Monadnock Regional School District
Education/Technology Committee Charter

The purpose of the Education/Technology Committee is to develop and support the following initiatives:

1. To review and develop long-term educational planning such as curriculum material selection, assessment methods, and staffing strategies. Provide recommendations to the full school board to continuously align district policies IA (Instructional Goals) and IJ (Instructional Resources) with the board's long-term education vision

2. To continuously review and draft changes to policy book I (Instruction), as well as policies specific to the use of technology, and forward those drafts as recommendations to the Policy Committee

3. To review and maintain the district's strategic technology plan, ensure that:
    a. Current technology honors legal requirements (state, federal),
    b. All Students and Employees have modern, useful tools (including technology)

4. To hear and review requests from the Administration, Students, Employees, and general public related to education or technology proposals and strategies
