

Site Council minutes

2/17/25

5:30 pm -6:30 pm

Online Webex due to weather conditions

Dr. Jared Comfort, principal

Amber Baranski, chair and parent

Amy Shellhorn, PIF and secretary

Kaelyn McCall , vice chair and parent

Edem Folly, parent

Kaci Haney, parent

Welcome/Review of Minutes from last meeting: Minutes were approved

Review Building Goals and data/action plan updates-SRSS, ie, Fastbridge, attendance and behavior data: Dr. Comfort shared an update on the Fastbridge first goal-teachers reflected on the data in teams, they have monthly data meetings to look at interventions and make adjustments if needed. More students had intervention both at the class level and Title support, some increase could be due to the difference in benchmark indicators. We are mirroring the district results. There will be 1 more benchmark test in the Spring still. Those that are “at risk” are progress monitored weekly and those with “some risk” are monitored every other week. There are programs that staff have access to to support these students.

We don't have SRSS data results yet, but there does appear to be an increase. Those students are or will be supported by Donna Calderon and *specials* teachers in small groups. Mrs. Calderon works on GEI plans with teachers and helps with HRT calls and the above-mentioned groups. Her position is important and has been very beneficial.

Our daily attendance is about 92% with the district goal being 90%.

We do have some students with chronic absenteeism, but overall we are pretty strong. We do have procedures in place to help with chronic absenteeism as well.

For behavior data, our suspension data is up. Some factors may include an increase in about 80-100 additional students this year and new staff that are learning strategies and procedures that we have in place. Most of these behaviors are physical aggression which is typically what leads to a suspension. The goal of a suspension is to convey to guardians that this behavior is not acceptable or tolerated. We are above average right now in suspension, but a parent did ask if there was an upward trend in these behaviors and suspensions overall across the district? Dr. Comfort will check on this.

A parent also asked if at a future meeting we could discuss various safety measures and concerns, for example the situation that was covered in the news and addressed by the superintendent at Prairie Park.

Site Council goal update/next steps: We discussed plans for the path in the courtyard. Dr. Comfort shared the photographs he took of some path ideas. Please see below. These are great examples of what we would like to do here at Schwegler. We all agreed it would be a good

idea to create a way to poll or survey the grade levels and classes on which paths they would like to see from the following options: Colors, shapes, letters, numbers, greetings in multiple languages, representative country flags, the solar system, animals, Schwegler themed (PAWS, etc.). We wondered if Mrs. Martin would be able to help facilitate this and plan to have a solid plan in place by our next meeting.

Dr. Comfort will put this on the BLT agenda and also obtain input from the SPED team.

Dr. Comfort will also check with F&O about the possibility of using some windows to display other ideas.
