- 1 Put some noodles in several plastic bags. Do one bag for each color you want to use.
- 2 Put lotion on your hands. This will help keep the food coloring from dyeing your skin.
- 3 Add $\frac{1}{2}$ to 1 teaspoon of vinegar to each bag. Add several drops of food coloring to each bag. Close the bags.
- 4 Pick up a bag. Rub the noodles through the plastic to mix the color around. Keep rubbing until the noodles are coated evenly.
- 5 Repeat step 4 with the other bags. Then open the bags. Leave the noodles in the bags until they are completely dry.
- 6 Arrange the colored noodles on the construction paper. Make flowers and other designs. Then glue the noodles to the paper. Let the glue dry.
