SCHOOL FUNDING
BREAKDOWN

What were the actual increases in the school's tax income from 2023-2024 to 2024-2025?

Even though property values in our community jumped more than 25% in a single year, the school district didn't see that same increase in funding. With the general fund only going up by 2.8%, the changes in property valuations didn't result in significant revenue for Wooster City Schools.

	2023-2024	2024-2025	% Increase
