Summary Report:

Specific Result 1.1 outlined a comprehensive approach to ensuring that all campuses and departments meet the required components of the district's emergency operations plan and state safety requirements. Key outcomes include ongoing collaboration with district departments to adhere to state and local safety mandates, the implementation and maintenance of a district-wide Multi-Hazard Emergency Operations Plan, and enhanced coordination with law enforcement agencies. Additionally, efforts are being made to educate students and the community on safety protocols, apply the district's Safe & Supportive School Process (SSSP) to address safety concerns, and continuously improve safety measures through audits, training, and evaluations. The plan's progress is being measured through district audits, meeting documentation, and training plans, all verified by the district's safety and security committee.
