

General Project Information

2021 BOND

Project: NFS Kitchen Equipment Replacement

Project Description: Replacement of select kitchen equipment components

Campuses:

2022

- Beck JH (BJH)
- McMeans JH (MMJH)

2023

- Alexander ES (RAE)
- Hayes ES (JHE)
- Mayde Creek JH (MCJH)
- McRoberts ES (PME)
- West Memorial JH (WMJH)

Project Cost: \$3,165,000

Background & Justification:

Kitchen equipment including Convection ovens, dishwashers, garbage disposals and other miscellaneous identified equipment, at seven campuses are original to those facilities and have reached, or have exceeded, their life cycles. Our Katy ISD Maintenance and Operations staff have done a great job maintaining and cleaning this equipment over the years, but the equipment is getting costly to repair and to keep in operation. Campuses in need of kitchen equipment replacements in 2022 include Beck and McMeans junior highs; and in 2023 Alexander, Hayes and McRoberts elementary schools, and Mayde Creek and West Memorial junior highs.
