Miller Learning Center
University of Georgia

REGISTER HERE

If you have any questions,
please contact Michael Stone,
Assistant Director of Admissions
at Michael.Stone2@uga.edu.

UGA's Office of Undergraduate Admissions is excited to bring you an amazing program to prepare your student for high school and college. This program is for 8th grade students (rising 9th graders) and their parents.

The Compass to College Outreach program is designed to create awareness about the transition to high school, postsecondary options, discuss the selective college admissions process and beyond! Middle school students will experience college campus life through interactions with current UGA students, learn about the scholarship application process, hear from high schools, receive giveaways and dine at the Miller Learning Center with a catered lunch from a local Athens restaurant.
