2024 ANNUAL REPORT OF THE SUPERINTENDENT

Calendar year 2024 allowed Norwell Public Schools to transition back to their foundations and fully focus on teaching, learning, and student well-being. During the 2024 school year, Norwell Public Schools embraced the core aspects of the NPS Mission:

The Mission of the Norwell Public Schools, in partnership with the community, is to provide excellence in education through a challenging and supportive environment, empowering students to be versatile, innovative, and responsible citizens who are prepared to navigate and contribute to a dynamic global society.

Excellence in education for all students demonstrated itself through local screener and diagnostic data, MCAS scores, and Advanced placement scores. Students challenged themselves through a wide range of program offerings and the ability to choose amongst many college level coursework opportunities. At the same time, academic and social emotional support were available to students requiring continued interventions. While the Panorama Student Profile system was piloted with administration the previous year, the system was made available to ensure students received interventions and support, based upon student data and student surveys.

Fundamentally, Norwell Public Schools strives to empower students to be versatile, innovative, and responsible citizens who are prepared to navigate and contribute to a dynamic global society. While students develop their skills in the classroom, opportunities for students to be involved as decision makers and leaders are present throughout the system. There are many co-curricular, athletic, and arts opportunities for students to perform, create, collaborate, and lead, allowing them to directly connect with the school community and prepare them for their future pursuits.

Office of Teaching, Learning & Technology: The Office of Teaching, Learning, & Technology's major focus area was to take a comprehensive approach to improving student literacy proficiency through consistent implementation of core resources and assessment tools, timely data analysis, and the integration of targeted support for students at all levels of learning.

The strategic K-12 curriculum review and resource adoption cycle continued in 2023-2024. At the Elementary level, Universal Early Literacy Screening occurred for all K-5 students. All families/guardians received thorough communication about the screening processes and their child's results from administrators and teachers. The Elementary schools continued with full implementation of the phonemic awareness curriculum and their first year of implementing the core English Language Arts resource, Into Reading. At the Middle and High Schools, strategies to align and strengthen reading and grammar for grades 6-10 were integrated into the existing curriculum. Also, research into resources for the coming math adoption began. The first administration of the Department of Elementary and Secondary Schools Civics test was administered to grade 8 students. A major improvement in student attendance occurred, though it remains an important focus area. All schools in the District were in the 80th percentile or above in the state Accountability and Assessment System.

Norwell Public Schools took advantage of grants designed to reduce learning gaps and improve student performance. These federal and state grants: the Student Opportunity Act (SOA), and Every Student Succeeds Act (ESSA) require a yearly submission describing the ongoing evidence of implementation and student progress. A new 3-year SOA submission was required for 2024-2027. While English language arts, math, and comprehensive health and physical education were major focus areas, other disciplines were attended to as well.

Office of Student Services: The special education department completed an independent outside audit. The audit studied the student services' organizational structure and practices and provided recommendations regarding

special education structures, staffing, roles and responsibility for special education procedures, policies and services. The findings and recommendations were presented to the School Committee on June 12, 2024. The recommendations included the addition of an administrator who is only responsible for special education and is then able to oversee the special education referral process and the alignment between the K-5 screening process and students with disabilities, provide consistent communication during transitions, and develop efficiencies in paperwork for special education staff. The report was very favorable regarding NPS Inclusion programming and overall student successes.

The entire District received professional development and training regarding a new State IEP form and process that was implemented in fall 2024. The school nurses shared a presentation with the School Committee on November 13, 2023, in which they shared the increased responsibilities of the school nurse and compliance reporting necessary to serve our students and families. The student services department used Panorama to provide and monitor interventions and supports for students at all levels.

Office of Finance, Operations & Technology: Significant advancements were made during 2024 in enhancing security and improving infrastructure across the District. This year, the primary focus areas were to bolster safety measures and upgrade essential facilities to better serve the school community.

Security Enhancements

In alignment with District philosophies, several key security initiatives were successfully implemented.

Notable accomplishments include:

- **E911 System Upgrade:** Ensure that emergency response capabilities are significantly improved during critical situations, providing first responders with the tools needed to respond promptly;
- **New Card Reading Door Access System:** A state-of-the-art card reading door access system was installed to enhance security protocols and ensure that access to sensitive areas is tightly controlled;
- **Internal Door Securing Devices:** All classrooms were equipped with a device that makes securing the classroom door simple and fast; and
- **Additional Security Cameras:** Expanded surveillance capabilities in key locations.

Infrastructure Improvements

In addition to security enhancements, significant strides have been made upgrading educational facilities:

- **High School Computer Lab Replacement:** Replaced the outdated computer lab at the high school, providing students with access to modern technology that supports their learning and prepares them for future challenges;
- **Classroom Presentation Devices:** Initiated the replacement cycle for classroom presentation devices along with laptop replacements for elementary school staff, ensuring that educators have the necessary tools to deliver engaging and effective instruction;
- **Track Resurfacing at High School:** The high school track was resurfaced, enhancing safety for student-athletes and community members who utilize the facility for training and events;
- **Cole School Playground Play Surface Replacement:** Replaced the play surface at the Cole School playground, creating a safer and more enjoyable environment for children to play and learn; and
- **Flashing 20's Sign Replacement:** To improve traffic safety, two flashing 20's signs were replaced in key areas, ensuring that speed limits are clearly communicated to drivers and enhancing the safety of school zones.

In conclusion, FY'24 was a year of substantial progress for the Office of Finance, Operations & Technology. Focuses on security and infrastructure improvements has laid a strong foundation for the continued growth and safety of the school community.

Sincerely,

Matthew A. Keegan
Superintendent of Schools

SECTION ONE: TOWN MEETING INFORMATION GUIDE

FY'26 BUDGET MESSAGE

Managing Resources

During the 2024-2025 school year, Norwell Public Schools have been focused on the creation of a new five-year strategic plan, the implementation of the new state guidelines regarding Individualized Education Plans, and working with the Massachusetts State Building Authority to address either major high school building repairs or potentially a new high school. Norwell Public Schools has always prided itself on being strategic when it comes to student needs, academic initiatives, and financial planning. Strategic planning has helped Norwell Public Schools continuously move forward, develop new opportunities, and prepare for difficult times.

The Norwell School Committee's FY'26 budget request of \$35,879,542 includes a total increase of 7.43%. This request is inclusive of a town operational override. The FY'26 budget addresses contractual obligations, curriculum adoptions, and increased costs due to new gas contracts, maintenance needs, and a new bus contract. Last year, Norwell Public Schools used articles to address fundamental technology needs and mandated Out-of-District Special Education tuitions. Both the Out-of-District Special Education tuition costs and fundamental technology needs are included in this year's budget request. As previously communicated through a school nurses' presentation and a Special Education Department review, in order to be in compliance with recommended student-to-nurse ratios, a 5th nurse will be added; an Assistant Director of Special Education will also be added. In addition, in anticipation of losing Title I funds, Norwell Public Schools is funding the High School Math Tutor Aide position.

The technology cycle continues for our 1:1 iPad system in grades 6-12 and classroom iPads in grades K-5. The current budget includes iPads for grades 5, 6, and 9. The budget also provides teacher laptops for high school teachers, allowing their current laptops to be reallocated to carts that can be used for state testing and mobile student labs. Another set of desktop computers is being purchased to replace a 10-year-old student technology lab. Last year, due to budgetary limits, a technology Article was passed for a cart of laptops that was placed into an elementary school and an upgrade to the district-wide WiFi, which was also partially funded using a federal subsidy provided through E-Rate.

Norwell Public Schools has been vigilant in addressing facilities' needs and engaging in preventive maintenance work, keeping the facilities up to date in order to maintain a safe environment for students and teachers. In the coming year, we will continue to address small non-capital issues. At the same time, we are collaborating with the Town by requesting support from the Capital and Article funds:

Capital Requests:

- Vinal School lift replacement
- Middle School HVAC controls
- Cole School exterior door repair and replacement

Article Requests:

- MSBA feasibility study
- Middle School classroom furniture

If the override does not pass, Norwell Public Schools will need to reduce the budget request by \$2,481,480. Norwell Public Schools will have the same operating budget of \$33,398,062 during the FY'25-26 school year as it did in the FY'24-25 school year. Norwell Public Schools will not be able to meet its employee contractual obligations, resulting in budget cuts and the reduction of 24 staffing positions. These cuts include 1 administrator, 2 district-wide teachers, 11.6 teachers, 7.6 aides, and 2 secretaries. This will also result in the removal of 9 freshman teams and 6 junior varsity teams and a \$100 increase to the bus fee for grades 7-12. In addition, the new technology cycle will not go forward. The new grade 5 iPads will not be purchased; the high school teachers will not receive new laptops; and the elementary schools will not receive the recycled teacher laptops for their laptop carts. This may result in access issues with digital testing and access to digital curriculum.

Overall if the override does not pass, Norwell Public Schools will not be able to provide the same level of course offerings and learning support systems for students in grades K-12.

Continuous improvement remains a core value of Norwell Public Schools. We are truly thankful for the ongoing support of the community. The efforts of the Norwell community, particularly our faculty and staff, as well as our partnership with the Town of Norwell departments, have made this possible.
