Parenting Skills Class

An nine-week class to make you a more confident, empowered parent

This class, created by parents and mental health professionals, is designed to empower caregivers to feel more confident in their parenting journey. Parenting can be a mix of joy, challenges, and exhaustion, and we're here to help. In this class, you'll gain practical skills and effective strategies to support your children and strengthen your family as a whole.

Are you navigating the complexities of parenting strong-willed children or children facing challenges such as:

- Managing screen time and behavioral outbursts
- Defiance or refusal to help with tasks at home
- Feeling disconnected from your child
- Screaming, profanity, or physical aggression
- Impulsive or unsafe behaviors
- Concerns about drug or alcohol use

Join us for a 9-week class to connect with fellow caregivers going through similar experiences and creating a safe space to learn ways to better connect with your child and become confident in areas like parent-child attachment, establishing expectations, parent burnout and self-care, managing crises, and much more.
