RE: Lead Remediation Update

Updated water testing has been conducted in areas where the water is not potable. The results, received on November 19, 2024, were reviewed in consultation with our engineering consultants.

In addition to replacing water points with lead free fixtures and flex piping from the wall supply source, further remediation is ongoing. The remediation process includes installing point of use lead removal filtration units at each of the buildings classrooms sinks and outlets until a permanent solution is implemented.

The remaining areas scheduled for remediation by building are as follows:

- High School: 2 locations
- Middle School: 2 locations
- Holland Patent Elementary: 19 locations
- General William Floyd Elementary: 3 locations
- Annex Building: 1 location

Please contact Nicholas Panuccio, Assistant Superintendent of Business and Finance at 315-865-7505 with any questions.

Sincerely yours,

Dr. Cheryl J. Venettozzi  
Superintendent of Schools
