Adult Basic Education (ABE)

Budget

- Revenue predicted to be up because of increased hours this year
- Spending up due to increased salaries and added FTE from this past year
- We plan to deficit spend about $71,000 next year to maintain programming
- Three grants end in June and we don’t know if they will be renewed
- Federal funding feels perilous

Program Impacts

- Even though we grew this year, we are expecting to shrink with the loss of new refugees and changes to legal status of some current refugees
- Programming levels will remain stable but exact classes may shift to meet student demand (i.e. shift some EL classes to job training or GED)
