♥ **Captain Underpants and the Perilous Plot of Professor Poopyants**

The Fourth Epic Novel

Dav Pilkey

Scholastic (2000)

Summary:

Young troublemakers George and Harold are back with Mr. Krupp, the Jerome Horowitz Elementary principal they previously transformed into the superhero Captain Underpants with their 3-D hypno ring. This comic adventure begins in New Swissland, where everyone has a silly name. ("Just ask their president, the Honorable Chuckles Jingleberry McMonkeyburger Jr. or his lovely wife, Stinky.") New Swissland, just southeast of Greenland, is the home of the inventor of the Shrinky-Pig 2000 and the Goosy-Grow 4000--Professor Pippy P. Poopypants. When the professor decides to pitch his inventions in the United States, he is laughed out of every institution of higher learning because of his unusual name. Frustrated, he decides to become an elementary school science teacher where the innocent children will, he assumes, be accepting and loving. This is where his world collides with George and Harold's, who are not accepting of his funny name, but instead explode with laughter and promptly craft a new comic book called "Captain Underpants and the Pied Pooper of Piqua." This hilarious book will crack Pilkey fans up with tiny toilets of truth, evil gerbils, and even Cher's greatest hits. (The children--not notoriously good spellers--note: "All animal cruelty was simulated. No actual girbles were forced to listen to Cher.") And what becomes of Professor Poopypants? He gets even, devising a method to convert all names into silly names. He creates a chart in which everyone has to use letters from their own first and last names to create a madcap moniker. In the end, George and Harold learn that it's not nice to make fun of people.

In the fall, pumpkins are everywhere: in the garden, in the supermarkets, and on doorsteps. But do you know how they grow from a tiny yellow seed to a pumpkin? In this classic Level 1 Let's-Read-and-Find-Out picture book, Wendy Pfeffer's lively text combines with James Graham Hale's beautiful watercolors to bring readers into the pumpkin patch to show them how little seeds transform into big pumpkins. Now rebranded with a new cover look, this book includes a find out more section with activities such as an experiment to show how plants use roots to drink water from the ground and a recipe for roasted pumpkin seeds. Both text and artwork were vetted for accuracy by Barbara J. Bromley, Mercer County Horticulturist. This is a Level 1 Let's-Read-and-Find-Out, which means the book explores introductory concepts perfect for children in the primary grades and supports the Common Core Learning Standards and Next Generation Science Standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.

Michelle Knudsen and Kevin Hawkes

Candlewick Press (June 25, 2009)

Summary:

An affectionate storybook tribute to that truly wonderful place: the library. Miss Merriweather, the head librarian, is very particular about rules in the library. No running allowed. And you must be quiet. But when a lion comes to the library one day, no one is sure what to do. There aren't any rules about lions in the library. And, as it turns out, this lion seems very well suited to library visiting. His big feet are quiet on the library floor. He makes a comfy backrest for the children at story hour. And he never roars in the library, at least not anymore. But when something terrible happens, the lion quickly comes to the rescue in the only way he knows how. Michelle Knudsen's disarming story, illustrated by the matchless Kevin Hawkes in an expressive timeless style, will win over even the most ardent of rule keepers. From the Hardcover edition.

♥ Mufaro's Beautiful Daughters

John Steptoe

Harper Collins (March 31, 1987)

Summary:

Mufaro was a happy man. Everyone agreed that his two daughters were very beautiful. Nyasha was kind and considerate as well as beautiful, but everyone -- except Mufaro -- knew that Manyara was selfish, badtempered, and spoiled. When the king decided to take a wife and invited "The Most Worthy and Beautiful Daughters in the Land" to appear before him, Mufaro declared proudly that only the king could choose between Nyasha and Manyara. Manyara, of course, didn't agree, and set out to make certain that she would be chosen. John Steptoe has created a memorable modern fable of pride going before a fall, in keeping with the moral of the folktale that was his inspiration. He has illustrated it with stunning paintings that glow with the beauty, warmth, and internal vision of the land and people of his ancestors.

Off to Class

Incredible and Unusual Schools Around the World

Susan Hughes

Owlkids (2011)

Summary:

Travel around the globe to visit some of the world's most incredible schools, and meet the students who attend them, in this best-selling and award-winning nonfiction pick for ages 9 to 12. When North American kids picture a school, odds are they see rows of desks, stacks of textbooks, and linoleum hallways. They probably don't picture caves, boats, or train platforms -- but there are schools in caves, and on boats and on train platforms. There's a whole world of unusual schools out there! But the most amazing thing about these schools isn't their location or what they look like. It's that they provide a place for students who face some of the toughest environmental and cultural challenges, and live some of the most unique lifestyles, to learn. Education is not readily available for kids everywhere, and many communities are strapped for the resources that would make it easier for kids to go to school. In short, it's not always easy getting kids off to class -- but people around the world are finding creative ways to do it. In *Off to Class*, readers will travel to dozens of countries to visit some of these incredible schools, and, through personal interviews, meet the students who attend them, too. And their stories aren't just inspiring -- they'll also get kids to think about school and the world in a whole new way!

Summary:

With a simple, witty story and free-spirited illustrations, Peter H. Reynolds entices even the stubbornly uncreative among us to make a mark - and follow where it takes us. Her teacher smiled. "Just make a mark and see where it takes you." Art class is over, but Vashti is sitting glued to her chair in front of a blank piece of paper. The words of her teacher are a gentle invitation to express herself. But Vashti can't draw - she's no artist. To prove her point, Vashti jabs at a blank sheet of paper to make an unremarkable and angry mark. "There!" she says. That one little dot marks the beginning of Vashti's journey of surprise and self-discovery. That special moment is the core of Peter H. "A stunning combination of fluent prose and exquisitely wrought illustrations" (School Library Journal). "An inventive twist on the classic tale" (Publishers Weekly). She has nothing—no mother or father, and no friends. She is a slave, from the far-off country of Greece. Only the beautiful rose-red slippers her master gives her can make Rhodopis smile. So when a falcon swoops down and snatches one of the slippers away, Rhodopis is heartbroken. For how is she to know that the slipper will land in the lap of the great Pharaoh himself? Summary:

In this second book of The Adventures of Sophie Mouse, Sophie and her friend Hattie Frog go on a daring adventure through the woods in search of some special art supplies! In the second book in The Adventures of Sophie Mouse, Sophie learns about some special emerald berries that will make the most perfect color for a painting she wants to do! But the seamstress who's using the berries tells Sophie that they can only be found in one part of the forest: Weedsnag Way. Though that's far from home, and a little scary, Sophie convinces her best friend, Hattie Frog, that they will be fine. But all is not quite fine, and the girls get lost along the way! Thanks to the help of a squirrel who disappeared from Pine Needle Grove years ago, Sophie and Hattie find the emerald berries...and their way home! With easy-to-read language and illustrations on almost every page, the Adventures of Sophie Mouse chapter books are perfect for beginning readers.

♥ The Important Book

Margaret Wise Brown

Harper Collins (March 10, 1990)

Summary:

The important thing about The Important Book -- is that you let your child tell you what is important about the sun and the moon and the wind and the rain and a bug and a bee and a chair and a table and a pencil and a bear and a rainbow and a cat (if he wants to). For the important thing about The Important Book is that the book goes on long after it is closed. What is most important about many familiar things -- like rain and wind, apples and daisies -- is suggested in rhythmic words and vivid pictures. 'A perfect book . . . the text establishes a word game which tiny children will accept with glee.' -- K.

♥ What is Pollination?

Bobbie Kalman

Crabtree Publishing Company (2010)

Summary:

Pollination has been in the headlines for the past few years because it directly affects the food supply on Earth. Flowering plants produce fruit or seeds only after pollination. Pollination by insects is a critical function of all land ecosystems. Most orchard fruits, vegetables, and some field crops are pollinated by insects. Pollinators are threatened by pesticides, invasive species, and habitat destruction, but they are especially threatened by a lack of awareness about their importance. This informative book filled with stunning photographs will focus on the critical fact that protecting pollinators means having food to eat. It will help children look at insects in a very different way. Teacher's guide available.
