

TalkPath Live

ONLINE DELIVERY OF RELATED SERVICES IN SCHOOLS

AFFORDABLE • FLEXIBLE • CONVENIENT • EFFECTIVE • CUSTOMIZED

SPEECH-LANGUAGE THERAPY SERVICES

Teletherapy isn't just the wave of the future — it's the reality of the present. Schools nationwide can now keep pace with this exciting new development through TalkPath Live's distinctive brand of exceptionally effective, student-centered online speech therapy services.

ADVANTAGES OF THE ONLINE DELIVERY MODEL

- Capitalizes on students' familiarity and positive relationship with technology
- Widens the pool of available therapists, particularly for niche and specialty services, eliminating shortages of qualified, state-licensed SLPs
- Research shows increased family engagement with the online model, which translates to improved parent/caregiver coaching and reinforcement of parental empowerment
- No more recruiting, hiring, training, and retaining new therapists
- Significant cost savings to school districts — no more funding of state licenses, paying for providers' travel time and expenses, and covering employee salaries, benefits, and vacation gaps

BENEFITS OF TALKPATH LIVE TELETHERAPY

- Strong educator mindset — founded and run by special educators who know business, not the other way around
- Industry-best pricing: no minimum number of service hours, no required contract terms, liberal policy on missed/cancelled sessions, and absolutely no hidden fees
- Collaborative community that believes in complete transparency with school partners
- Platform-agnostic technology that is compatible with any type of operating system, anywhere in the world
- Proprietary provider portal and concentration on supporting our speech-language pathologists
- Regular communication among TPL, school personnel, and family

TEACHING TOOLS & METHODOLOGIES

- Coaching method used for caregiver education for carryover/implementation outside of treatment
- Highly interactive platform features that mimic the traditional face-to-face student-therapist dynamic
- User-friendly whiteboards and shared therapy spaces
- Sample online software includes: Abcya; Boom Cards; Turtle Diary; Go Noodle; and Boardmaker

PROGRESS MONITORING & ASSESSMENT

- Efficacy studies report similar, if not enhanced, testing performance and greater mastery of IEP goals
- Ongoing diagnostic therapy techniques
- Access to numerous standardized testing options specifically formatted for reliable virtual administration
- Daily documentation of both quantitative and qualitative data for reference and comparative purposes

TWO-WAY SECURE VIDEO PLATFORM • HIPAA, FERPA & COPPA COMPLIANT • FULFILLS ALL IEP REQUIREMENTS

BREAKING DOWN LEARNING BARRIERS FOR STUDENTS RECEIVING SPEECH-LANGUAGE THERAPY

"Disinhibition effect" = the lack of restraint one feels when communicating online vs. in person due to the virtual environment, which yields increased session participation and accompanying benefits.

Survey results confirm notably higher satisfaction ratings and heightened perception of telehealth services over traditional in-person face-to-face services by both students and parents.

SPECIFIC AREAS OF NEED

- Speech sound disorders
- Auditory processing disorders
- Expressive/receptive language delays
- Fluency impairment/stutter
- Vocal cord dysfunction
- Voice/resonance disorders
- Autism spectrum disorders
- Specific learning disability
- Down syndrome
- Pragmatics deficit
- Intellectual impairment
- Traumatic brain injury
- Feeding impairment
- Aphasia
- Dysphagia
- Dysarthria

TARGETED SKILLS & AREAS OF FOCUS

- Articulation
- Phonological awareness
- Listening comprehension
- Reading comprehension
- Grammar & syntax
- Vocabulary development
- Figurative language
- Word finding
- Fluency
- Executive function
- Deductive reasoning
- Pragmatics
- Intelligibility strategies
- Augmentative & Alternate Communication (AAC) device training
- Oral motor strengthening/coordination

FOUR SIMPLE STEPS TO ONLINE SPEECH THERAPY

1. **CONSULT** — TPL-conducted needs assessment based on staffing patterns & budget
2. **SET UP** — Anytime, anywhere connectivity using the school's existing hardware
3. **DELIVER** — Live 1:1 sessions, supported by eHelpers in the classroom
4. **MONITOR** — Tracked student progress/outcomes & provision of ongoing feedback
