Cherry Creek Options Program

Curriculum Information & Price List

This list includes all of the items that are available through the Cherry Creek Options Program. Other items may be available for you to purchase directly from the publisher. All items are 1st come, 1st served.

(Revised 04-23-2024)

Please note that you are not required to buy your Consumables/Materials from Options.
We provide them as a convenience and pass along our costs to you.

Prices are subject to change without notice.

THERE ARE NO REFUNDS, RETURNS OR EXCHANGES ON CONSUMABLES!

*When available, it is strongly suggested that you purchase consumables for all subjects. Most textbooks are not effective as homeschool curriculum without these consumables.
*Teacher Editions are useful when providing answers or solutions, however, many teacher editions are written for a classroom-teaching situation and can be difficult to decode and apply to individual homeschool teaching. Not all curriculum have a teacher edition available for checkout. However, most curriculum comes with a Student Text.
*Consumables must be paid for prior to receiving any curriculum and NO REFUNDS WILL BE ISSUED FOR CONSUMABLES.
*You cannot mix and match curriculum items! Example: Math-U-See Manipulatives and Mathematics Textbooks.

Any lost or damaged items will need to be replaced or paid for in full before the end of the school year.

We cannot check-out additional curriculum to families who owe fines.

My Pals are Here By Singapore	1-6	*My Pals Are Here Science*. Each grade level consists of two parts, an A and a B set. Rather than chopping up the different branches of science into different grade levels and books, a thematic approach is taken, where concepts from different areas of science, including life science, physical science, chemistry and physical science are all linked together under the theme. This approach is meant to help children think about the relationships between different science concepts to lead to a better, more complete understanding of our world. The program implements the BSCS (Biological Sciences Curriculum Study) E5 instructional model. This model has been shown to be one of the most effective strategies in science education today. The 5 Es in this model are engagement, exploration, explanation, elaboration, and evaluation.	**Workbooks: (each)** 1A through 3B 4A through 5B **Downsizing 6A & 6B Free**	 ***$16/ea*** ***$19/ea***
Story of Science By Joy Hakim	5-8	These books tell science stories and coordinate them with hands on learning. The stories give meaning to experiments and vice versa. **Aristotle Leads the Way:** Readers travel back in time to ancient Babylon, Egypt, Greece, India, and the Arab world. They will explore the lives and ideas of people like Pythagoras, Archimedes, Brahmagupta, Al Khwarizmi, Fibonacci, Ptolemy, St. Augustine, and St. Thomas Aquinas. The ancients, especially Aristotle and some of his Greek peers, asked the questions that would eventually lead to modern science. They often got the wrong answers, but that question-asking was essential. Read this book and you will understand why. **Newton at the Center:** Readers watch as Copernicus's systematic observations place the sun at the center of our universe-to the dismay of establishment thinkers. After readers follow the achievements and frustrations of Galileo, Kepler, and Descartes, they will appreciate the amazing Isaac Newton, whose discoveries about gravity, motion, colors, calculus, and Earth's place in the universe set the stage for modern physics, astronomy, mathematics, and chemistry.	**Student Quest Guides:** Aristotle Leads the Way Newton at the Center	 **$15** **$15**
