\*Projected timeline; Note: During the Evaluate/Purchase stage, a needs assessment will be conducted to determine curriculum guide and purchasing needs.

## Evaluation, Adoption, and Purchasing of Instructional Materials Adoption and Purchasing

Tooele County School District is committed to providing current curricular materials for student learning. TCSD will adopt and develop textbook/digital curriculum and instructional materials that are mapped and in alignment with content, philosophy and instructional strategies of the Utah State Core Standards. These materials are intended to serve as the primary sources of study and provide comprehensive coverage of course content. Development and acquisition cycles are determined by and dependent on:

- Funding and district budgeting
- LEA needs assessment
- Standards revisions
- Course development
- Availability of curricular materials

*(Note: Curriculum and textbook review cycles may change due to any of the above factors.)*

For information about policies and procedures for evaluation and adoption of instructional materials, please see the following policies:  
11002 – Selection & Adoption of Primary Instructional Materials, 11003 – Non-Primary Instructional Materials
