

# REP. BRAD STEPHENS' SUMMER READING PROGRAM

To be a summer reader, Kindergarten through 8th graders must read 10 books during their summer vacation. Books for local library programs are also acceptable and books over 150 pages may count for two books. After reading the books, students should have their parents visit RepStephens.com and click “Oceans of Possibilities Summer Reading Program.” There, they can list how many books the student has read over the summer. Parents and students can also drop off or mail a paper form at Rep. Stephens’ District Office.

All participants who read 10 books will receive a voucher for two tickets to see the Chicago Wolves at the Allstate Arena during the 2025-26 Season.

Submission of the Google Form or paper form is due by August 15, 2025. If using the paper form, please enclose a page with additional books if the student read over 10 books. Dive right into Oceans of Possibilities with a good book!

I was a summer reader. I read the following ten books during my summer vacation . . .

Dear neighbor,

As this is an exciting time while you approach summer vacation, you may be planning ahead for the long break! I am inviting you to join my Oceans of Possibilities Summer Reading Program. Reading is a fantastic way to connect to new worlds, travel through time, and see life through someone else's eyes. You can also take these worlds with you—to the park, on vacation, and right at home. This program challenges you to read 10 books this summer, and books over 150 pages count for two books!

If you read 10 books, you will receive a voucher for two tickets to see the Chicago Wolves at the Allstate Arena during the 2025-26 Season.

I wish you well as you take exams, sign yearbooks, and wrap up the school year. Congratulations on a successful academic year and have a great summer!

Sincerely,

# OCEANS OF POSSIBILITIES
