Goal 5 Action Plan Year 1 Priorities – 2024-2025

Call to Action:

Katy ISD learners, through active engagement, achieve individual success while making positive contributions in an ever-changing world.

Goal 5:

Katy ISD will securely, effectively, and efficiently provide best-in-class technology to accommodate, educate, and inform all stakeholders on the current and next generation of digital content and tools.

Specific Result 5.1:

Create a process that measures utilization and seeks feedback of technology resources, systems, and tools.

Summary Report:

Specific Result 5.1 successfully established the creation of a process to measure the utilization and gather feedback on technology resources, systems, and tools within the district. Key outcomes included identifying specific technology resources, systems, and tools to be evaluated, setting up metrics to assess their effectiveness, and developing a custom data dashboard to track these metrics. The plan also involved ongoing review and feedback from software and application vendors to ensure alignment with user needs. By May 2025, a dashboard will be deployed to measure application usage and evaluate return on investment, with a focus on phasing out underused technology while continuing to support and enhance the most utilized applications.
