

Santo Independent School District

2024-2025 Parent and Family Engagement Policy & Program

What is it?	<p>Santo ISD believes partnerships between parents, students, teachers, and the community are vital to the success of our school system. Our school receives Title I, Part A funding, and in return, we promise to meet the expectations laid out for us by the Texas Education Agency and the United States Department of Education.</p> <p>Santo ISD must conduct, with the meaningful involvement of parents, an annual evaluation of the content and effectiveness of the parent and family engagement policy, identify any barriers to greater participation by parents/families, identify the needs of parents/families to assist with the learning of their children and identify strategies to support successful school and family interactions.</p>
Outcomes	<p>Parents and families are a child's first teachers. They imitate you from the moment they are born. Therefore, a mutually beneficial relationship between school and home is in the best interest of every child. Our efforts are intended to foster communication and decision-making with parents about student performance and to collaboratively support learning.</p> <ul style="list-style-type: none">➤ Effective two-way communication between school and home is linked to a higher completion rate on homework, better attention during instructional tasks, increased participation by all parties, and improved interactions and relationships between parents, teachers, and students.➤ If a child's parents are more involved in school experiences, the child is more likely to have higher grades, improved behavior, better attendance, greater social skills, and adaptation.➤ Learning together leads to a better school and home life.➤ Being a lifelong learner can prevent some health issues that often occur later in life.
