

General Project Information Bond 2023

Project: Vestibule Slider Replacement

Project Description: Replacement of slider doors with electrified swing style doors at campus' primary entrances. Campuses still having slider doors as part of their primary access points include:

Alexander Elementary (RAE)	Williams Elementary (JWE)	WoodCreek Junior High (WCJH)
Morton Ranch Elementary (MRE)	Holland Elementary (BHE)	Cardiff Junior High (CJH)
Sundown Elementary (SE)	Kilpatrick Elementary (OKE)	Cinco Ranch Junior High (CRJH)
King Elementary (RKE)	Jenks Elementary (MJE)	McMeans Junior High (MMJH)
Bethke Elementary (CBE)	Schmalz Elementary (SES)	Seven Lakes Junior High (SLJH)
Bryant Elementary (BES)	Stanley Elementary (SSE)	Tays Junior High (TJH)
Campbell Elementary (ACE)	WoodCreek Elementary (WCE)	Katy High School (KHS) Main & 9 th
Cimarron Elementary (CE)	Shafer Elementary (FPSE)	Mayde Creek High School (MCHS) Main
Randolph Elementary (JRE)	Wolfe Elementary (WE)	Seven Lakes High School (SLHS) Main & 9 th
Exley Elementary (JEE)	Wolman Elementary (RJWE)	Tompkins High School (OTHS) Main & 9 th
Rylander Elementary (RRE)	West Memorial Junior High (WMJH)	
Davidson Elementary (KDE)	Beckendorff Junior High (BDJH)	
Franz Elementary (FES)	Morton Ranch Junior High (MRJH)	
Rhoads Elementary (RES)	Mayde Creek Junior High (MCJH)	
Stephens Elementary (USE)		
Stockdick Junior High (SJH)		
Mayde Creek Elementary (MCE)		

Background & Justification: On June 1 and 2, Governor Abbott charged the Texas School Safety Center (TxSSC) and the Texas Education Agency (TEA) with a set of directives to support the safety and security of public schools. As directed by Governor Abbott, TEA and TxSSC were immediately mandated the review and weekly inspection of all campus exterior doors to collectively improve the level of safety at all Texas public schools.

While reviewing the details of this state directive, conducting the mandated exterior door checks and considering historical maintenance issues, costs and functional use of slider style doors by campuses, Katy ISD identified a potential vulnerability. District leadership determined that replacement of all slider style doors at every campus's primary access point would address this vulnerability. By replacing the slider style doors with an electrical swinging style door, the reliability and confidence of the safety and security at primary entrances would be greatly enhanced and meet the intent of the governor's recent mandate.
