

General Project Information

Bond 2023

Project: Support Services Complex Renovation (on Franz Rd near HE & KJH)

- Opened in 2004

This site previously housed Maintenance & Operations and the Police Department, which was relocated to the new facility on Franz Road, east of Morton Ranch High School. The 2004 project included expansions to Food Service, Warehouse, Print Shop, Purchasing, Transportation, and Maintenance & Operations.

Project Description:

- Mechanical/electrical/plumbing upgrades
- Review additional space for growth

Background & Justification: Expansions and building component replacement are recommended to support growth and building integrity. No changes have been made since the facility opened in 2004. As our student population increases, so does the need for space to support added staff.
