Self-Directed Academy

PROGRAM OVERVIEW

THE SELF-DIRECTED LEARNER

Self-directed learners embody a natural curiosity and a passion for discovery. They possess an intrinsic motivation to learn and excel, continually asking questions to deepen their understanding. They set personal goals and take initiative in their education, embracing ownership of their learning journey. Self-directed learners recognize the importance of managing assignments and deadlines, proactively overcoming challenges. They communicate effectively and respectfully, thriving as motivated contributors to our vibrant learning community.

EDUCATIONAL APPROACH: PERSONALIZED, COMPETENCY-BASED LEARNING

Our instructional model is built on the principle that learning should be self-directed, competency-based, and not confined by traditional time constraints. We emphasize mastery of content through personalized pathways facilitated by cutting-edge technology.

- **Project-Based Learning (PBL):** PBL is a teaching method in which students learn by actively engaging in real-world activities and personally meaningful projects. PBL is embedded throughout the program providing students with integrated units of study across content areas that empower students to have choice and voice in what they learn.
- **STEAM (science, technology, engineering, arts and math):** STEAM emphasizes collaboration and exploration through student-centered learning experiences that provide opportunities to engage in hands-on, real-world problem solving.
- **Technology Integration:** The Self-Directed Academy utilizes various online platforms to enhance student learning through increasing interactivity and autonomy.
- **Flexible Scheduling:** Our soft schedule approach in middle school prepares students for high school by gradually increasing their autonomy over how they manage their learning time.

The Anxious Generation Book Discussion

May 13, 2025 | 6:00–8:00 PM

Fargo Public Library Dr. James Carlson Branch
2801 32nd Ave S, Fargo, ND 58103

Understanding The Anxious Generation: A Call to Caregivers and Community

Join Fargo Public Schools educators and professionals for a conversation about “The Anxious Generation” and the effects of cell phone and social media use on the mental health of students from 6-8 p.m. Tuesday, May 13 at the Fargo Public Library Dr. James Carlson branch. Jonathan Haidt’s book has cemented itself in the New York Times best-seller list each week since its release in March 2024 and has inspired conversation and legislation related to youth smartphone and social media use. Caregivers and community members are invited to be part of the conversation about how society’s “rewiring” from play-based childhoods to phone-based childhoods has harmed children and what strategies can be used at home and in school to help curb these impacts.

The first 70 attendees will receive a free copy of the book!

Master Jim is an incredible teacher and mentor to his students, and I recommend RRTKD to all families who are looking to engage in an activity that is enriching for the body, mind and soul.

Master Jim is excellent with kids and adults alike. The gym has bathrooms and changing rooms. There are chairs for parents to watch practice. Classes are inclusive and well-staffed. The discipline is friendly, and the program is somewhat self-paced. It's a wonderful gym for beginners or experienced athletes.
