[Pacing Guide](#)

Unit	1	Unit Title:	Fitness Through Movement	Pacing:	5 Days
Unit Summary: Fitness involves many different aspects of movement. In this first unit of seventh grade Physical Education, students assess their current fitness level and explore how they can positively impact their fitness level by applying FITT principles. Additionally, students examine how technology has revolutionized the fitness industry, making it easier for individuals to monitor their own fitness. Finally, students build movement skills in isolated practice and applied settings, creating movement sequences or dances for exercise and self expression.					
Essential Question: How can I be fit for life? How does effective and appropriate movement affect wellness?					
Objectives: - Identify the short and long term benefits (physical, social, emotional) of regular physical activity and how they may change during one's lifetime. - Define body composition and identify healthy strategies for gaining, maintaining or losing weight safely (such as applying healthy eating principles, modifying lifestyle behaviors, and increasing physical activity). - Determine how advances in technology may be used to improve personal fitness using the primary principles of training (FITT). - Explain and apply concepts of force and motion (weight transfer, power, speed, agility) to changing environments (i.e games, sports and dance). - Create and demonstrate a planned movement sequence that includes changes in force, motion and tempo in various physical activities (i.e. games, sports, dance).					

NJSLS-CHPE Standards: 2.1.8.PGD.1, 2.2.8.LF.4, 2.2.8.LF.5, 2.2.8.PF.1, 2.2.8.PF.3, 2.2.8.PF.5, 2.2.8.MSC.1, 2.2.8.MSC.2, 2.2.8.MSC.4

Unit	2	Unit Title:	Fitness in Cooperative Activities	Pacing:	9 Days
Unit Summary: Being able to work cooperatively with others helps make a person a successful member of society. During this unit, students engage in a variety of cooperative activities to learn how verbal and nonverbal communication can influence cooperative outcomes and consider how best to respond to constructive criticism. Additionally, students explore healthy ways individuals can gain, maintain, or lose weight safely in our body-conscious culture.					
Essential Questions: Why is it important to work well with others? How does effective and appropriate movement affect wellness?					
Objectives: ● Define body composition and identify healthy strategies for gaining, maintaining or losing weight safely (such as applying healthy eating principles, modifying lifestyle behaviors, and increasing physical activity). ● Compare and contrast different types of verbal and nonverbal communication that are appropriate when responding to conflict and peer negotiation in cooperative activities. ● Compare and contrast the effectiveness of cooperative strategies in a variety of settings (game, sport, dance). ● Evaluate feedback received from self-evaluation and external sources to improve motor performance during cooperative activities.

Unit	3	Unit Title:	Developing Individual Performance	Pacing:	4 Days
Unit Summary: Fair evaluation of others and offering constructive feedback are difficult skills to develop. In this unit, students work independently and with partners to strategize ways to improve their individual fitness and movement skills. Through a variety of activities and games, students practice sportsmanship in applying rules of play.					
Essential Questions: What can I do to improve my performance in fitness and in games? Why is strategy important if I have talent or skill in an activity or sport? How can I constructively help others improve their performance?					
Objectives: - Identify and demonstrate critical thinking skills necessary to design effective offensive and defensive strategies. - Provide fair and honest skill specific feedback to a partner which will be integrated into game play (tennis, pickleball, badminton). - Compare and contrast the different behaviors participants may exhibit in relation to proper sportsmanship in individual and dual activities.					
NJSLS-CHPE Standards: 2.2.8.LF.2, 2.2.8.LF.7, 2.2.8.PF.4, 2.2.8.MSC.2, 2.2.8.MSC.3, 2.2.8.MSC.4, 2.2.8.MSC.6

Unit	4	Unit Title:	Fitness in Team Activities	Pacing:	9 Days
Unit Summary: In this final unit of seventh grade Physical Education, students participate in team activities to hone their understanding of how individual performance contributes to team success. Focusing on what team truly means, students work to improve the game experience for all group members through safety, sportsmanship, and strategy. Finally, students apply their knowledge of skill and health related fitness to create a plan for an active summer.					
Essential Questions: How do team activities combine many elements of fitness? How does strategy influence performance in competitive games and activities?					
Objectives: - Identify the short and long term benefits (physical, social, emotional) of regular physical activity and how they may change during one's lifetime. - Analyze individual play, defined by role responsibility, in team activities and games. - Identify and evaluate specific mental strategies that could be applied in team games or activities to improve overall performance. - Demonstrate strategies that will work to improve the effectiveness and safety of all participants during team activities and sports.					
NJSLS-CHPE Standards: 2.1.8.PGD.4, 2.1.8.SSH.3, 2.2.8.LF.1, 2.2.8.LF.3, 2.2.8.PF.2, 2.2.8.MSC.1, 2.2.8.MSC.3, 2.2.8.MSC.4, 2.2.8.MSC.6, 2.2.8.MSC.7
