General Project Information
Bond 2023

Project: Land

Project Description:

- Purchase of land for two (2) future elementary school sites
- Purchase of land for a future junior high school site
- Purchase of land for a future high school site

Background & Justification: In order to open new schools per the current roll out timeline, and anticipating a 2026 bond election, four (4) land purchases will be necessary.

In keeping pace with the rapid development occurring within the district, it is important to acquire available property now, in required locations, for future school district facilities.
