

# DESMOS

## FOR ELEMENTARY EDUCATORS

Are you looking for ways to strengthen reasoning and sense-making in your K-5 math classroom? Join us to explore **free** Desmos resources designed specifically for elementary students — including **fluency activities**, **centers**, **math routines**, **bite-sized math moments**, and **activities** that provide students with responsive, real-time feedback. Participants will explore how these resources align with Georgia's math curriculum and discuss practical strategies for accessing and facilitating them in your classroom. Whether you are new to Desmos or have already explored some of its tools, this workshop offers something for every elementary educator!

**MONDAY**

25 August

8:30 AM - 3:00 PM

### **Desmos: Interactive Tools and Activities for the K-5 Classroom**

Metro RESA Auditorium  
1870 Teasley Drive SE  
Smyrna, GA 30080

*Desmos Training Consultant*
