

2025 Summer Program Update

**All information is subject to change*

Summer is almost here! We used academic data and teacher input to identify the students who were **invited** to our summer program. Priority went to students who are English language learners, eligible for free or reduced lunch, and foster youth. Invitations were sent home with students from March 19 to April 3.

➤ **If your student was not invited to the Summer School Program, you may apply for the wait list:**
