Offer resources to students in a variety of ways to accommodate for multiple learning styles.	Utilize a multi-sensory (Visual, Auditory, Kinesthetic, Tactile) approach as needed during instruction to better engage all learners.	Provide extended time to complete classwork and assessments as needed. Assignments and rubrics may need to be modified.	Offer pre-assessments to better understand students' strengths, and create an enhanced set of introductory activities accordingly.

● Engage all learners through implementation of various resources including visual, audio, and tactile materials. ● Provide easy access to course resources so the student can utilize materials within the classroom or at home to reiterate content learned within the course.	● Provide alternate presentations of skills and steps required for project completion by varying the method (repetition, simple explanations, visual step-by-step guides, additional examples, modeling, etc). ● Allow additional time to complete classwork as needed, when required according to students' IEP or 504 plan. Break assignments up into shorter tasks while repeating directions as needed. Offer additional individual instruction time as needed. ● Modify test content and/or format, allowing students additional time and preferential seating as needed, according to their IEP or 504 plan. Review, restate and repeat directions during any formal or informal assessments.	● Provide access to preferred seating, when requested. ● Check often for understanding, and review as needed, providing oral and visual prompts when necessary.	● Integrate active teaching and learning opportunities, including grouping gifted students together to push each other academically. ● Propose interest-based extension activities and opportunities for extra credit.

**NJSLS CAREER READINESS,
LIFE LITERACIES & KEY
SKILLS**

Disciplinary Concepts:

Career Awareness & Planning, Creativity & Innovation, Critical Thinking and Problem-Solving, Technology Literacy

Core Ideas:

Different types of jobs require different knowledge and skills.
Brainstorming can create new, innovative ideas.
Critical thinkers must first identify a problem then develop a plan to address it to effectively solve the problem.
Collaboration can simplify the work an individual has to do and sometimes produce a better product.

Performance Expectation/s:

Make a list of different types of jobs and describe the skills associated with each job.
Demonstrate openness to new ideas and perspectives.
Demonstrate originality and inventiveness in work.
Gather information about an issue, such as climate change, and collaboratively brainstorm ways to solve the problem.
Identify possible approaches and resources to execute a plan.
Use a variety of types of thinking to solve problems.
Describe the benefits of collaborating with others to complete digital

		tasks or develop digital artifacts.
	Career Readiness, Life Literacies, & Key Skills Practices	
	Demonstrate creativity and innovation. Utilize critical thinking to make sense of problems and persevere in solving them. Use technology to enhance productivity, increase collaboration and communicate effectively. Work productively in teams while using cultural/global competence.
