THE EVOLUTION OF THERAPY

PSYCHOEDUCATIONAL ASSESSMENT

A CONVENIENT ONLINE SERVICE OPTION FOR SCHOOLS & SCHOOL DISTRICTS

Conducting a psychoeducational assessment is an essential step in diagnosing an individual student's learning differences and challenges and an invaluable tool in ensuring the accuracy of those identified differences and challenges. Used for students of all ages with all kinds of academic, cognitive, relational, and behavioral deficits, the assessment provides a comprehensive picture of the student's overall educational abilities, determines areas of strength and weakness in the student's profile, and pinpoints root causes of issues.

During a TPL assessment, the Licensed Specialist in School Psychology (LSSP) employs an array of testing resources and materials to evaluate multiple areas of suspected disability. Equipped with the information and results the assessment yields, the LSSP prepares and delivers a report of the findings, including specific recommendations, so that a truly personalized and targeted learning plan can be designed by the student's support team.

Our goal at TalkPath Live is to make this process as simple and streamlined as possible for our school clients, from start to finish. We take care of the scheduling and provide the testing materials. We do all of the back-and-forth mailing (including paying for postage!) and make sure that all documentation is transmitted to the school according to required protocols for proper filing and storage. Basically, we take everything off your plate, to clear the way for the most time-efficient, cost-effective assessment to be administered to the highest possible standards.

COMMONLY TESTED ELIGIBILITIES

- Specific Learning Disability (SLD)
- Intellectual Disability (ID)
- Autism Spectrum Disorder (ASD)
- Emotional Impairment
- Other Health Impairment (OHI)

ASSESSMENT PUBLISHERS USED

- Pearson
- Therapro
- Pro-Ed
- WPS
- MHS
- PAR

SAMPLE ASSESSMENT TOOLS USED

- WISC-V
- RAIS-2
- WIAT-4
- Vineland-II
- DAYC-2
- BASC-3
- CTOPP-2
- RAN/RAS
- EDDT
- DP-3
- KBIT-2
- ABAS-3
- ASRS
- Conners 3
- CDI 2
- MACI-II
- MASC 2
- GARS-3
- TAPS-3
- TONI-4
- SP-2
