SPRING CONCERT

LV CHORUSES WITH DISTRICT ORCHESTRA

May 14, 2025, 7:00 PM
Clarence Middle School Auditorium

Regular practice stimulates the brain's neural networks and has been shown to enhance cognitive abilities like memory, attention, and problem-solving skills. Studies have revealed that children who learn to play musical instruments tend to perform better in subjects like mathematics and language arts.

The process of learning an instrument is closely linked to the development of various cognitive skills. In turn, these cognitive skills translate into better grades and overall academic success.
