technical Campus, or some sports complexes (the Soccer Complex at the Westridge Middle School location is not included in Westridge's square footage). As these sites are expected to have a negligible impact on the scope of work, for purposes of the RFP, please base your proposal on the sites currently listed in the RPF, with the provided square footage for these respective sites. The District's intent is to work with the selected pest control vendor to quote any needed services at these non-listed sites.
