

SUPER STETHOSCOPE

Listen to the beat of your heart!

MATERIALS:

BALLOON
SCISSORS
1 SMALL PLASTIC FUNNEL
1 LARGE PLASTIC FUNNEL
ELECTRICAL TAPE
PLASTIC TUBING
(MUST FIT OVER THE ENDS
OF THE FUNNELS)

- 1 Cut the end off of the balloon. Stretch the balloon over the large funnel.
- 2 Use electrical tape to hold the balloon tightly in place.
- 3 Cut a piece of tubing long enough to reach from your ear to your chest.
- 4 Attach one end of the tubing to each funnel. If they don't fit tightly, use tape to secure them.
- 5 Go into a quiet room. Place the large funnel over your heart. Put the small funnel against your ear. Hear anything? Try running around a bit to get your heart pumping faster. Then listen again.
