I. Introduction

This Code of Conduct was developed at the direction of the Williamsville Board of Education by the Youth Wellness Council comprised of parents, teachers, students, school counselors, community members, and administrators. It establishes a set of statements to serve as the Williamsville Central School District (WCSD) procedure on school conduct and discipline.

The Williamsville Board of Education ("Board") is committed to providing a safe and orderly school environment where students may receive, and District personnel may deliver, quality educational services without disruption or interference. Responsible behavior by students, teachers, other District personnel, parents, and other visitors is essential to achieving this goal.

The District has a long-standing set of expectations for conduct on school property and at school functions, on and/or off site. These expectations are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty and integrity. It is essential that a safe learning environment is afforded to all students, one that is free from discrimination and harassment on the basis of but not limited to actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sex, sexual orientation, gender identity, gender nonconformity and gender expression. In accordance with applicable law, regulations, and guidelines, the District will ensure that students have equitable access to all school programs, facilities, and activities. The District will assess and address the specific needs of each student on a case-by-case basis.

The Board recognizes the need to clearly define these expectations for acceptable conduct on school property, identify the possible consequences of unacceptable conduct, and to ensure that discipline, when necessary, is administered promptly and fairly. In addition to the expectations articulated in this code, the District recognizes that there are other adopted Board of Education policies that govern behavior and decorum. Unless otherwise indicated, this code applies to all students, school personnel, parents, and other visitors when on school property or attending a school function.

In accordance with the Board of Education, Restorative Practices were initiated in the District during the 2022-2023 school year. We recognized the importance of these practices and continue to devote time and training to support their effective actualization in our daily interactions.

Student engagement is also integral to creating a positive school climate and culture that effectively fosters students' academic achievement and social/emotional growth. Providing students with multiple opportunities to participate in a wide range of pro-social activities and at the same time to develop a bond with caring, supportive adults reduces negative behavior.

Examples can include: providing students with meaningful opportunities to share ideas and concerns; fostering participation in school-wide initiatives and events, student leadership development; periodic recognition of student's achievements in a range of academic and co-curricular areas; using corrective feedback; and promoting positive behavior.

IV. Student Dress Code

The responsibility for student dress and general appearance rests with individual students and parents. However, the Board of Education will regulate a student's dress to ensure that students attend school or school-sponsored events such as dances in appropriate attire that meets health and safety standards and does not interfere with the learning process.

For example:

1. Clothing and jewelry worn to make a political or religious statement will not be banned unless it is disruptive of the educational process, lewd or offensive.
2. Clothing, footwear and jewelry will be banned if they present a threat to the student's, or another student's health and safety.
3. Specific dress requirements may be required by the District for students participating in activities in which clothing and jewelry may be a safety or health concern, such as science laboratories, physical education, technology (Industrial Arts) classes, and interscholastic athletics.
4. Wearing clothing or materials on school grounds, at school functions, or school-sponsored events that are obscene; advocate illegal action; promote and/or endorse the use of alcohol, tobacco, tobacco products, smoking paraphernalia of any kind, or illegal drugs or encourage other illegal or violent activities; appear libelous, or denigrate others on the basis of race, color, religion, creed, national origin, gender, sexual orientation or disability; obstruct the rights of others, or are disruptive to the school program will not be allowed.

Each building principal shall be responsible for informing all students and their parents of the student dress code at the beginning of the school year and any revisions to the dress code made during the school year.

Students who violate the student dress code shall be required to modify their appearance by covering or removing the offending item, and if necessary or practical, replace it with an acceptable item. Any student who refuses to do so shall be subject to discipline, up to and including in-school suspension for the day. Any student who repeatedly fails to comply with the dress code shall be subject to further discipline, up to and including out-of-school suspension.

The principal and other designated administrative personnel shall have the authority to require a student change their attire should it be deemed inappropriate according to the above guidelines. Administrators, teachers, and all other District personnel should exemplify and reinforce acceptable student dress.

The Board of Education expects students to conduct themselves in an appropriate and civil manner, with proper regard for the rights and welfare of other students, District personnel, and other members of the school community, and for the care of school facilities and equipment.

The best discipline is self-imposed, and students must learn to assume and accept responsibility for their own behavior, and for the consequences of their misbehavior. District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline and through restorative practice.

Further, understanding discipline as a "teachable moment" is fundamental to a positive approach to discipline with the ultimate goal of teaching pro-social behavior. Therefore, the Board authorizes Restorative Practices to be employed where appropriate, restitution to those harmed, and group, classroom, community and re-entry circles to address misbehaviors with the ultimate goal of teaching pro-social behavior. This approach seeks concurrent accountability and behavioral change.

The main principles of Restorative Practices are valuing and restoring relationships, repairing the harm done to affected parties, respecting others' opinions, and reintegrating into the school community.

Under this model, we ask:

- Who has been hurt?
- What are their needs?
- Whose obligations are these?
- What were you thinking at the time?
- What have you thought about since?
- Who has been affected by what you have done? In what way?
- What do you think you need to do to make things right?
- Who needs to be involved?

As an administrative team, it is essential for the implementation of Restorative Practices to help students who have engage in unacceptable behavior to:

- Understand why the behavior is unacceptable and the harm it caused;
- Understand what could have been done differently in the same situation;
- Take responsibility for their actions;
- Make reparations and or restitution to repair the harm done;
- Be given the opportunity to learn pro-social strategies/skills to use in the future; and
- Understand the progression of more increasingly punitive consequences may be imposed if the behavior reoccurs.

Other guiding principals:

- Equity
- Trauma sensitivity
- Pro-Social behavior
- Student engagement

While there may be more traditional consequences in conjunction with teaching behavior expectations and treating disciplinary matters as teachable moments, this is a more effective approach than merely reacting to specific events unless student behaviors pose an immediate or ongoing threat to the safety of other students and staff.

The Board directs staff and administration to utilize Restorative Practices in cases where staff believe restorative practices would be an appropriate alternate or addition to addressing student disciplinary issues.

In the application of Restorative Practices, the process participation is always voluntary for the students. Any parent (or student over the age of 18) can request to go to the traditional disciplinary route and not participate in the restorative process practices. This may happen at any time during the process, or if a student is unwilling to accept responsibility for their actions and is not demonstrating willingness to make amends.

Examples of Restorative Practices

Affective Statements refers to the tone in which we speak to students to help us build relationships and show that we care about the students. For example, "I like the way you worked the whole class period today," is more effective than, "good job."

Community Circles can build a sense of community in which every member feels that they are seen, heard, and respected. Circles can be used as a response to wrongdoing and as a vehicle for discussion when creating respect and classroom norms.

Restorative Conference is a formal response to wrongdoing where the facilitator helps both parties explore what happened and who was affected. This can be done with a facilitator, teacher, and a student after a disruption to the learning environment has occurred.

Restorative Conversations/Reflections is an exercise in which students complete a written reflection or engage in dialogue using restorative questions and steps as they try to reflect on their actions and make a better plan.

Equity

Student discipline, policies and practices must be implemented in ways that are fair, equitable and differentiated. All students must be treated fairly without favor toward or prejudice against any one group of students according to ability, age, gender, disability, race, ethnic group, socioeconomic status, religious or spiritual orientation or indigenous heritage.

Trauma Sensitivity

Awareness and intervention are essential when behaviors may be symptomatic of more serious problems that students are experiencing. It is important that school personnel be sensitive to issues that may influence the behavior of students and respond in a manner that is most supportive of their needs. Appropriate disciplinary responses should emphasize prevention and effective intervention, prevent disruption to learning and promote a positive school culture.

Pro-Social Behavior

Each WUSD school is expected to promote a positive school climate and culture that provides students with supports so that they can grow both academically and socially. Schools take proactive role in nurturing students' pro-social behavior by providing a range of positive behavioral supports as well as meaningful opportunities for social-emotional learning. Effective social-emotional learning helps students develop fundamental life skills. Examples include implementing a social emotional curriculum, social skills groups, and student-led wellness initiatives.

Student Engagement

Engagement is integral to creating a positive school climate and culture that effectively fosters academic achievement and social-emotional growth. Providing students with multiple opportunities to participate in pro-social activities and develop a bond with caring, supportive adults, positively influences behavior.

The Board also recognizes the need to make its expectations for student conduct while on school property, or engaged in a school function, specific and clear. The rules of conduct listed are intended to set standards and focus upon safety and respect for the rights and property of others. Students who will not accept responsibility for their own behavior and who violate these school rules will be required to accept the penalties for their conduct. In addition, the Board also recognizes the need for administration to impose discipline when behavior occurring off campus transfers to the school setting and negatively impacts the daily operations of the school and/or substantially or materially disrupts instruction.

VI. Minimum Suspension Periods

Any student, including a student with a disability having been afforded statutory protections under the Individual Disability Education Act (IDEA), who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom, shall be subject to a minimum suspension period of five (5) school days. This minimum suspension period may be reduced on a case-by-case basis by the suspending authority consistent with any other state or federal law.

Any student, including a student with a disability having been afforded protections under the IDEA, who acts in a way that would qualify them as a violent pupil under New York State Education Law 3214 (2-a) shall be subject to a minimum suspension period of five (5) school days. This minimum suspension period may be reduced on a case-by-case by the suspending authority consistent with any other state or federal law.

Practices which allow educators to address disciplinary matters as opportunities for learning instead of punishment are expected by the Board rather than a reliance on increasing punitive measures. When choosing interventions and consequences of student's behavior, teacher, administrators, and staff must balance the District's dual goals of eliminating school disruptions and maximizing student instruction time.

REPORTING STUDENTS WHO BRING WEAPONS TO SCHOOL OR SUBSTANCE ABUSE VIOLATIONS

Any student or staff member observing a student possessing a weapon, alcohol or other illegal substance on school property or at a school function, shall report this information immediately to the building principal and/or designee. Any weapons, alcohol or illegal substances found shall be confiscated immediately, followed by notification of the parent of the student involved and the appropriate disciplinary action taken, up to and including permanent suspension and referral for prosecution. If a student or staff member fails to report this information such failure shall be considered insubordination and/or conduct that endangers the safety, morals, health or welfare of others, which may result in disciplinary action.

When a student violates the Code of Conduct and such misconduct is also a crime defined by the New York State Penal Law, District Officials/Building Principal shall notify the appropriate law enforcement agency. Additionally, if such misconduct is committed by a student with a disability, such action shall not constitute a change in the student's placement. The notification must identify the student(s) and explain the conduct that violated the Code of Conduct and constituted a crime.

Any student found guilty of bringing a weapon onto school property or at a school-related function may be subject to suspension for one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Educational Law 3214. (See definition of Weapon in Glossary of Terms)

VII. Students Who Commit Other Violent Acts

Any student who is found to have committed a violent act, may be subject to suspension from school for at least five (5) school days. If the proposed consequence is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students' subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all student subject to a long-term suspension.

THE SUPERINTENDENT HAS THE AUTHORITY TO MODIFY THE LENGTH OF SUSPENSION ON A CASE-BY-CASE BASIS

In deciding whether to modify the consequences, the superintendent may consider the following:

- Student's age
- Student's grade
- Student's prior disciplinary record
- Superintendent's belief that other forms of discipline may be more effective
- Input from parents, teachers, and/or others
- Other extenuating circumstances

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

VIII. Student Conduct on School Bus

The Board of Education believes it is crucial for students to behave appropriately while riding on District buses, to insure their safety, that of other passengers, and the fewest possible distractions for bus drivers.

Some students are eligible for District transportation. While the law requires the District to furnish transportation for such students, it does not relieve parent(s) or guardian(s) of responsibility for supervision until such time as the student boards the bus in the morning and after the student leaves the bus at the end of the school day. Only after a child boards the bus do they become the responsibility of the District. Such responsibility shall end when the child is delivered to the regular bus stop at the close of the school day.

Since the school bus may be regarded as an extension of the classroom, students are required to conduct themselves on the bus in a manner consistent with the expectations established under the Disciplinary Code for Student Behavior (Section VI). Excessive noise, pushing, shoving and fighting, harassment and discrimination will not be tolerated. It is important that those waiting for buses conduct themselves properly in respect to the rights and property of others.

If a student does not conduct themselves properly on a bus, such instances shall be brought to the attention of the building principal and/or designee, by the bus driver. Only the building principals, Transportation Supervisor, or the Superintendent have the authority to suspend the riding privileges of students who are disorderly

or insubordinate on the bus. In such cases, the parent(s) or guardian(s) of those students become responsible for seeing that their children get to and from school safely. Should the suspension from transportation amount to a suspension from attendance at school, the school District will make appropriate arrangements to provide for the student's education. Any such suspension shall be in accordance with the provisions of the Education Law.

IX. Disciplinary Actions

Students may be subject to disciplinary action, up to and including suspension from school, when they engage in or promote:

A. Conduct that is disorderly.

Examples of disorderly conduct include, but are not limited to:

1. Failing to comply with the lawful directions and/or responding to reasonable inquiries of teachers, school administrators or other school employees in charge of students or otherwise demonstrating disrespect.
2. Lateness for, missing or leaving school without permission. Note: External suspension from school will not be employed as a disciplinary measure in circumstances involving chronic truancy, as such penalty is inconsistent with the educational goal of encouraging students to regularly attend and participate fully in school.
3. Skipping detention.
4. Lying to school personnel.
5. Failing to abide by the Code of Conduct.

C. Conduct that is disruptive.

Examples of disruptive conduct include, but are not limited to:

2. Being late for school or class.
3. Being unprepared for class.

D. Conduct that is violent or physically aggressive.

Examples of physical aggression include, but are not limited to:

1. Threatening and/or committing an act of violence (such as hitting, kicking, biting, punching, and scratching) upon a teacher, administrator, or other school employee.
2. Threatening and/or committing an act of violence (such as hitting, kicking, biting, punching, and scratching) upon another student or any other person lawfully on school property.
3. Possessing, selling, purchasing, or distributing in any manner (on your person, in personal belongings, or in/on school-owned property such as a school locker) a weapon. Authorized law enforcement officials are the only persons permitted to have a weapon in their possession while on school property or at a school function. "Weapon" means (but is not limited to) a gun, pistol, revolver, shotgun, rifle, machine gun, disguised gun, bullets, dagger, dirk, razor, stiletto, switchblade or Swiss Army knife, pocket knife, gravity knife, multi-tool, metal knuckle knife, box cutter, cane sword, electronic dart gun, Kung Fu star, num chucks, electronic stun gun, pepper spray or other noxious spray, firecracker(s), explosive or incendiary device and/or bomb, or other dangerous instrument that can cause physical injury or death.

7. Intentionally defacing, vandalizing, damaging or destroying school District property.
8. Bullying, which encompasses an imbalance of power and a variety of negative acts such as: physical (hitting, kicking, spitting, taking personal belongings); verbal (taunting, malicious teasing, name calling); psychological (spreading rumors, manipulating social relationships, extortion, or intimidation) carried out repeatedly over time by a student or group of students towards a less powerful student(s).
9. Engaging in harassing conduct, verbal threats, intimidation, or abuse that reasonably causes or would reasonably be expected to cause a student to fear for his or her physical safety.
10. Communicating, by any means including oral written or electronic (such as through the internet, including social media or email) on or off school property, where the content of such communication:
 - (a) can reasonably be interpreted as a threat to commit an act of violence on school property; or
 - (b) results in material or substantial disruption to the educational environment.

E. Conduct that endangers the safety, morals, health or welfare of others.

Examples of such conduct include, but are not limited to:

1. Stealing, possessing or assisting in the theft of District property of other students, school personnel or any other person lawfully on school property or attending a school function.
2. Vandalism or destruction of school property or the property of others located on school District property or on a school bus.
3. Acts of sexual harassment as defined in the District's sexual harassment policy and/or engaging in sexual behaviors while on school property or attending school functions.
4. Buying, selling, using, possessing or distributing obscene/pornographic material.
5. Possessing, distributing or smoking a cigarette, including vapor cigarettes (and associated liquid substances, such as "e-juice"), cigar, pipe or using chewing or smokeless tobacco.
6. Possessing, consuming, buying (including "intent" to purchase), selling, distributing or exchanging alcoholic beverages, vitamins, supplements, herbs or illegal substances, or being under the influence of such substances. "Illegal substances" but not limited to include inhalants, marijuana, cocaine, LSD, PCP, amphetamines, heroin, steroids, look-alike drugs (substances that resemble or are used to "represent" "illegal" substances, including those used to stimulate drug-use behaviors), natural/synthetic cannabinoids (e.g. man-made chemicals that are applied onto plant material and marketed as a "legal" high that mimic THC in marijuana), CBD products (oil, gummy worms, etc.), synthetic cathinone (e.g. man-made chemicals related to amphetamines, bath salts, etc.), and any substances commonly referred to as "designer drugs".
7. Inappropriately using, sharing or selling prescription and over-the-counter drugs.
8. Inappropriately misusing common household or other products in a manner inconsistent with the intended purpose to become intoxicated or to alter one's physical and/or mental state.

This includes, but is not limited to, posting or publishing video, audio recordings or pictures (hard copy, cell phones, internet, YouTube, or any social media of any kind etc.).
11. Behaving in a manner either on school property or at a school-sponsored function that discriminates against a student based upon that person's perceived or actual race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, or gender.

12. Engaging in cyber bullying, including the use of email, instant messaging, websites, chat rooms, and text messaging, when such use interferes with the operation of the school or infringes upon the general health, safety and welfare of students or employees.
13. Sending, and/or forwarding sexually explicit videos, pictures or auditory recordings and other communications of sexual nature.
14. "Cyber" violations-inappropriate and/or unauthorized use of technology (i.e., personal electronic devices such as smartphones or cell phones; computers; cameras; video and/or audio taping equipment; software; etc.) and/or the internet to engage in behaviors including, but not limited to, bullying, intimidating, threatening, harassing, maligning and/or defaming others, videotaping acts of physical aggression/fighting and posting or sharing such video with others (exclusive of reporting to the authorities), accessing websites for non-academic purposes (e.g., social networking; media downloads, etc.), as well as use of unauthorized proxies or "tunneling". Cyber violations also include violations of the Acceptable Use Policy and/or Electronic Devices with Text Messaging Capabilities Policy. Such behavior may result in disciplinary action regardless of whether it occurs on school property and/or at school-sponsored events or off-campus when a nexus between the behavior and substantial disruption to the school environment or material interference with school activities exists or is foreseen to exist.
15. Engaging in harassment and/or intimidation including communication (verbal, written, or graphic) and/or physical conduct based on an individual's actual or perceived race, color, creed, religion, national origin, political affiliation, sex, sexual orientation, age, marital status, military status, veteran status or disability that has the purpose or effect of substantially or unreasonably interfering with an individual's work performance, academic performance, or participation in an educational or extracurricular activity; is used as a basis for employment decisions affecting such individual; and/or creates an intimidating, hostile or offensive work environment.

6. Violation of the District field trip procedure and behavioral expectations.
7. Violation of copyright laws.
8. Violation of intellectual property rights.
9. Assisting another student in any of the above actions.

X. Disciplinary Expectations and Consequences

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. Practices that allow educators to address behavior concerns as opportunities for learning instead of punishment are far more successful in changing a student's behavior. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline. It is the responsibility of school officials to evaluate all circumstances and options for disciplinary intervention.

Disciplinary action, when necessary, will be firm, fair, and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary consequences will consider the following:

1. The student's age (e.g., a child five (5) years of age may not receive the same consequences as a student 16 years of age due to differences in developmental stage, understanding of a causation, comprehension of consequences, etc.).
2. The nature of the offense and the circumstances that led to the offense.
3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Input from parents, teachers, mental health staff (e.g. school counselors, social workers and psychologists) and/or others, as appropriate.
6. Student's understanding of the impact of their behavior.
7. The impact of the overall school community.
8. Seriousness of the behavior and the degree of harm caused.
9. Other extenuating circumstances.
10. NOTE: Students found to have violated section VI.E. (Alcohol/Other Drugs) and/or VI.F. (Unauthorized Substances) at a school dance will be prohibited from attending any and all dances for the remainder of the school year if such violation occurs during the first semester, and the remainder of the school year as well as the first semester of the following school year if such violation occurs during the second semester of the school year.

The WCSO understands the importance of restorative practices when student behavior issues affect the safety of the classroom and school or interfere with the learning of all students.

Restorative practices are interventions designed to hold students accountable for harm while addressing the needs of students, staff, and the school community. Restorative practice may be defined as a way of thinking and responding to conflict and problems and one which includes all participants.

When choosing interventions and consequences for student behavior, teachers, administrators, and all staff must balance the building's goals of ensuring equity, minimizing disruptions, and maximizing student instructional time. Consequences paired with meaningful instruction and guidance (corrective feedback and re-teaching) offer students an opportunity to learn from their mistakes.

As a general rule, discipline will be progressive. This means that both the number of violations and severity of the behavior will be considered when determining consequences. For example, a student's first violation will usually merit a lighter consequence than subsequent violations. In addition, discipline will include an educative component, providing students with an understanding of the effects of their behavior upon others and an opportunity, as determined by District administration and when appropriate, to repair the harm done as a component of the process.

Measured, balanced, progressive, and age-appropriate responses will be provided as a response to discrimination, harassment, and bullying of students and/or employees. Remedial responses place the focus of discipline on discerning and correcting the reasons why discrimination, harassment, and bullying occurred. The remedial responses are designed to correct the problem behavior, prevent another occurrence of the behavior, and protect the target of the act. Some appropriate responses may include corrective instruction that reemphasizes behavioral expectations or other relevant learning or service experience; engagement of student in a reflective activity, such as writing an essay about the misbehavior and its impact on others and how the student might handle the situation differently in the future and/or make amends to those who have been harmed; supportive intervention and/or mediation where constructive conflict resolution is modeled; behavioral assessment or evaluation, behavioral management plans or behavioral contracts, with benchmarks that are closely monitored; and student counseling and parent conferences that focus on involving persons in parental relationships for discipline issues.

With progressive consequences, we aim to help students:

- Understand why the behavior is unacceptable.
- Understand the harm the behavior caused and the impact that it has.
- Take responsibility for their action.
- Be given the opportunity to repair the harm caused by their behavior.
- Be given the opportunity to learn pro-social strategies and skills to use in the future.

Every reasonable effort should be made to correct misbehavior through interventions and other school-based resources. Interventions are essential because inappropriate behavior or violations of the Code of Conduct may be symptomatic or more serious problems that students are experiencing such as homelessness, poverty, trauma, and loss. It is imperative that school personnel be sensitive to any issues that may influence the behavior of students and respond in a manner that is most supportive of their needs. The Williamsville Central School District supports a trauma sensitive schools' model which provides staff with professional development in responsive and supportive intervention strategies.

When student conduct becomes a disruption to the educational process, school staff and principals respond logically, appropriately, and consistently.

Students who are found to have violated the District's Code of Conduct may be subject to the following consequences, either alone or in combination with one another. The school personnel identified after each consequence are authorized to impose that consequence, consistent with the student's right to due process.

- Verbal warning - any member of the District staff
- Written notification to parent - teachers, building administrators, Superintendent
- Written warning - teachers, building administrators, Superintendent
- Detention - teachers, building administrators, Superintendent
- Temporary removal from classroom by teacher (in accordance with provisions of the SAVE legislation) - teachers
- Monetary restitution for costs or damages incurred by the District as a result of the misconduct - building administrators, Superintendent
- In-school suspension - building administrators, Superintendent
- Suspension from transportation - building administrators, Director of Transportation, Superintendent
- Suspension from athletic participation - building administrators, Superintendent
- Suspension from social or extracurricular activities (i.e.: to include, but not limited to, athletic contests or events, celebratory events, clubs, dances, graduation, moving up day, prom) - building administrators, Superintendent
- Suspension of other privileges (i.e.: leaderships positions, National Honor Society, student competitions, field trips) - building administrators, Superintendent
- Short-term (five days or less) suspension from school - building administrators, Superintendent, Board of Education
- Long-term (more than five days) suspension from school - Superintendent, Board of Education
- Permanent suspension from school - Superintendent, Board of Education

XI. Understanding Types of Consequences

The amount of due process a student is entitled to receive before a consequence is imposed depends on the infraction. In all cases, the school personnel who is authorized to impose the consequences, must inform the student of the alleged misconduct, and must investigate the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary consequences in connection with the imposition of the infraction(s). Students who are to be given consequences other than a verbal warning or written notification to their parents are entitled to additional rights before the consequences are imposed.

DETENTION

Teacher, principals, other school administrators, and designees may use lunch, before-school, and after-school detention as a consequence for student misconduct in situations where removal from the classroom or suspension would be inappropriate. Detention is imposed only after the student's parents have been notified and arrangements for appropriate post-detention transportation home have been made. In elementary or middle school, the teacher and/or administrator is responsible for notifying the parent of the detention and for ensuring that the parent plan for appropriate transportation home, following detention.

SUSPENSION FROM TRANSPORTATION

If a student does not conduct themselves appropriately on a school bus, the bus driver is expected to bring the misconduct to the school principal's attention.

Students who exhibit dangerous or chronically problematic behavior on the bus may have their riding privileges suspended by the school principal, or their designee. In such cases, the student's parents will become responsible for getting their child to and from school safely. Should the suspension from transportation lead to school absence, the District will make appropriate arrangements to provide for the student's education. The student suspended from transportation is not entitled to a full hearing pursuant of Education Law 3214. The student and parent, however, will be provided with a reasonable opportunity for an informal conference with the school principal or the principal's designee to discuss the conduct and the consequence.

TEACHER DISCIPLINARY REMOVAL OF DISRUPTIVE STUDENTS

A student's behavior can affect a teacher's ability to teach and make it difficult for other students in the classroom to learn. In most instances, the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. The goal is to give the student an opportunity to regain their self-control and readiness to learn. If a student poses a danger to self and others, the teacher may order the student to be removed immediately. In the case of serious misconduct, the teacher may request that the principal exclude the student from class pursuant to subdivision 3 of Section 3214 of the Education Law-and not be re-admitted until after the principal, parents, and teacher have conferred jointly.

The teacher must report the incident in the school management system and meet with the school principal or designee as soon as possible-but no later than the end of the school day-to explain the circumstances of the removal. The school principal or designee may overturn the removal of the student from class if:

- The charges against the student are not supported with substantial evidence.
- The student's removal is otherwise a violation of law, including the Code of Conduct.

The principal or designee may overturn a removal at any point between receiving the referral by the teacher and the close of business on the day following the 48-hour period of removal ends, whichever comes first. Any student removed from the classroom by the teacher shall be offered educational programming and activities until he/she is permitted to return to the classroom.

The principal will keep a record of all student removals and ensure that root causes and interventions are addressed.

SHORT TERM (5 DAYS OR LESS) SUSPENSION FROM SCHOOL

- When the superintendent or principal proposes to suspend a student for misconduct, for five (5) days or less, pursuant to Education Law 3214 (3), the suspending authority must immediately notify the student verbally.
- If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension. Whenever possible, the notice should also be provided by telephone if the school has been provided with the telephone number for the purpose of contacting the parent.
- The notice shall provide a description of the charges against the student and the incident for which the suspension is proposed and shall inform the parent of the right to request an immediate informal conference with the principal.
- Translation services will be offered at all stages of the process.
- The notice and opportunity for an informal conference shall take place before the student is suspended, unless the student's presence in school poses a continuing danger to person, property, or an on-going threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension is reasonably practical.
- After the conference, the principal shall promptly advise the parent in writing of the decision.
- The principal shall advise the parent that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five (5) business days, unless they can show extraordinary circumstances precluding them from doing so.
- The superintendent shall issue a written decision regarding the appeal within 30 business days of receiving the appeal.
- If the parent is not satisfied with the superintendent's decision, the parent must file a written appeal to the Board of Education with the District Clerk within 10 business days of the date of the superintendent's decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the board may be appealed to the commissioner within 30 days of the decision. The District may, in its discretion, continue to impose the suspension during the pendency of any appeal.

IN-SCHOOL SUSPENSION

School principals and superintendents are authorized to place students, who would otherwise be suspended from school because of a Code of Conduct violation, in "in-school suspension." A student subjected to in-school suspension is not entitled to a full hearing, pursuant to Education Law 3214. The student and parent, however, will be provided with a reasonable opportunity for an informal conference with the principal imposing the in-school suspension to discuss the conduct and consequences involved. They will also be provided with academic work, from the classroom teachers, to complete.

OUT-OF-SCHOOL SUSPENSION

- Suspensions from school shall be imposed in accordance with the requirements of applicable law and this Code of Conduct.
- Suspension from school is a severe consequence which may be imposed only upon a student whose violent actions or whose conduct otherwise endangers the safety, moral character, physical or mental health or welfare of others. The Board of Education retains authority to suspend a student, but places primary responsibility for the suspension of students with the superintendent and school principals.
- All staff members must immediately report and refer violent incidents to the school principal or the superintendent as violations of the Code of Conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendations or referral warrant immediate action.
- The superintendent or principal, upon receiving a recommendation or referral for suspension, shall gather the facts relative to the matter and record them for subsequent presentation if necessary.

LONG-TERM (MORE THAN 5 DAYS) SUSPENSION FROM SCHOOL

- When the superintendent or principal determines that a suspension for more than five (5) days may be warranted, he or she may give reasonable notice to the student and the student's parent of the right to a fair hearing.
- At the hearing, the student shall have the right to be represented by counsel, the right to question witnesses against him/her and the right to produce witnesses and other evidence on his/her behalf.
- The superintendent shall personally hear and determine the proceedings, or may, in their decision, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceedings before them. A record of the hearing shall be maintained but no stenographic transcript will be required. Tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only and the superintendent may accept all or any part thereof.
- The superintendent shall render a written decision.
- Appeal of the decision of the superintendent may be made to the Board of Education. The Board will make its decision based solely upon the record before it. All appeals to the board must be in writing and submitted to the District Clerk within 30 business days of the date of the superintendent's decision, unless the parents can show extraordinary circumstances precluding them from doing so.
- The Board may adopt or reject, in whole or in part, the decision of the superintendent.
- Final decision of the Board may be appealed to the commissioner within 30 days of the decision. The District may, in its discretion, continue to impose the suspension during the pendency of any appeal.

NOTE: When a student of any age is removed from class by a teacher or when a student of compulsory education age is suspended from school pursuant to Education Law 3214, the district will take immediate steps to provide alternative means of instruction for the student.

RE-ENTRY PROCESS

A re-entry meeting should occur for any student suspended from school. This allows an opportunity to engage in a restorative conversation as well as to determine whether additional supports may be needed to support the student's success.

XII. Pre-Kindergarten Through Grade 2

Aggressive behavior in young children is often a result of a child's unskillful attempt to communicate what they want, need and/or don't like. When a child engages in a violent act that threatens or harms others or makes the learning environment feel unsafe, special procedures need to be in place to ensure that any children involved receive immediate attention.

If a student in grades pre-k through grade 2 engages in pervasive or serious aggressive acts that cause injury or threaten children's safety in the classroom, the principal can determine the most appropriate interventions and request an out of school suspension. Any suspension of a student in grades pre-k through grade 2 requires permission of the Assistant Superintendent of Exceptional Education and Student Services. The principal must immediately provide written notification to the Assistant Superintendent of Exceptional Education and Student Services upon suspension. In addition, an intervention plan should be developed, and parents invited to be directly involved in its development.

XIII. Students with Disabilities

A student with a disability or presumed to have a disability may be suspended for violating school rules only in accordance with the procedures and safeguards set forth in state and federal law. A short-term suspension of ten days or less may be imposed in the same manner as it may with non-disabled peers, as described in the previous sections of this policy.

If a school suspends a student with disabilities for more than 10 consecutive school days in a row or for 11 total days in the same school year for discipline related to similar behaviors, a manifestation determination review must occur with the Committee on Special Education (CSE) before the 10 day threshold. The purpose of the review is to determine whether the behavior that led to the suspension was caused by the student's disability. If the CSE finds that the behavior leading to the suspension is related to the student's disability, no further suspension may be imposed for that similar behavior and the student must return to the placement they were in prior to the suspension. The exception to this return is when the CSE recommends a new placement or the behavior involves drugs, weapons, or inflicted serious bodily injury. In this case, the student may be suspended for up to 45 school days even if the CSE finds in the manifestation determination that the behavior leading to the suspension was related to the student's disability.

If within the course of the manifestation determination the CSE finds that the behavior leading to the student's suspension is not a manifestation of the student's disability, the student may be suspended beyond the ten-day threshold to the same extent as non-disabled peers.

XIV. Corporal Punishment

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any District employee is strictly forbidden.

However, in situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, reasonable physical force may be used to:

1. Protect oneself, another student, teacher or any other person from physical injury.
2. Protect the property of the school or others.
3. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school District functions, powers, and duties, if that student has refused to refrain from further disruptive acts.

The above exceptions are permissible, provided that alternative procedures and methods not involving the use of physical force cannot reasonably be employed to achieve the same purposes.

Whenever a school employee, officer or agent uses physical force against a student, that person shall, within the same school day, make a written report to the building principal and to the Superintendent of Schools or designee, describing in detail the circumstances and the nature of the action taken and notify the parents.

The District will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's Regulations.

XV. Student Searches and Questioning

A. QUESTIONING

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary consequence on a student may question a student about an alleged violation of law or of the District Code of Conduct. Students are not entitled to any sort of "Miranda"-type warning before being questioned by school officials, nor are school officials required to contact a student's parent (s) before questioning the student. However, school officials will tell all students why they are being questioned.

1. Police Involvement in Questioning of Students

It is the policy of the District that a cooperative effort shall be maintained between the school administration and law enforcement agencies. Law Enforcement officials may be summoned in order to conduct an investigation of alleged criminal conduct on school property, or during a school sponsored activity, or to maintain the educational environment. They may also be summoned for the purpose of maintaining or restoring order when the presence of such officers is necessary to prevent injury to persons or property.

Administrators have the responsibility and the authority to determine when the assistance of law enforcement officers is necessary within their respective jurisdictions. The District's administrators shall, at all times, act in a manner which protects and guarantees the rights of students and parents.

If police are involved in the questioning of students on school property, whether or not at the request of school authorities, it will be in accordance with applicable law and due process rights afforded students. Generally, police authorities may only interview students on school property, without the permission of the parent/guardian in situations where a warrant has been issued for the student's arrest (or removal). Police authorities may also question students for general investigations, or general questions at the request of school administrators regarding situations and/or crimes committed on school property. If a student is to be questioned by police on school property, it is the responsibility of the school administration to see that the interrogation takes place privately, in the presence of an Administrator and in the presence of a parent/legal guardian, except when a parent/legal guardian gives verbal consent to the school administration for the interrogation to take place in the absence of the parent/legal guardian. In all other situations, unless an immediate health or safety risk exists, if the police wish to speak to a student without a warrant they should take the matter up directly with the student's parent/guardian.

2. Child Protective Services Investigations

Consistent with the District's commitment to keep students safe from harm and obligation of school officials to report to child protective services when they reasonable cause to suspect that a student that has been abused or maltreated, the District will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse and/or neglect. Such interviews will be completed in accordance with District policy and procedure. In circumstances where criminal activity is suspected, Child Protection Service workers may be accompanied by police officers who are assisting in the investigation.

B. SEARCHES

In recognition of certain societal problems which may present themselves in our schools, the Board of Education authorizes the Superintendent of Schools, the Superintendent's designee, building principals and their designee to conduct searches of students and their possessions for an illegal matter or matter which otherwise constitutes a threat to the health, safety, welfare or morals of the students attending our schools.

In authorizing such searches, the Board acknowledges both state and federal constitutional rights which are applicable to personal searches of students and searches of their possessions (e.g., pocket contents, book-bags, handbags, etc.) Such searches shall not be conducted unless founded upon reasonable individualized suspicion.

In addition, the Board authorizes the Superintendent or the Superintendent's designee, building principal and their designee, to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District Code of Conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. Individual(s), other than the District employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, they make an admission against their own interest, or they provide the same information that is received independently from other sources. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student's belongings the authorized school official should attempt to get the student to admit that they possess physical evidence that they violated the law of the District code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought. Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

1. Student Lockers, Desks and other School Storage Places

Students shall be informed by the administration that school lockers are not their private property but the property of the District and that as such they may be opened and inspected from time to time by school officials. While recognizing the right to inspect student's school lockers without the necessity of obtaining students' consent is inherent in the authority granted school boards and administrators, school officials will exercise every safeguard to:

- a. Protect each student's Constitutional rights to privacy and protection from coercion.
- b. Emphasize that schools are educational rather than penal institutions, and resolve any doubts in the student's favor.

XVI. PINS Petitions

A person in need of supervision (PINS) petition may be filed for any student under the age of 18 who demonstrates that they require supervision and treatment by:

- Visitors will be issued a visitor's badge/sticker which must be worn at all times while in a district building or on school grounds.
- Visitors must return the visitor's badge and sign out at the "Main Entrance" before leaving the building they are visiting.
- Visitors attending school functions that are open to the public, such as parent-teacher meetings or public gatherings are not required to register.
- Teachers are not expected to take class time to discuss individual matters with visitors.
- All visitors are expected to abide by WCSD policies regarding visitors as well as all NYS and local laws while on school property.
- Anyone on school property or attending a school function is expected to conduct themselves in a respectful and orderly manner.
- Any unauthorized person on school property will be reported to the principal. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
- Mental health or other services cannot be arranged with public agencies during the school day except in case of imminent danger to the health and safety of students and staff.
