Principal's Message

Mr. Vizzo & Mrs. Roth

Cornerstone Families,

We are so excited to announce that Cornerstone Elementary has received Lighthouse Certification! Becoming a Lighthouse School is a prestigious certification that only 600 schools worldwide have achieved.

The Leader In Me Lighthouse certification is a highly regarded standard in education. Lighthouse schools are extraordinary examples for other schools to follow; as such, they should be places anyone in the world could visit to learn about and be inspired by the strength and leadership operating model. Thank you to our staff, students, and families for helping Cornerstone receive this certification!

Dream Big: Why Good Sleep Builds Great Kids

Good sleep habits are essential for elementary school kids because sleep directly impacts their growth, learning, and emotional well-being. During sleep, their bodies release growth hormones, help build memory, and support brain development. Kids who sleep well tend to do better in school, have better attention and behavior, and are less likely to struggle with mood swings or anxiety. Consistent sleep routines also strengthen their immune systems and set the foundation for lifelong healthy habits.
