INVER GROVE HEIGHTS SCHOOLS | SUMMER 2024

## ISD 199 Makes Budget Reductions After Failed Referendum

FUTURE READY

After completing its annual process of right-sizing staffing, Inver Grove Heights Schools (ISD 199) had to make additional budget reductions to balance the budget for the upcoming school year. We originally estimated a $1.6 million deficit based on enrollment factors, state funding not keeping pace with inflation, and changes in federal funding. We ultimately adjusted for a total of $1.8 million after a recent update on enrollment projections.

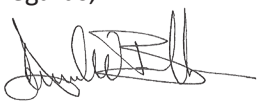

A majority of our funding is based on enrollment. ISD 199 right-sizes staffing near the end of each school year. Right-sizing increases, decreases, or maintains staffing based on enrollment projections for the upcoming year. More local students have been choosing ISD 199 over other districts and homeschooling during the last few years. However, fewer children are being born in Minnesota and around the world, causing incoming kindergarten classes to be naturally smaller than our outgoing graduate classes each year. The annual decreases add up to significant districtwide declines in enrollment.

Additional reductions were necessary to resolve the remaining deficit in our 2024-2025 budget. The deficit is a result of paying more for the same products and services due to inflation, state funding staying the same despite market changes, and the end of ESSER III federal funds that have helped us support students and families. After discussions with school leadership, strategic reductions were made to maximize student support while creating a sustainable budget:

- Right-sizing: $765,000
- Program Adjustments: $331,848
- Department Restructuring: $288,903
- Additional Reductions: $466,532

Budget reductions are one of the most difficult parts of running a school district. We have been lucky to limit them for quite a few years with right-sizing and intentional planning. However, alongside balancing our budget each year, our priority continues to be stretching our resources to offer our students the best education possible.

Regards,

Dave Bernhardson, Superintendent

## LOWER BONDS TO BENEFIT TAXPAYERS

This February, Inver Grove Heights Schools (ISD 199) initiated a bond refunding that will result in a direct savings of $2.4 million for taxpayers. A bond refunding is an opportunity to reduce the district's future payments and tax levies for bonds when interest rates are lower than they were originally. Similar to refinancing a home mortgage loan, new bonds are issued at a lower interest rate and the savings are used to pay off existing bonds.

ISD 199 bought bonds in 2014 to build the Simley High School Performing Arts Center and the Salem Hills Elementary School Media Center and to renovate Simley's Spartan Stadium. The bonds became eligible for refunding starting February 1, 2024.

ISD 199 works with Ehlers, Inc. municipal advisors to continually monitor bond interest rates for opportunities to save taxpayers money. That opportunity arrived on February 22, 2024, when the district accepted its lowest bid. Although the district was looking for a bid that would save taxpayers at least $1.2 million, bids came in even more favorably than expected. Savings for taxpayers doubled to $2.4 million.

None of the savings from bond refundings go to the district. The district's goal in bond refundings is to reduce its burden on taxpayers and demonstrate responsible financial stewardship.

## Thank You, Retirees!

Inver Grove Heights Schools (ISD 199) will say farewell to seven dedicated members of its staff this school year. The 2023-2024 retirees have a combined 159 years of service to ISD 199 students, staff, and families. During their time with our district, they have put hundreds of students on a path to success, been a welcoming presence for families, and made work fun for other staff. Each of these wonderful staff members will be greatly missed.

ISD 199 2023-2024 Retirees

- Deanna Anderson, Pine Bend Elementary School, 28 years of service
- Mary Christensen, Pine Bend Elementary School, 7 years of service
- Jeanette Dalton, Hilltop Elementary School, 10 years of service
- Nancy Johnson, Salem Hills Elementary School, 21 years of service
- Kevin McNamara, Districtwide, 34 years of service
- Michelle Niemi, Simley High School, 27 years of service
- Jerry Sakala, Simley High School, 32 years of service

ISD 199 wishes retirees the very best as they begin their new adventures. Thank you, retirees, for your care and dedication over the years, and congratulations on your well-deserved retirements!

## Simley Highlighted for Concurrent Enrollment

Simley High School was recently highlighted for its exemplary concurrent enrollment program. The Community of Practice event, hosted by Inver Hills Community College and the United Way, invited Simley Principal Jerry Sakala, Assistant Principal Heidi Klukas, and a panel of concurrent enrollment students to present to staff from other area school districts and higher education institutions.

Principal Sakala and Assistant Principal Klukas spoke about expanding the school's concurrent enrollment opportunities and building partnerships with higher education institutions to offer classes that are eligible for college credit. Students shared their experiences in concurrent enrollment classes and answered questions like what has prepared them for their next steps, what concurrent enrollment teachers have done to help them succeed, and how they would convince other students to take concurrent enrollment classes.

## IGH Middle School Holds Poetry Slam

Inver Grove Heights Middle School students in 8th grade wrapped up their poetry lessons with the annual Poetry Slam. Students performed their own poems for a panel of staff judges. Finalists were chosen from each class period, and they performed their poems in the Simley Performing Arts Center for the whole 8th-grade class. Three winners were chosen by a final panel of judges: Congratulations to Lauren, Noah, and Josephina! Scan the QR code with your smartphone camera to see highlights from the Poetry Slam.

*Inver Grove Heights Schools does not discriminate in employment or in any of its programs and activities, including vocational opportunities, on the basis of race, color, creed, religion, national origin, sex, marital status, status with regard to public assistance, familial status, membership or activity in a commission, disability, sexual orientation, or age. Student-related inquiries about non-discrimination policies should be sent to Abel Riodique at 2990 80th Street East in Inver Grove Heights, RiodiqueA@isd199.org, or 651-306-7828. More information is available at www.isd199.org/nondiscrimination.*

## New Principal Selected for Simley

Congratulations to Simley High School Principal Jerry Sakala on his upcoming retirement and the great work he has done over the past 32 years in Inver Grove Heights Schools (ISD 199). This spring, ISD 199 worked on identifying a new leader who will continue to grow Simley, starting next school year. The district is pleased to announce that Carrie Gillund has been chosen as Simley High School's next principal.

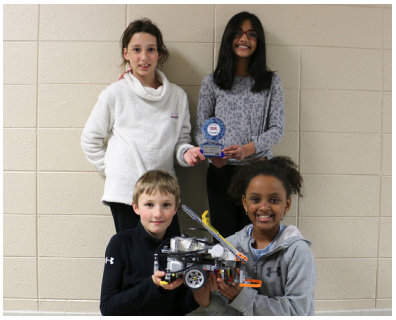

Ms. Gillund was chosen from a pool of highly skilled candidates. She currently serves as the associate principal at Mahtomedi High School. She brings eight years of experience as an administrator and more than a decade as a classroom teacher to the position. During her career, she has created educational opportunities in which students can feel safe to learn and grow.

"I enjoy helping high school students discover who they are becoming as young adults in our global society," she said. "It is important to me that we are helping prepare students for college, career, and life beyond high school."

Similar to the district's 199 Future Ready goals of building belonging, relationships, and engagement, Ms. Gillund says she enjoys building relationships with students, families, staff, and community members and welcomes opportunities to connect. She also believes that, by encouraging educators to be innovative and transformational, classrooms can be spaces where all students become agents of their own personal success.

She is anticipated to start her new position on July 1. Welcome, Ms. Gillund!

## Atheneum Students Earn Four Robotics Awards at LEGO League

Atheneum Gifted Magnet Program 4th-grade students earned four awards in two 2023-2024 FIRST LEGO League Challenges. The Atheneum students were some of the youngest to compete, facing many 8th-grade teams at both events.

The competitions, one in December and one in March, each included a robot obstacle course and a science research project. Students built robots from LEGO sets that FIRST, the non-profit that organizes team-based robotics programs like LEGO League, sent to all of the teams. They had to build their robots to certain specifications in order to maximize their points. Then, they programmed their robots to complete tasks autonomously and explained their building process to a panel of judges.

Students looked into the intersection of science and art for the research portion of the competition. Their research included topics like the influence of Artificial Intelligence (AI) on art now and in the future. At the competitions, they performed a skit to present their findings to judges and show what they learned.

The LEGO League team that competed in December earned a Minnesota Programming Award, and the three teams that competed in March earned three more awards: another Minnesota Programming Award, a Robot Design Award, and a Core Values Award. Congratulations to Atheneum's LEGO League participants!

## HEALTHCARE STUDENTS PRACTICE AT REGIONS

Simley High School students in the TriDistrict Center for Advanced Professional Studies (CAPS) Healthcare course participated in Regions Hospital's first Pipeline 101 event. Students spent the day following and participating in a practice emergency room surgery and hospitalization. They saw all of the processes and procedures related to an emergency room visit, met the staff involved along the way, and connected with Regions and HealthPartners recruiters and volunteer service leaders.

The Pipeline 101 event was a one-day simulation hosted at the HealthPartners Institute Clinical Simulation Center at Regions Hospital. Students followed a practice patient through emergency room intake, assessments, lab work, a surgical procedure, and critical care at the hospital. During each step of the practice patient's care, students heard from the staff involved in that step: nurses, physical therapists, dietitians, doctors, personal care assistants, anesthesiologists, and surgical technicians.

Students also practiced drawing and delivering blood, applying tourniquets, and performing CPR. At the end of the day, they met with HealthPartners and Regions Hospital Human Resources recruiters and Volunteer Service leaders. They learned about opportunities to continue to pursue their interests in healthcare and gain experience. Thank you to TriDistrict CAPS partners Regions Hospital and HealthPartners as well as all of the staff who met with students!

## IGH Middle School WEB Leaders Make a Difference in School & Community

Eighth-grade students in the Inver Grove Heights Middle School WEB (Where Everyone Belongs) Leaders program are leaders for 6th graders and leaders in the community. For their most recent service learning day, WEB Leaders made crafts for local organizations and cleaned up parks around the city.

Students started the day by making blankets to donate to local social services organizations. They also beaded bracelets for children's hospital patients and wrote cards to senior living community residents. In the afternoon, students visited local parks to pick up garbage and create clean, safe spaces for kids.

In addition to their contributions in the Inver Grove Heights community, IGH Middle School WEB Leaders act as school leaders and peer mentors for incoming 6th graders. Pairs of WEB Leaders are assigned a group of 6th graders at the beginning of the school year. The leaders go through a mentorship training during the summer so they are ready to guide incoming students starting on 6th graders' first day of school. They continue to work with the younger students throughout their first year of middle school. Great job leading younger peers and the community, WEB Leaders!

## KARE 11 Meteorologist Visits Science Classes

KARE 11 Meteorologist Jamie Kagol visited Simley High School science classes that had just wrapped up their meteorology lessons. He talked about how he forecasts the weather and how he became a meteorologist.

Mr. Kagol showed students how to read a meteorological map and talked about the science behind his reports. The subject led into the beginnings of his career.

Although he was born in Minnesota, Mr. Kagol said he has worked all over the country and reported on almost every kind of weather event. He told students about his path to broadcast meteorology and what it's like to report on TV. Students asked questions about his career, including his favorite place to work and his favorite season to report on.

Thank you to Mr. Kagol for taking time to visit Simley science students and connect their current lessons to their future options.

## ECFE Expert Presenters

Inver Grove Heights Early Childhood Center's Early Childhood Family Education (ECFE) Teacher Julia Rohda and ECFE Parent Educator Shelley Peterka-Kohlweiss presented at this year's Minnesota Family and Early Childhood Education Conference. The statewide conference is an opportunity for early childhood professionals to learn about the latest research and trends, network with peers and experts, and enhance their professional skills and knowledge.

Ms. Rohda and Ms. Peterka-Kohlweiss held two "BYOB - Bring Your Own Baby" sessions to share their expertise in and ideas for ECFE Baby & Me classes. Later in the conference, they also joined the Teddy Bear band to kick off the conference's celebration of 50 years of ECFE programming in Minnesota.

IGH Early Learning ECFE classes provide parents and caregivers an opportunity to learn and grow alongside their young children, birth through age 3. Learn more at *www.IGHEarlyLearning.org*.

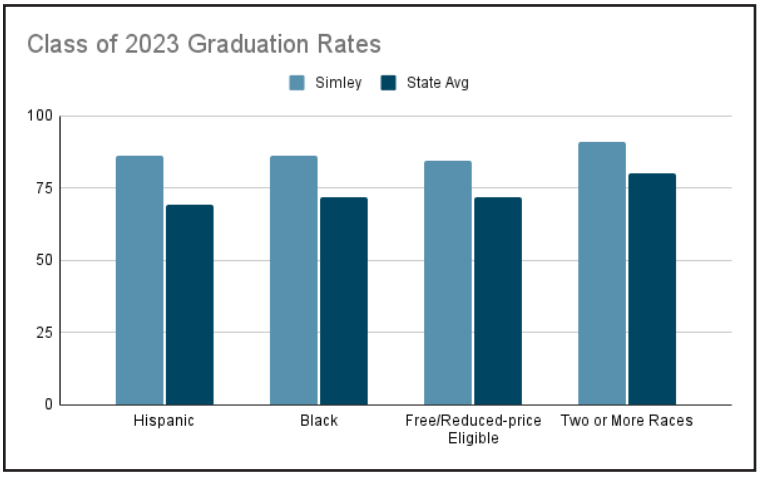

## Simley Class of 2023 Graduation Rates Outpace the State

Simley High School has surpassed the state's average four-year graduation rate once again! Recently released Minnesota Department of Education data shows that both Simley and its Alternative Learning Program (ALP) had higher Class of 2023 graduation rates than the average Minnesota school. Student groups within each school also showed impressive increases in their graduation rates when compared to last school year and the state averages for each group.

Simley's Class of 2023 had a four-year graduation rate of 90.3%. The Class of 2023 rate is similar to Simley's 2022 and 2021 rates, but Simley has consistently outpaced the state's average graduation rate every year. Simley's Class of 2023 graduation rate was 7 percentage points higher than the state average of 83.3%. The ALP's graduation rate of 84% also outpaced the state average, and it is an increase from the graduation rates of its Class of 2022 (82.6%) and 2021 (76.9%).

Within the ALP, students who identify as Hispanic graduated at a rate of 90%, climbing nearly 5 percentage points from the previous year! Simley students who identify as Hispanic also had higher graduation rates than the Simley Class of 2022. They graduated at a rate of 86.2% in 2023, compared to 83.6% the previous year.

When compared to the state average graduation rates for each student group, Simley students who identify as Hispanic graduated more than 17 percentage points higher than the state average for that student group. The graduation rate for students who identify as Black was more than 14 percentage points higher, the rate for students eligible for free and reduced-price lunch was nearly 13 percentage points higher, and the rate for students who identify as two or more races was nearly 11 points higher than the state averages for their groups.

In addition to graduating students, Simley and its ALP work to ensure that students graduate with a plan and the skills for their next steps. Within the Class of 2023, 62.5% of students took at least one advanced course. That percentage included 55.7% of seniors who identify as Hispanic, 80.8% of seniors who identify as Black, and 42.9% of seniors who identify as two or more races. Simley continues to encourage more students to take advanced courses with events like the Advanced Course Fair. During the fair, students who have taken a college-level course answer questions from other students to help inform their class registration for the next school year.

Congratulations to Simley and its ALP on their outstanding Class of 2023 graduation rates!

## • • Volunteers Make a Difference

Inver Grove Heights Schools (ISD 199) volunteers make school events possible! Thanks to the help of volunteers, Pine Bend Elementary School had another successful Students and Adults Learning Together (SALT) Day!

Pine Bend had about 100 volunteers involved in its SALT Day. The event, which has been celebrated since 1992, invites staff, parents, and community members to hold learning sessions for students. Each session focuses on a different sport, hobby, subject, or career pathway. This year, students could explore yoga, hip hop, science experiments, a scavenger hunt, cookie decorating, paint pouring, policing, veterinary work, and much more. Thanks to donations and volunteers from Boltz's The Gym, Cub Foods, Drkula's 32 Bowl, Ecolab, IGH Home Depot, IGH Police Department, and Veterans Memorial Community Center, students walked away with tons of new experiences and some projects to remember the day.

School PTSA, PTO, and Booster organizations, like the Pine Bend Elementary PTSA, are also critical to events like SALT Day. To get involved in a PTSA, PTO, or Booster, contact the school. Community members can also fill out a volunteer application at *www.isd199.org/volunteer* for in-school volunteer opportunities.

It's wonderful to have students learning from members of our community and connecting with them. Thank you, volunteers!

## Both Simley Bands Earn Highest Rank at MSHSL Large Group Contest

The Simley High School Symphonic Band and Wind Ensemble participated in the Minnesota State High School League (MSHSL) Large Group Contest again this year with impressive results! Simley hosted the competition, and bands from Hastings High School, Park High School in Cottage Grove, and Two Rivers High School participated as well. Simley was the only school to enter two bands into the competition.

Both the Simley Symphonic Band and Wind Ensemble received Superior ratings, the highest ranking in the scoring system. This was the 28th year in a row that all three judges gave the Simley Wind Ensemble a Superior rating.

The Simley Symphonic Band received its first Superior rating since the COVID-19 Pandemic.

"Symphonic Band has really pushed themselves over the last three months and that showed in their concert and at the Large Group Contest," Simley Band Director Kevin Robinson said. "I am incredibly proud of both bands."

Congratulations to the Simley bands!

## Simley Senior Named Aspirations in Computing Honoree

Congratulations to Simley High School senior Abigail Tabor on being selected as a 2024 Aspirations in Computing Honoree! The Aspirations in Computing High School Award honors students in grades 9-12 for their computing-related achievements and encourages them to pursue their passions.

Abigail was chosen as a State Honorable Mention recipient for her demonstrated interest and aptitude for computing. Since playing Mario Kart 64 as a child, Abigail has had a fascination with programming and math. She has taken every technology class that Simley offers as well as a summer program at Carleton College. Along the way, she has explored web development, app development, robotics, AI, game development, and game theory.

As an Aspirations in Computing Honoree, she will be eligible for opportunities to further advance her computing knowledge and experience, including mentor matches, summer internships, college scholarships, technology job exploration, and networking. She was honored at an awards ceremony at the Metropolitan Ballroom this spring.

## SPARC Open Skate Offers Positive Activity & Connection for All Ages

MOST Simley High School and Inver Grove Heights Middle School students choose NOT to drink alcohol or vape when hanging out with friends*. This spring's free Open Skate event, hosted by the Inver Grove Heights Spartan Prevention, Advocacy, and Resource Coalition (IGH SPARC) and Inver Grove Heights Parks and Recreation, offered a way for families to connect and a positive activity for all kids.

More than 100 families and children of all ages skated at the Veterans Memorial Community Center ice arena. Throughout the night, parents and relatives taught young children to skate and practiced fundamentals with their avid ice skaters and hockey players. Middle and high school attendees got together with friends to skate and show off their skills. IGH SPARC also provided hot cocoa to help skaters warm up. The event was a great opportunity for families and friends to connect.

IGH SPARC uses the research-based Positive Community Norms (PCN) framework to decrease the use of alcohol, tobacco, and marijuana by youth to improve the long-term overall health of the Inver Grove Heights community. Through the PCN framework, the coalition focuses on using data to show Inver Grove Heights Schools (ISD 199) students that MOST of their peers DON'T drink alcohol, vape, or use marijuana*, even if they think their peers do. IGH parents, students, and community members and ISD 199 staff are invited to join IGH SPARC. Learn more and join the coalition at *www.ighsparc.org/join*.

Thank you to everyone who participated in this year's Open Skate event, and thank you to all of the volunteers who made the event possible! Learn more about IGH SPARC and its upcoming events at *www.ighsparc.org*.

**Data based on the 2023 Positive Community Norms Student Survey of 1,413 IGH Middle School and Simley High School students in grades 6-12.*

*Funded by the Minnesota Department of Human Services - BHDH.*

## Athena Award Winner Leads By Example

Simley High School senior Abi Lindquist has been selected as a 2024 Athena Athlete of the Year! Simley head coaches chose Abi for her work as a role model as much as her outstanding athletic accomplishments.

"Abi has grown tremendously," Simley Cross Country Head Coach Dan Gerber said. "She is one of the top five athletes I have ever coached at Simley regarding work ethic, growth, being a great teammate, and leadership."

Abi is a 5-year member and 1-year captain of the Simley Cross Country Team. In 2019, she earned Most Improved, and in both 2022 and 2023, she earned Academic All State. She has earned All Section, All Conference, and an All Conference Honorable Mention each twice and has been a state meet qualifier twice as well. She holds the school record as the second fastest 5K runner, and in the last four seasons, she was the team's No. 2 runner in all but four Varsity races!

Always looking for a new challenge, Abi spent the 2021-2022 season with the Simley Swim and Dive Team as well. In a single year, she was a Sections qualifier in the 100 Breaststroke and a Top 16 finisher in Diving. In addition to lettering, she earned Rookie of the Year.

Abi has dedicated herself to Nordic Skiing for six years, earning her spot as captain for two. She is a six-time letter winner who has earned an All Conference Honorable Mention once, All Conference three times, and Nordic Academic All State six times! She is a four-time MVP, and she won every Metro East Conference race held during her senior season.

"Abi is a constant competitor. She has developed into an athlete who has the endurance of a distance runner and the explosive power needed to be a skier," Simley Nordic Ski Head Coach Heath Anderson said. " Abi leads by example and is an excellent role model on and off the snow."

With her notable endurance and power on the Nordic Ski Team, it's no wonder that Abi is the Simley Track and Field Team's senior distance captain this spring. She is a five-year participant and four-year letter winner in Track and Field. In 2021, Abi earned an All Conference Honorable Mention in the 4x800 Relay. By 2023, she earned All Section in the 4x800 Relay and the 3200 in addition to earning Academic All State. She is currently ranked 8th in school history in the 1600 and 5th in the 3200.

"Abi is a great example for younger runners," Simley Girls Track and Field Head Coach Gertchen Schwanz said. "She works hard every day and pushes herself to break records."

Congratulations to Abi on her outstanding high school athletics career that earned her the Athena Award!

# FAST FACTS • • • • • • • • • • • • INSPIRE. INNOVATE. EXCEL.

Stay informed of the current issues, challenges, and changes facing the Inver Grove Heights School District.

## #1. HILLTOP PARKING LOT RENOVATION

This past summer, Inver Grove Heights Schools (ISD 199) completed a renovation of the Salem Hills Elementary School parking lot. Students started the current school year with a safer path to school that also relieved backups for commuters who use the road in front of the school. The renovation utilized one-time funds from the sale of South Grove Elementary School's property and abatement bonds. ISD 199 will renovate Hilltop Elementary School's parking lot in a similar way this summer.

ISD 199 was able to create a safer parking lot for Salem Hills students, families, staff, and community members after it sold the property that once included South Grove Elementary School, which closed in 2008. By selling the property, the school district eliminated annual maintenance fees and gained one-time funds that could only be used for capital purchases, such as facility improvements. The project also used abatement bonds, which can only be used for parking lot repairs, replacements, or renovations. The school board approved these abatement bonds in 2022 when interest rates were low, so they only accounted for $2 per month on the average homeowner's taxes.

Remaining funds from the South Grove sale and abatement bonds will be used to renovate the Hilltop parking lot. Renovations are planned for this summer and should be completed by the start of next school year. Like the renovations at Salem Hills, Hilltop's parking lot project will increase the safety of students, families, and staff and relieve congestion and frustration during school pick-up and drop-off.

## #2. DID YOU KNOW? NEWSLETTER MAILING

Inver Grove Heights Schools (ISD 199) mails the 199 Reporter to all residents within its school district boundaries and to all enrolled families. At ISD 199, we believe that our schools are everyone's business. In order to reach everyone, we send this quarterly newsletter through the U.S. Mail.

QUIZ: What is the total cost of printing and mailing a 199 Reporter?

A. $1.00
B. $1.21
C. $0.61
D. $0.86
