

## General Project Information Bond 2023

### **Project: Law Enforcement Center Expansion**

- Facility opened in 2002

### **Project Description:**

- Expand the SSAC
- Conference room space
- Additional offices to support growth

**Background & Justification:** Expansions recommended to support growth. No changes have been made since the facility opened in 2002. As our student population increases, so does the need for space to support added staff.
