## BRICKBOTS & MACHINES CAMP June 30th — July 3rd

TIME: 9 AM—5 PM

FEE: \$ 321

GRADES: K-6 (25-26 Grade Level)

LOCATION: HAMMARSKJOLD

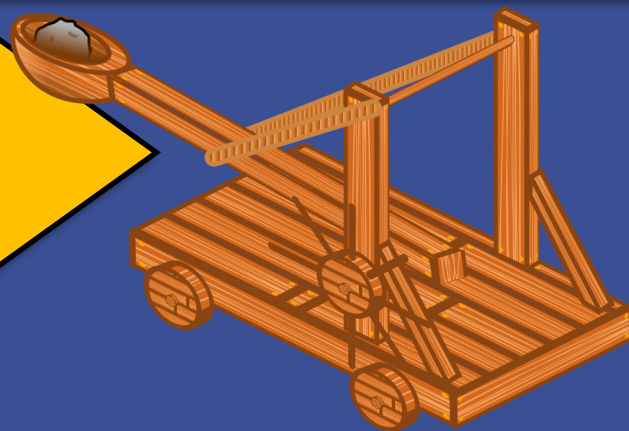

### Brixology Amazing Architecture

Get ready to build, invent, and explore like never before! In Brixology, students dive into the world of engineering using custom Mad Science LEGO® kits to bring their creations to life. Each class features a brand-new project focused on a different branch of engineering—from towering structures and powerful machines to seaworthy vessels and beyond. Along the way, young builders will put their creativity, critical thinking, and teamwork skills to the test as they design, build, experiment, and improve their inventions. With hands-on challenges and real-world problem-solving, Brixology sparks the imagination and lays the foundation for the next generation of innovators and makers!

### Mad Machines & Jr. Engineers

Love to build *and* break things? Then this is the camp for you! Get hands-on with awesome simple machines like pulleys, wedges, screws, and levers as you design and launch your very own catapults. Dive into mind-bending fun with shapes like triangles and cubes while experimenting with tessellations. Then team up with your fellow campers to take on the ultimate challenge: building a giant geodesic dome big enough for everyone to fit inside! Creativity, teamwork, and tons of building fun await—let's get to work (and play)!

*Students must bring in their own bagged lunch and snack. It is recommended to bring in a refillable water bottle. Students must be signed-out and picked-up by an adult 18 years or older. No transportation.*

9 am—12 pm: Science Camp  
12 pm—1 pm: Lunch brought from home & play  
1 pm—4 pm: Science Camp  
4 pm—5 pm: Snack brought from home, outdoor play if weather permits, & indoor games
