INDEPENDENT AUDITOR'S REPORT

Board of School Directors
Tyrone Area School District

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Tyrone Area School District (District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the Contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibilities of Management for the Financial Statements (Continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards*, will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the required supplementary information as listed in the Contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 27, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, in considering District's internal control over financial reporting and compliance.

TYRONE AREA SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2022

This management discussion and analysis of Tyrone Area School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2022. The intent of this discussion and analysis is to look at the District's financial performance overall. We encourage readers to consider the information presented here in conjunction with the additional information furnished in the basic financial statements and the notes to the financial statements.

The Management Discussion and Analysis (MD&A) is an element of the new reporting model adopted by the Government Accounting Standards Board (GASB) in its Statement No. 34 issued in June 1999.

Background

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented.

Previous standards (pre GASB 34) required modified accrual (no receivables/accruals beyond 60 days), no capital asset depreciation and no reports of combined net position. GASB 34 requires fixed asset accounting, properly combining of multiple funds and the realization of the depreciation expense as part of the Statement of Net Position and Statement of Activities.

Various statements required under GASB 34 are:

- ◆ Statement of Net Position
- ◆ Statement of Activities
- ◆ Balance Sheet of Governmental Funds
- ◆ Reconciliation of the Governmental Fund Balance Sheet to the Statement of Net Position
- ◆ Statement of Revenues, Expenditures, and Changes in Fund Balances
- ◆ Reconciliation of Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance to the Statement of Activities
- ◆ Statement of Revenues, Expenditures and Changes in Fund Balance

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the basic financial statements of Tyrone Area School District. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Tyrone Area School District is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of Tyrone Area School District include most of the School District's basic services, such as regular and special education, administration, and transportation. Property taxes and formula-based state aid finance most of these activities. The Food Service Fund is the sole business-type activity for Tyrone Area School District.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Tyrone Area School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Proprietary funds. Tyrone Area School District maintains two proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. Tyrone Area School District uses an enterprise funds to account for its Food Service Fund and Day Care Fund. *Internal Service funds* (the other type of proprietary fund) are used to report activities that provide supplies and services for the government's other programs and activities. The District currently does not have any internal service funds.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Food Service Fund, which is considered to be a major fund of the District, and the Day Care Fund.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the operations of the Tyrone Area School District. The accounting used for fiduciary funds is much like that used for proprietary funds.

Tyrone Area School District maintains two fiduciary funds, a Consolidated Scholarship Trust Fund and a Student Activities Fund.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*.

Table A-1 summarizes the major features of the District’s financial statements, including the portion of the District they cover and the types of information they contain. The remainder to this overview section of MD&A explains the structure and contents of the statements.

Entity-Wide Statements

The entity-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The two entity-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's overall financial position.

- Increases or decreases in the District's net position is one indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall financial condition of the District's additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, should be considered.

In the entity-wide financial statements, the District's activities are divided into two categories:

- Governmental activities - Most of the District's basic services are included here, such as regular and special education, transportation, support services, community programs and administration. Property taxes and state formula aid finance most of these activities.
- Business-type activities - The District charges fees and received federal and state reimbursements to cover the costs of its food service operation. The financial activities of this program are reported as a business-type activity.

Financial Highlights - Entity-Wide Statements

The District's financial status, as reflected in total net position, increased by \$1,312,374 for the current fiscal period. Net position of governmental activities increased by \$1,167,566. Business-type activities increased \$144,808 mainly as a result of Covid related legislation and funding.

Business-type activities had a net increase in capital assets of \$521 and governmental activities had a net decrease of (\$836,961) in capital assets as a result of depreciation outpacing acquisition of new equipment/capital assets.

On the Statement of Activities, the District had a total of \$29,076,693 of program revenues, general revenues, and charge for services and \$27,764,319 of expenses that resulted in the \$1,312,374 increase in net position. Operating grants and contributions and charge for services provided \$11,770,706 (40.48%), grants, subsidies and contributions \$9,576,218 (32.93%); property and other taxes \$7,697,371 (26.47%), and other revenues accounted for \$32,398 (0.11%).

In governmental activities, general tax revenues are primarily comprised of property taxes that accounted for \$5,885,126 or 76.46% of tax revenue, while all other taxes accounted for \$1,812,245 or 23.54%. The District does not levy any per capita tax or realty transfer tax.

The food service program is one of the District's business-type activities, had a total \$1,327,478 of expenses, of which \$188,986 was financed by charges for services and \$1,329,575 with federal and state subsidies. The overall net position of the food service program was \$711,094 as of June 30, 2022. The day care had a total of \$625,933 in expenses, of which \$362,763 was financed by charges for services and \$216,271 with federal and state subsidies. The overall net position of the day care program was (\$194,351) as of June 30, 2022.

Fund Financial Statements

The fund financial statements provide more detailed information about the district's funds, focusing on its most significant or "major" funds - not the district as a whole. Funds are accounting devices the district uses to keep track of sources of funding and spending on particular programs and to demonstrate compliance with various regulatory requirements.

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debt) or to show that it is properly using certain revenues (like capital project funds).

The District has three kinds of funds:

- Governmental funds - Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for funding future basic services. Consequently, the government funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Governmental fund information does not report on long-term commitments as is reported on the District-wide statements. Therefore, an explanation of the differences between the governmental funds and the District-wide statements is included as a separate statement.
- Proprietary funds - The food service fund, and activity for which the District charges a fee and for which revenues are expected to cover all expenses is reported as a proprietary fund. Proprietary funds are reported in the same way as the District-wide statements.
- Fiduciary funds - The District serves as a trustee, or fiduciary, for student organizations. The assets of these organizations belong to the organization, and not the District. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and only by those whom the assets belong. These activities are excluded from the District-wide financial statements because the District cannot use these assets to finance its operations.

Financial Highlights - Fund Financial Statements

The general fund ending unassigned fund balance of \$1,911,367 equates to 7.27% of the adjusted operating budget of \$27,550,210. This includes a \$600,000 transfer to the capital reserve fund. This in line with the goal stated in Board Policy 620 which directs the school District to strive to maintain an unassigned general fund balance of not less than six percent (2%) and not more than eight percent (8%) of the budgeted expenditures for the fiscal year.

- Total general fund revenues were \$1,246,855 or 4.84% more than budgeted.
- Total general fund expenses were \$373,214 or 2.44% less than budgeted.

The net change in fund balance of all governmental funds was \$5,363,099. This is comprised of the results from general operations of the General Fund Account \$127,598; Capital Reserve (#32) Account \$5,235,501. The ending fund balance for Capital Projects was \$8,182,711.

The General Fund had an ending fund balance of \$9,076,139 of which \$1,911,492 is unassigned. This includes athletic activities.

A portion of the District's Fund Balance has been identified as restricted and assigned through board action as follows:

Restricted: Future Retirement	\$ 1,000,000
Assigned:	
Projected State and Federal Funding Shortfall	2,000,000
Future Technology Needs	2,000,000
Capital Project Needs	2,164,647
	\$ 7,164,647

The Capital Reserve fund had an ending fund balance of \$8,182,711. This entire amount is committed to debt service payments and capital repairs, or improvements as defined in Municipal Code Section 1431.

Government-wide Financial Analysis

Net Position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Tyrone Area School District, assets exceeded liabilities by \$8,374,290 at the close of most recent fiscal year.

By far the largest portion of the District's assets reflects its investment in capital assets (e.g., land, buildings, furniture and equipment, construction-in-progress). The Tyrone Area School District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. The largest portion of the District's liabilities is its long-term liabilities related to pension and other post-employment benefits.

An additional portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* may be used to meet the government's ongoing obligations.

The Net Position as of June 30, 2022 and 2021, for Tyrone Area School District is summarized below in Table A-2. At the end of the current fiscal year, the District is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

Changes in Net Position. The results of this year's operations as a whole are reported in the Statement of Activities in the basic financial statements. Table A-3 takes the information from that Statement and rearranges it slightly so that you can see total revenues for the year. The two largest general revenues are the formula-based state aid received from the Commonwealth of Pennsylvania and the local taxes assessed to property owners.

Long-Term Debt

As of June 30, 2022, the District had total long-term debt of \$44,116,592.

	Governmental Activities		Business-Type Activities	
	2022	2021	2022	2021
General Obligation Bonds	5,075,000	-	-	-
Other Postemployment Benefits	4,378,000	4,784,000	44,000	41,000

TOTAL	43,307,766	43,166,904	808,826	1,622,508

The District had total bonded debt outstanding of \$5,075,000 on June 30, 2022. This amount represents the outstanding principal due on these obligations. No payments were made on debt service during the year. The District issued this new debt in May 2022 for capital improvements consisting of the high school auditorium renovation and soccer field renovation.

The District reports its allocated portion of its defined benefit unfunded benefit obligation related to its participation in PSERS. The District's allocated portion of the net pension liability is an actuarially determined estimate of the unfunded cost of the pension plan obligation which totaled \$33,954,000 as of June 30, 2022.

Other non-current liabilities consist of the District's liabilities for compensated absences, and its net obligation for post-employment benefits, which totaled \$5,087,592.

Strategic Plan

Tyrone Area School District is operating under the 2022-2025 Future Read Comprehensive Plan, as required by the PA Department of Education. The plan was developed through a collaborative process involving District and school administrators, teachers, parents, and community leaders. This new comprehensive plan was approved by the board during the month of July 2022. The District's mission statement, "We establish high standards of learning and expect all students to achieve. Our goal is to facilitate collaboration among staff, parents, and community to create an environment that supports, engages, and challenges students to achieve high levels of success," outlines the culture of high expectations and collaboration toward which the District strives.

Factors Bearing on the District's Future

Currently known circumstances that will impact the District's financial status in the future are:

- Covid-19 - Covid-19 has had a profound impact on the district's finances. Unbudgeted expenditures occurred due to increased costs including charter school costs and students learning virtually through the district's online academy for 2021-22. Charter school expenses were \$991,092 for the fiscal year, an increase of 5.3%. Cyber teacher wages and benefits were \$126,658. Other expenditures for services, personal protective equipment, sanitation and cleaning supplies, etc. were necessary to provide students the support in order to limit the educational deficiency due to Covid-19 and provide a safe learning environment.

Grant funds have been made available federally, and currently negate most of the overall impact that Covid has had on the district's financial status. The district received or is slated to receive the following Covid funding. However, with the uncertainty of the pandemic moving forward, this could change the financial impact on the district. Grant periods vary in range with the latest funds to be expensed by September 30, 2024.

- The labor agreement with the Tyrone Area Education Association is being negotiated for the 2022-25 fiscal years. Prior contract negotiations resulted in the following outcomes:

<u>Fiscal Year</u>	<u>Average Increase</u>	
	<u>Per Teacher</u>	<u>%</u>
2022-23	\$1,842	3.20
2023-24	\$1,901	3.20
2024-25	\$1,961	3.20

- The collective bargaining agreement for TAESPA support staff will expire on June 30, 2023. The labor agreement with the association is being negotiated for the 2023-26 fiscal years. The contract was extended for two years in 2020 with no changes to the current CBA. On May 10, 2022, the school board approved the following one-time increases to the starting rates: Custodial staff: \$1.48/hour; substitute support staff: \$1.29/hour; paraprofessionals: \$1.55/hour; and clerical staff: \$0.60/hour. Prior negotiations resulting in the following outcomes:

<u>Fiscal Year</u>	<u>Increase Per Employee</u>
2018-19	\$0.40 per hour
2019-20	\$0.38 per hour
2020-21	\$0.38 per hour
2021-22	\$0.38 per hour
2022-23	\$0.38 per hour

- The district is mandated to participate in the Pennsylvania Public School Employees Retirement System (PSERS). The Commonwealth reimburses the school entity for 50% of the Employer Contributions due amount for their existing employees (Initial PSERS Membership date is earlier than 07/01/1994). and Employer Contributions multiplied by the employer's income/aid ratio (or 50%, whichever is greater) for new employees (hired on or after 07/01/1994). All Aid Ratios are calculated by the Department of Education. The Market Value/Personal Income Aid Ratio for 2021-22 is .6540. The following reflects the rate and rate changes over the past ten years and the current year.

PSERS Historical Rates

	<u>Rate</u>	<u>% Change</u>
2012-2013	12.36%	42.9%
2013-2014	16.93%	37.0%
2014-2015	21.40%	26.4%
2015-2016	25.84%	20.8%
2016-2017	30.03%	16.2%
2017-2018	32.57%	8.46%
2018-2019	33.43%	2.60%
2019-2020	34.29%	2.57%
2020-2021	34.51%	0.64%
2021-2022	34.94%	1.25%
2022-2023	35.79%	0.92%

Act 5 of 2017 made the following changes to the pension plan:

- Maintains the defined benefit plan for existing employees but implemented a choice of three options for new employees: two defined benefit/defined contribution plans and a defined contribution plan only option.
- Implemented a shared risk/gain provision wherein member's rate can increase or decrease 3% below or 3% above member's basic contribution rate, in increments of 0.75%.
- Affects new members as of July 1, 2019. Current members who were active on July 1, 2019 had a one-time, irrevocable right to elect into any of the three new plans within 90 days after notice.
- Defines the actuarially required contribution as the normal cost plus the amount to fully amortize the unfunded liability in accordance with actuarial standards of practice.

- The District is a member of the Blair County Health Insurance Consortium for the purpose of providing health insurance to employees in accordance with labor agreements. The rate increase for 2021-22 was 3.00% for the consortium. Increases are set in the spring of each year and are dependent on claims, expenses and reserves. Renewal history for the consortium is as follows:

<u>Year</u>	<u>Increase</u>	<u>Year</u>	<u>Increase</u>
2011-12	7.25%	2017-18	4.00%
2012-13	4.00%	2018-19	4.00%
2013-14	4.00%	2019-20	3.00%
2014-15	5.75%	2020-21	5.00%
2015-16	5.25%	2021-22	3.00%
2016-17	4.00%	2022-23	2.00%

- Enrollment Projections – Projected enrollments are a key factor in determining the District’s class size and staffing needs. These enrollment projections are included below. Tyrone Area School District enrollment levels have leveled off for the last two years. Prior to this, enrollment had been declining slightly for the last ten years as indicated below:

	<u>Total Enrollment</u>
2012-13	1,770
2013-14	1,723
2014-15	1,751
2015-16	1,737
2016-17	1,736
2017-18	1,745
2018-19	1,746
2019-20	1,775
2020-21	1,731
2021-22	1,712

The current enrollment for 2022-23 decreased to 1,640 students. The District initiated a pre-kindergarten 4-year-old program in 2004-2005, which served approximately 72 students in the 2021-22-year. During the 2007-2008 year, a pre-kindergarten 3-year-old program was established serving 65 students. The pre-kindergarten students are not reflected in the totals above. The District operates a Licensed Day Care program for the community which serves 106 students in the audited year. Parents are charged a fee for service in this program. The program operates under a separate Proprietary fund.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES Year Ended June 30, 2022

Net changes in fund balances - all governmental funds	\$ 5,363,099
--	---------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets are allocated over their useful lives as depreciation expense.

Capital outlays	599,381	
Less depreciation expense	<u>(1,436,342)</u>	(836,961)

Because some property taxes will not be collected for several months after the District's fiscal year-ends, they are not considered as "available" revenues in the governmental funds. Deferred tax revenues increased by this amount this year. (32,610)

Governmental funds report District pension and OPEB contributions as expenditures. However in the Statement of Activities, the cost of pension and OPEB benefits earned net of employee contributions is reported as pension and OPEB expense.

District pension and OPEB contributions (PSERS)	3,981,000
Cost of benefits earned net of employee contributions (pension expense)	(2,083,100)

Some expenses reported in the Statement of Activities do not require the use of current financial resources, and therefore, are not reported as expenditures in governmental funds.

Change in compensated absences	(42,862)
Change in other post-employment benefits (District's Plan)	(106,000)

The issuance of long-term debt provides current, financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current, financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Proceed from issuance of long-term debt	<u>(5,075,000)</u>

TYRONE AREA SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

Tyrone Area School District operates one elementary school, one middle school, and one high school in Blair County, Pennsylvania. The District operates under current standards prescribed by the Pennsylvania Department of Education in accordance with the provisions of the School Laws of Pennsylvania. The District operates under a locally elected nine-member Board form of government.

The financial statements of Tyrone Area School District (the District) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the authoritative standard setting body for the establishment of governmental accounting and financial reporting principles. The more significant of these accounting policies are as follows:

A. Reporting Entity

Tyrone Area School District's financial statements include the operations of all entities for which the School Board exercises oversight responsibility. Oversight responsibility is demonstrated by financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters.

Tyrone Area School District is the lowest level of government which has oversight responsibility and control over all activities related to public-school education in the Commonwealth of Pennsylvania. The District receives funding from local, state, and Federal government sources and must comply with the requirements of these source entities. However, the District is not included in any other governmental "reporting entity" since the School Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters. Additionally, the District does not exercise oversight responsibility over any other entities and, consequently, no other entities have been included in the accompanying financial statements.

The District is affiliated with the Greater Altoona Career and Technical Center (the Center), along with seven other member School Districts through a joint-venture agreement. The member Districts participated in providing oversight responsibility to the Center through the following:

- Appointing of Board members who are also board members of the participating schools
- Approval and funding of operating budgets

The District has an ongoing financial responsibility to fund its proportionate share of the operating budgets of the Center. It has no equity interest in the Center. Separate financial statements are prepared for and available from the Center.

TYRONE AREA SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate fund financial statements are provided in the report for all of the governmental funds, proprietary funds, and the fiduciary funds of the School District, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and the major enterprise fund are reported as separate columns in the fund financial statements. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The School District complies with accounting principles generally accepted in the United States of America (GAAP) and applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met. Net position (total assets less total liabilities) are used as a practical measure of economic resources and the operating statement includes all transactions and events that increased or decreased net position. Depreciation is charged as expense against current operations and accumulated depreciation is reported on the Statement of Net Position.

TYRONE AREA SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues from Federal, state, and other grants designated for payment of specific school District expenditures are recognized when the related expenditures are incurred; accordingly, when such funds are received, they are recorded as deferred revenues until earned. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

When both restricted and unrestricted (including committed, assigned and unassigned) resources are available for use, it is the District's policy to use the resources with the most stringent restrictions first, followed by resources in decreasing order of restriction, as funds are needed.

Governmental funds are those through which most governmental functions of the School District are financed. The acquisition use and balances of the School District's expendable financial resources and the related liabilities (except those accounted for in Proprietary funds) are accounted for through governmental funds.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources except those required to be in another fund. Revenues are primarily derived from local property, earned income tax and state and Federal distributions. Many of the more important activities of the School District, including instruction, administration of the School District and certain non-instructional services are accounted for in this fund.

The Capital Projects Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The District reports the following major enterprise fund:

The Food Service Fund accounts for the activities of the District's food service program.

The Day Care Fund accounts for the activities of the District's Day Care facilities.

TYRONE AREA SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the School District's enterprise funds are food service charges and day care charges. Operating expenses for the School District's enterprise funds include food production costs, personnel, supplies, administrative costs, and depreciation on capital assets. All revenues or expenses not meeting this definition are reported as non-operating revenues and expenses.

The School District does not attempt to allocate "building-wide costs" to the Food Service Fund or Day Care Fund. Thus, General Fund expenditures which partially benefit the Food Service Fund (utilities, janitorial services, insurance, etc.) are not proportionately recognized within the Food Service Fund and Day Care Fund; similarly, the Food Service Fund and Day Care Fund does not recognize a cost for the building space it occupies (no rental-of-facilities expense).

The Consolidated Scholarship Fund accounts for assets held by the District in a trustee capacity in a private-purpose trust fund. This fund accounts for activities in the various scholarship and trust accounts, whose sole purpose is to provide annual scholarships and other private goodwill activities to particular students as prescribed by donor stipulations.

The Activity Fund accounts for the monies authorized by Section 511 of the Public School Code of 1949 for school publications and organizations. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Agency Funds are also accounted for using the modified accrual basis of accounting.

D. Budget and Budgetary Accounting

An operating budget is adopted prior to the beginning of each year for the General Fund on a modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required. The Pennsylvania School Code dictates specific procedures relative to adoption of the School District's budget and reporting of its financial statements, specifically:

The School District, before levying annual school taxes, is required to prepare an operating budget for the succeeding fiscal year.

The School District is required to publish notice by advertisement, at least once in two newspapers of general circulation in the municipality in which it is located, and within fifteen days of final action, that the proposed budget has been prepared and is available for public inspection at the administrative office of the School District.

Notice that public hearings will be held on the proposed operating budget must be included in the advertisement; such hearings are required to be scheduled at least ten days prior to when final action on adoption is taken by the Board.

TYRONE AREA SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

D. Budget and Budgetary Accounting (Continued)

Legal budgetary control is maintained at the sub-function/major object level. The Board of School Directors may make transfers of funds appropriated to any particular item of expenditure by legislative action in accordance with the Pennsylvania School Code. Management may amend the budget at the sub-function/sub-object level without Board approval. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

E. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position or Equity

Cash and Cash Equivalents: For purposes of the Statement of Cash Flows presented for the proprietary funds and the nonexpendable trust fund, the District considers all highly-liquid investments with maturities of three months or less when purchased to be cash equivalents.

Investments: Investments are stated at fair value or at amortized costs, depending on the investment type, consistent with generally accepted accounting principles.

Allowances for Estimated Uncollectible Taxes and Deferred Revenues:

The allowance for estimated uncollectible taxes is based upon a historical estimate of delinquent taxes that will not be received within one year of the fiscal year-end. Deferred revenues are based upon a historical estimate of delinquent taxes expected to be received within one year of the fiscal year-end.

The portion of taxes receivable which is expected to be received within 60 days of June 30 is recorded as revenues in the current year. The remaining amount of taxes receivable which is expected to be received within one year from June 30 is recorded as deferred revenues. All other amounts in taxes receivable are written off as estimated uncollectible taxes.

Inventories: On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used.

A physical inventory of the Food Service Fund food and supplies was taken as of June 30, 2022. The inventory consisted of government donated commodities which were valued at estimated fair market value, using the first-in, first-out (FIFO) method.

TYRONE AREA SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

E. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position or Equity (Continued)

Capital Assets and Depreciation: Capital assets, which include property, plant, and equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are capitalized at the discretion of management, unless the assets are acquired by debt proceeds, in which case the asset is required to be capitalized. Management considers various factors in the capitalization of assets, including the asset's estimated useful life, cost, and the extent to which the asset is part of a larger capital project. The District's policy capitalizes library books, classroom texts, computer equipment, classroom furniture by groups. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

Depreciation is provided for fixed assets on the straight-line basis over the estimated useful life of the asset or group of assets as determined by management.

Deferred Outflows of Resources - Deferred amounts on Refunding Debt: The District recognizes the difference between the re-acquisition price and the net carrying amount of the old debt as a deferred outflow, which is a component of interest expense over the remaining life of the old or new debt, whichever is shorter.

Deferred Outflows of Resources - Pensions and Other Post-Employment Benefits: The District recognizes deferred outflows of resources, which represent a consumption of net assets that is applicable to a future reporting period and so will not be recognized as an outflow of resources (expense) until that time. The District has identified these items in subsequent notes to the financial statements.

Long-Term Obligations: In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business-type activity columns in the Statement of Net Position. Bond premium and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premium and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

TYRONE AREA SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

E. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position or Equity (Continued)

Leases: The District is a lessee for non-cancellable leases of office equipment. A lease liability and an intangible right-to-use lease asset is not recognized in the government-wide financial statements.

Individual lease liabilities with an initial, individual value of \$50,000 or more are recognized.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments. The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.

The lease term includes the non-cancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Compensated Absences: Under the system of financial accounting and reporting for Pennsylvania School Systems, the School District accrues for certain accumulated employee benefits, such as unpaid vacation and sick pay. Calculation of this amount is determined by the appropriate vacation, sick and retirement lump-sum payments which would be available to employees if they would leave or retire from the School District and is adjusted for expected turnover rates of employees. Accrued-benefit days, multiplied by appropriate salary amounts, are reflected as a long-term liability unless retirements are likely within the upcoming fiscal year. Those costs determined to be current year cost are reflected as a liability of the General Fund.

TYRONE AREA SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

E. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position or Equity (Continued)

Post-Employment Benefits: In the government-wide financial statements, the District recognizes the costs and liabilities associated with post-employment benefits other than pension compensation, which is funded through the District's contribution to the statewide Public School Employees' Retirement System, a governmental, cost-sharing, multiple-employer, defined-benefit pension plan. The District provides retiree-health, vision, dental, and prescription-drug coverage to eligible, retired employees and qualified spouses/beneficiaries. The District has estimated the cost of providing these benefits through an actuarial valuation.

The District also participates in a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) with PSERS for all eligible retirees who qualify and elect to participate. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The balances of the District's OPEB obligations and deferred outflow/inflow of resources at June 30, 2022, are as follows:

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

E. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position or Equity (Continued)

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms investments are reported at fair value.

Interfund Transfers: Advances between funds that are not expected to be repaid are accounted for as transfers. In those cases when repayment is expected, the advances are accounted for through the various due from and due to accounts.

Internal and Interfund Balances and Activities: In the process of aggregating the financial information for the government-wide Statement of Net Position and Statement of Activities, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified.

Deferred Inflows of Resources - Unearned Revenues: The District recognizes property tax revenues when they become available. Available includes those property taxes expected to be collected within 60 days after year-end. Those property taxes expected to be collected beyond 60 days after year-end are shown as deferred revenue in the fund financial statements. Governmental funds also defer revenues in connection with resources that have been received, but not yet earned.

Deferred Inflows of Resources - Pensions and Other Post-Employment Benefits: The District recognizes deferred inflows of resources, which represent an acquisition of net assets that is applicable to a future reporting period and so will not be recognized as an inflow of resources (revenue) until that time. The District has identified these items in subsequent notes to the financial statements.

Fund Financial Statements - Interfund activity, if any, within and among the governmental and proprietary fund categories is reported as follows in the fund financial statements:

1. Interfund loans - Amounts provided with a requirement for repayment are reported as interfund receivables and payables.
2. Interfund services - Sales or purchases of goods and services between funds are reported as revenues and expenditures/expenses.
3. Interfund reimbursements - Repayments from funds responsible for certain expenditures/expenses to the funds that initially paid for them are not reported as reimbursements, but as adjustments to expenditures/expenses in the respective funds.
4. Interfund transfers - Flow of assets from one fund to another where repayment is not expected are reported as transfers in and out.

E. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position or Equity (Continued)

Government-wide Financial Statements - Interfund activity and balances, if any, are eliminated or reclassified in the government-wide financial statements as follows:

1. Internal balances - Amounts reported in the fund financial statements as interfund receivables and payables are eliminated in the governmental and business-type activities columns of the Statement of Net Position, except for the net residual amounts due between governmental and business-type activities, which are reported as Internal Balances.
2. Internal activities - Amounts reported as interfund transfers in the fund financial statements are eliminated in the government-wide Statements of Activities except for the net amount of transfers between governmental and business-type activities, which are reported as Transfers - Internal Activities. The effects of interfund services between funds, if any, are not eliminated in the Statements of Activities.

Equity Classifications:

Government-Wide Statements - Equity is classified as net position and displayed in three components:

- a. Invested in capital assets, net of related debt - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- b. Restricted net position - consists of net position with constraints placed on the use of either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position - all other net position that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

It is the District’s policy to first use restricted balances prior to the use of unrestricted balances when an expense is incurred for purposes for which both restricted and unrestricted balances are available.

Fund Balance:

Fund Financial Statements - Governmental fund equity is classified as fund balance. Proprietary fund equity and fiduciary fund equity is classified the same as in the government-wide statements.

The School District's fund balance classifications are defined and described as follows:

Non-spendable: Represents fund balance amounts that cannot be spent because they are not in a spendable form or are contractually required to be maintained intact.

Restricted: Represents fund balance amounts that are constrained for a specific purpose through restrictions of external parties, through constitutional provisions, or by enabling legislation.

Committed: Represents fund balance amounts that can only be used for specific purposes pursuant to the constraints imposed by formal action of the Board of School Directors, the District's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the Board removes the constraints or changes the specified purpose through the same action it used to commit the funds.

Assigned: Represents fund balance amounts that are constrained by the government's intent to be used for specific purpose but are neither restricted nor committed. Through Board Policy, the Board has delegated the authority to express intent to the District's Business Manager.

Unassigned: Represents fund balance amounts that have not been restricted, committed, or assigned to the specific purpose within the general fund.

The District has a board policy which prescribes fund balance guidelines. The District will strive to maintain an assigned and unassigned general fund balance of not less than 5 percent and not more than 10 percent of the budgeted expenditures for the year.

F. New Accounting Pronouncements

The following list reflects only those pronouncements initially effective in the current or upcoming reporting periods which based on our review, may be applicable to the District's reporting requirements.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

F. New Accounting Pronouncements (Continued)

Following are descriptions of significant pronouncements that were considered or initially selected during the year ended June 30, 2022:

GASB issued Statement No. 87, *Leases* increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021, per GASB No. 95, and earlier application is encouraged. The District has implemented this pronouncement in the current year.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, establishes accounting requirements for interest cost incurred before the end of a construction period to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period.

GASB Statement No. 92, *Omnibus 2020*, enhances comparability in accounting and financial reporting and improves consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of various GASB standards previously issued.

GASB Statement No. 93, *Replacement of Interbank Offered Rates* addresses accounting and financial reporting implications that result from the replacement of an IBOR.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*, (1) increases consistency and comparability related to the reporting of fiduciary component units where a governing board does not exist and the primary government performs the duties that a governing board typically would perform; (2) mitigates costs associated with the reporting of certain defined contribution pension and OPEB plans and other employee benefit plans as fiduciary component units; and (3) enhances the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans that meet the definition of a pension plan.

The following are descriptions of accounting pronouncements which will be considered for implementation during subsequent fiscal years, with modified effective dates as established by GASB Statement No. 95:

GASB Statement No. 91, *Conduit Debt Obligations*, will be effective for the District beginning with its year ending June 30, 2023 (periods beginning after December 15, 2021). This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

F. New Accounting Pronouncements (Continued)

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, will be effective for the District beginning with its year ending June 30, 2023 (fiscal periods beginning after June 15, 2022). This Statement improves financial reporting by addressing issues related to public-private and public-public partnerships.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. The requirements for this Statement are effective for fiscal years beginning after June 15, 2022. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset-an intangible asset and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The District is currently evaluating what effect, if any, the adoption of GASB No. 96 will have on the District's financial statements.

GASB Statement No. 99, *Omnibus 2022* will be effective in fiscal years between June 30, 2022 and 2024, depending on the topics addressed and their relation to other standards. This Statement enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees.

GASB Statement No. 100, *Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62*, will be effective for fiscal years beginning after June 15, 2023. This Statement defines accounting changes as changes in accounting principles, changes in accounting estimates, and changes to or within the financial reporting entity and describes the transactions or other events that constitute those changes. As part of those descriptions, for (1) certain changes in accounting principles and (2) certain changes in accounting estimates that result from a change in measurement methodology, a new principle or methodology should be justified on the basis that it is preferable to the principle or methodology used before the change. That preferability should be based on the qualitative characteristics of financial reporting—understandability, reliability, relevance, timeliness, consistency, and comparability. This Statement also addresses corrections of errors in previously issued financial statements.

F. New Accounting Pronouncements (continued)

GASB Statement No. 101, Compensated Absences will be effective for fiscal years beginning after December 15, 2023. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. It requires that liability for certain types of compensated absences-including parental leave, military leave, and jury duty leave-not be recognized until the leave commences. This Statement also establishes guidance for measuring a liability for leave that has not been used, generally using an employee's pay rate as of the date of the financial statements. A liability for leave that has been used but not yet paid or settled should be measured at the amount of the cash payment or noncash settlement to be made. Certain salary-related payments that are directly and incrementally associated with payments for leave also should be included in the measurement of the liabilities.

Use of Estimates: Management uses estimates and assumptions in preparing financial statements. These estimates and assumptions affect the reported amounts of assets and liabilities and the reported revenues and expenditures.

Subsequent Events: In preparing these financial statements, the District has evaluated events and transactions for potential recognition or disclosure through January 27, 2023, the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

Note 2. Deposits and Investments

Under Section 440.1 of the Public School Code of 1949, as amended, the District is permitted to invest funds consistent with sound business practices in the following types of investments:

- U.S. Treasury Bills
- Short-term obligations of the U.S. Government or its agencies or instrumentalities
- Deposits in savings accounts or time deposits or share accounts of institutions insured by:
 1. The Federal Deposit Insurance Corporation (FDIC), or
 2. The Federal Savings and Loan Insurance Corporation (FSLIC), or
 3. The National Credit Union Share Insurance Fund (NCUSIF) to the extent that such accounts are so insured, and for any amounts above maximum insurable limits, provided that approved collateral as provided by law shall be pledged by the depository to the extent that such accounts are so insured, and for any amounts above maximum, provided that approved collateral as provided by law is pledged by the depository.
- Obligations of (a) the United States of America or its agencies or instrumentalities backed by full-faith and credit of the United States of America, (b) the Commonwealth of Pennsylvania or instrumentalities backed by the full-faith and credit of the political subdivision.
- Shares of investment companies whose investments are restricted to the above categories.

The deposit and investment policy of the District adheres to state statutes and prudent business practices. There were no deposit or investment transactions during the year that were in violation of either state statutes or the policy of the District.

Deposits: Custodial-Credit Risk

Custodial-credit risk is the risk that in the event of a bank failure, the District's investments may not be returned to it. A summary of the District's deposits as of June 30, 2022 is shown below:

	Carrying Amount	Bank Balance	Financial Institution
Insured (FDIC)	\$ 250,000	\$ 250,000	First National Bank
Insured (FDIC)	250,000	250,000	Kish Bank

TYRONE AREA SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 2. Deposits and Investments (Continued)

Deposits: Custodial-Credit Risk (Continued)

Act 72 of 1971, as amended, is an act standardizing the procedures for pledges of assets to secure deposits of public funds with banking institutions pursuant to other laws; establishing a standard rule for the types, amounts and valuations of assets eligible to be used as collateral for deposits of public funds; permitting assets to be pledged against deposits on a pooled basis and authorizing the appointment of custodians to act as the pledgor of the assets.

The District invests in Certificates of Deposit at a number of banks through a PSDLAF program. These investments are individually covered by FDIC as they are under the FDIC insurance threshold of \$250,000. The certificates are invested at the various banks and are held in the name of the District.

Investments

As of June 30, 2022, the District had the following investments:

Investment	Credit Rating	Weighted Average Maturities in days	Fair Values
Pennsylvania School District Liquid Asset Fund (PSDLAF)			
PSDMAX	AAAm	60 days	\$ 1,441,415
Pennsylvania Local Government Investment Trust (PLGIT)			
PLGIT - Class shares	AAAm	75 days	2,930,017
PLGIT/PLUS - Class shares	AAAm	75 days	1,006,418
			<u>\$ 5,377,850</u>

Certain external pool investments held by the District, based on portfolio maturity, quality, diversification, and liquidity measures, qualify for measurement at amortized cost at both the pool and the participating government levels consistent with GASB Statement No. 79. The District measures those investments, which include PSDMAX, at amortized cost.

The PSDMAX fund invests in U.S. treasury securities, U.S. government securities, its agencies and instrumentalities, and repurchase agreements, collateralized by such securities and contracted with highly-rated counterparties. Weighted-average portfolio maturity for the fund is expected to be kept at or below 60 days. PSDMAX does not have limitations or restrictions on withdrawals.

PLGIT - This fund invests primarily in U.S. Treasury and Federal-agency securities and repurchase agreements, secured by such obligations, as well as certain municipal obligations and collateralized or insured certificates of deposit. The fund manager intends to comply with guidelines similar to those mandated for money-market funds as contained in Rule 2a-7 of the Investment Company Act of 1940. The fund maintains a weighted average maturity to reset of 60 days or less.

TYRONE AREA SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 2. Deposits and Investments (Continued)

Portfolio Assets (Continued)

PLGIT-Class shares are a flexible option, within the PLGIT fund, which requires no minimum balance, no minimum initial investment requirement and has a minimum investment period of one day. Dividends are paid monthly.

PLGIT/Plus-Class shares are an option within the PLGIT fund which requires a minimum investment of \$50,000, a minimum investment period of thirty (30) days and has a premature withdrawal penalty. Dividends are paid quarterly.

The District categorizes its fair value measurements within the fair value hierarchy established by U.S. GAAP. The hierarchy is based on the valuation inputs used to measure the fair values of assets. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant, other observable inputs; Level 3 inputs are significant, unobservable inputs. Presently, the investments held by the District are valued at amortized cost and are not subject to the fair value level disclosures.

Weighted Average Maturity

The weighted average maturity (WAM) method expresses investment time horizons, the time when investments become due and payable, in years or months, weighted to reflect the dollar size of individual investments within an investment type. In this illustration, WAMs are computed for each investment type. The portfolio's WAM is derived by dollar-weighting the WAM for each investment type.

Interest-Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair-value losses arising from increasing interest rates.

Credit Risk

As indicated above, Section 440.1 of the Public School Code of 1949, as amended, limits the composition of the District's investments, and the District has no investment policy that would further limit its investment choices.

Concentrations of Credit Risk

The District places no limit on the amounts invested in any one issuer. The District's investment in PSDLAF represents 27% of the District's total investments. The District's investment in PLGIT represents 73% of the District's total investments.

Note 3. Property Taxes

Based upon assessed valuations provided by the Counties, the tax collector bills and collects property taxes on behalf of the School District. The schedule for property taxes levied for 2021-2022 was as follows:

July 1, 2021	tax levy date
Through August 31, 2021	2% discount
Through October 31, 2021	face payment period
November 1, 2021	10% penalty period
4th Monday, 2022	lien filing date
January 1, 2022	interim tax levy date

The District's tax rate for all purposes in 2021-2022 was 6.850 mills, 25.520 mills, and 46.890 mills (\$6.85, \$26.52, \$46.89 per \$1,000 assessed valuation) for Blair, Centre and Huntingdon Counties respectively. Refunds on payments of prior year taxes are classified as Other Debt Service items under the Commonwealth of Pennsylvania accounting system.

The District entered into an agreement to participate in the Keystone Opportunity Zone, a development strategy that eliminates specific state and local taxes within specific, underdeveloped, and under utilized acres in Pennsylvania through 2022. As part of the agreement, the District agreed to provide benefits to parcels totaling 18.58 acres of land. The amount of tax abated totaled \$2,859

Note 5. Interfund Accounts

There were no individual fund receivable and payable balances at June 30, 2022.

Interfund balances result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system and (3) payments between funds are made.

Interfund transfer activity for the year ended June 30, 2022, is as follows.

	Transfers In	Transfers Out
Governmental Activities		
Major governmental funds		
General Fund	\$ -	\$ 600,000
Capital Projects	600,000	-
Total governmental activities	<u>\$ 600,000</u>	<u>\$ 600,000</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to fund the statute or budget requires to expend them or (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Note 7. Long-Term Obligations (Continued)

General Obligation Note - Series of 2022 - On May 18, 2022, the District issued a General Obligation Note - Series 2022 in the principal amount of \$5,075,000. The note is issued pursuant to a resolution of the District, duly adopted by the board. The proceeds were used to pay for project costs throughout the District including renovation of high school auditorium and to pay costs of issuance. Interest is payable at a fixed rate of 2.75%. Interest is payable semi-annually on March 1 and September 1 and the note matures serially in amounts ranging from \$193,000 to \$326,000 through September 1, 2042.

The District is currently in compliance with all debt covenants relative to the foregoing obligations. Those covenants include inclusion of annual debt service in the District's fiscal year budget; appropriation of said debt service from District's general revenues; and punctual payments of principal and interest of each obligation.

Annual maturities of long-term debt are as follows:

NOTES TO FINANCIAL STATEMENTS

Note 7. Long-Term Obligations (Continued)

Accumulated Sick Days

Professional employees with five or more years of service with Tyrone Area School District shall be compensated for unused sick leave days at a rate of \$30.00 per day for all unused days. If the employee gives notice at least one semester prior to retirement, the employee shall receive \$50.00 per day.

Non-professionals with five or more years of service with Tyrone Area School District shall receive payment at a rate of one-half of their daily rate per day for any accumulated sick-leave, up to 150 days.

Other Post-Employment Benefits

As described in Notes 9 and 10, the District provides access to retiree health, and dental care benefits to eligible retired employees and qualified spouses/beneficiaries. The District has estimated the cost of providing these benefits through an actuarial valuation.

Leases

The District leases equipment for certain District offices and buildings. These terms range from three to five years.

The District's equipment leases contain scheduled monthly payments with expiration dates extending through October 2023. Lease and finance purchase obligations are primarily funded 100 percent by the general fund.

The following is a schedule of future minimum lease payments for leases with initial or remaining terms in excess of one year as of June 30, 2022:

Years ending June 30,	Governmental Activities
2023	\$ 8,928

Note 8. Defined-Benefit Pension Plan

Plan Description

PSERS (Pennsylvania Public School Employee's Retirement System or the System) is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits Provided

PSERS provides retirement, disability and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least one year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes: Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of three years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members, whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Employer Contributions

The District's contractually required contribution rate for the fiscal year ended June 30, 2022, was 34.14% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Included in the District's contractually required contribution rate is the Act 5 contribution rate totaling an estimated .15 percent.

The District is required to pay the entire contribution and will be reimbursed by the Commonwealth in an amount equal to the Commonwealth's share as determined by the income aid ratio (as defined in Act 29 of 1994), which is at least one-half of the total District's rate. The District's contributions to the Plan, relating to pension benefits, for the year ended June 30, 2022, was \$3,978,494, and is equal to the required contribution for the year. For the year ended June 30, 2022, the District recognized gross retirement subsidy revenue from the Commonwealth in the amount of \$2,603,019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the District reported a liability of \$33,954,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2020 to June 30, 2021. The District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2022, the District's reported proportion was .0827 percent, which was an increase of 0.0028 percent from its proportion reported as of June 30, 2021.

For the year ended June 30, 2022, the District recognized pension expense of \$2,354,000. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 25,000	\$ 446,000

\$3,978,000 is reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30:	Total
2023	\$ (752,000)

2026	(1,744,000)
2027	1,000
	<u>\$ (3,241,000)</u>

Actuarial Assumptions

The total pension liability as of June 30, 2021, was determined by rolling forward the System's total pension liability as of June 30, 2020 to June 30, 2021, using the following actuarial assumptions, applied to all periods included in the measurement:

- Valuation Date – June 30, 2020
- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 7.00%, includes inflation at 2.50%.
- Salary growth - Effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases .
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.
- The discount rate used to measure the Total Pension Liability decreased from 7.25% as of June 30, 2020 to 7.00% as of June 30, 2021.

The actuarial assumptions used in the June 30, 2021, valuation were based on the results of an actuarial experience study that was performed for the five-year period ended June 30, 2020.

NOTES TO FINANCIAL STATEMENTS

Note 8. Defined-Benefit Pension Plan (Continued)

Investments

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

For the year ended June 30, 2021, the annual money weighted rate of return on pension plan investments, net of pension plan investment expense, was 24.58%. The money weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global public equity	27.0%	5.2%
Private equity	12.0%	7.3%
Fixed income	35.0%	1.8%
Commodities	10.0%	2.0%
Absolute return	8.0%	3.1%
Infrastructure/MLPs	8.0%	5.1%
Real estate	10.0%	4.7%
Cash	3.0%	0.1%
Leverage	(13.0%)	0.1%
	<u>100.0%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2021.

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 9. Other Post-Employment Benefits - Single Employer District Plan

Plan Description - The District provides retiree health, vision and dental care benefits, including prescription drug coverage, to eligible retired employees and qualified spouses/beneficiaries. This is a single employer defined-benefit plan administered by the District. Benefits are provided to all faculty, academic staff and support staff upon retirement under PSERS superannuation or early-retirement provisions. Currently, the plan has 183 active participants and 7 retired participants. The plan does not issue a separate stand-alone financial statement.

Funding Policy - The District's medical plans are self-funded and each plan's premiums are updated annually based on actual claims. The District funds OPEB on a pay-as-you-go basis, and there is no obligation to make contributions in advance of when the insurance premiums or claims are due for payment. The District does not maintain or accumulate any assets within a trust in accordance with paragraph 4 of GASB No. 75.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources Related to OPEB

At June 30, 2022, the District reported a liability of \$2,466,000 for the total OPEB liability. The total OPEB liability was measured as of July 1, 2021 and was determined by an actuarial valuation as of July 1, 2021. The OPEB liability is composed of the following:

	Amount
OPEB liability at July 1, 2021	\$ 3,099,000
Service Cost	193,000
Interest	66,000

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of July 1, 2021, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

- Inflation - 2.5%
- Salary Increases - 2.5% cost of living adjustment, 1% real wage growth and for teachers and administrators a merit increases which varies by age from 2.75 to 8.65%.
- Investment rate of return – 3.54%. Based on Bond Buyer 20 year Bond GO Index.
- Health care cost trend rate – 5.7% in 2023, and 5.4% in 2024. Rates gradually decrease from 5.4% in 2024 to 3.7% in 2075 and later based on the Society of Actuaries Long-Run Medical Cost Trend Model.
- Retirees' Share of Benefit Related Costs - Retiree contributions are assumed to increase at the same rate as Health Care Cost Trend Rate.
- Mortality rates are separate and assumed pre-retirement and post-retirement using the rates assumed in the PSERS defined benefit pension plan actuarial valuation. Incorporated into the table are rates projected generationally by PubG-H2010 Mortality Tables adjusted to reflect Mortality Improvement Scale MP-2021 from 2010 base year.

Note 10. Other Post-Employment Benefits – PSERS Cost-Sharing Plan

Plan Description

PSERS administers a defined benefit pension plan, and two post-employment healthcare programs, the Health Insurance Premium Assistance Program (Premium Assistance) and the Health Options Program (HOP) for its retirees. The HOP is a PSERS sponsored voluntary health insurance program for the sole benefit of PSERS retirees, spouses of retirees, and survivor annuitants and their dependents who participate in HOP. The HOP is funded exclusively by the premiums paid by its participants for the benefit coverage they elect.

The System provides Premium Assistance which, is a governmental cost sharing, multiple-employer other post-employment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

Plan Description (Continued)

Retirees of the System can participate in Premium Assistance if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program

Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2021 there were no assumed future benefit increases to participating eligible retirees.

Employer Contributions

The Districts' contractually required contribution rate for the fiscal year ended June 30, 2022, was 0.80% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$93,229 for the year ended June 30, 2022.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Related to OPEB

At June 30, 2022, the District reported a liability of 1,956,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2020 to June 30, 2021. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2022, the District's reported proportion was .0825 percent, which was an increase of .0026 percent from its proportion reported as of June 30, 2021.

Actuarial Assumptions

The Total OPEB Liability as of June 30, 2021, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2020 to June 30, 2021, using the following actuarial assumptions, applied to all periods included in the measurement:

- Valuation Date – June 30, 2020
- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 2.18% - S&P 20 Year Municipal Bond Rate.
- Salary growth - Effective average of 4.5%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.
- Participation rate:

 - Eligible retirees will elect to participate Post age 65 at 70%
- The discount rate used to measure the total OPEB liability decreased from 2.66% as of June 30, 2020 to 2.18%, as of June 30, 2021.

The actuarial assumptions used in the June 30, 2020 valuation, were based on the results of an actuarial experience study that was performed for the five-year period ending June 30, 2015.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2019, determined the employer contribution rate for fiscal year 2021.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

Investments

Investments consist primarily of short-term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	79.8%	0.1%
US Core Fixed Income	17.5%	0.7%
Non-US Developed Fixed	2.7%	-0.3%
	<u>100.0%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class of June 30, 2021.

Discount Rate

The discount rate used to measure the Total OPEB Liability was 2.18%. Under the plan's funding policy, contributions are structured for short-term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short-term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.18% which represents the S&P 20-year Municipal Bond Rate at June 30, 2021, was applied to all projected benefit payments to measure the total OPEB liability.

NOTES TO FINANCIAL STATEMENTS

Note 11. Self-Insurance

Effective July 1, 1998, the Tyrone Area School District joined the Blair County Schools Health Insurance Consortium, which is a consortium of school Districts located in Blair County. The Consortium was organized and created in accordance with the Public School Code of 1949, as amended. The Consortium elected to finance health care benefits for eligible school District personnel using a self-insured approach known as an Administrative Service Contract (ASC) arrangement. The ASC funding method is a self-funding rating option, which has the Consortium pay actual claims of its groups with an administrative charge paid for claims processing, plus stop loss insurance premiums. The ASC funding arrangement is on a “paid” basis for claims incurred within a twelve-month period and paid within a fifteen-month contract period. The Consortium establishes a reserve, as required by PA State Insurance Law, equal to 30 days of average paid claims; this reserve is recalculated and adjusted annually. During the contract period ended June 30, 2022, the Tyrone Area School District made contributions to the Consortium for its share of paid claims, administrative expenses, stop loss insurance costs and required reserves of \$2,648,845, which was charged as an expenditure for health care benefits. As of the date of these financial statements, the annual reserve calculation for the period ended June 30, 2022, has not been completed.

Tyrone Area School District self-insures the cost of dental insurance. During the 2021-2022 fiscal year, \$91,821 in dental claims were paid.

Note 12. Affiliates

The District is affiliated with the Appalachia Intermediate Unit #8 (AIU#08) and the Greater Altoona Career and Technical Center (GACTC). The member school Districts participate in providing oversight responsibility to the IU#08 and the GACTC through appointment of Board members, who are also Board members of the participating school Districts and, approval and funding of operating budgets.

Tyrone Area School District is a member of the Appalachia Intermediate Unit #08. The Appalachia Intermediate Unit #08 Board members consist of 14 members from the 42 member Districts, CTC's and Charter schools in the region serving on a rotational basis. The members are appointed to the IU #08 Board by the member Districts' Board of School Directors. Through this membership, the District is able to secure various special services, including special education, curriculum development, and certain internal-service functions. The District's share of general operational expense of Appalachia Intermediate Unit #08 for the year 2021-2022 was \$6,277.

Tyrone Area School District is served by the Greater Altoona Career and Technical Center (the Center). The District is one of eight-member school Districts participating in the operation of the Center. The Center is operated, administered, and managed by a joint-operating committee consisting of board members from each of the eight-member school Districts. Students of the District are offered courses and curriculums at the Vo-Tech that are related to various technical-training fields. Costs of the Vo-Tech are shared with other local Districts. The GACTC general operating expense is \$11,162,952. The Tyrone Area School District pays for 6.82% of that, based upon student enrollment in the Vo-Tech for the year 2021-2022. Total costs paid to the GACTC for 2021-2022 was \$407,115 which included \$14,859 in lease payments for an Act 77 Energy Savings Project debt.

Note 12. Affiliates (Continued)

The Tyrone Area School District is served by the Blair County Tax Collection Bureau (BCTCB) and along with the municipalities within the District border have representation on the Board of Directors. The bureau exists to expedite and to consolidate the collection of Earned Income Taxes (.5% on earnings) on behalf of the District. Representation on the BCTCB Board is fulfilled by the District Business Manager, Board Chairman. The District currently surrenders 1.4% of collections as a fee for services.

The District is a founding member of the Blair County School Health Consortium (BCSHC) with the objective of cooperatively purchasing healthcare insurance services. The Consortium functions as a self-funded insurer and purchases claims payment, adjustment and negotiated reimbursement services through Highmark of Western PA. The consortium brokerage firm is The Reschini Agency of Indiana, PA. The seven member Districts are represented by their respective Business Managers according to the bylaws of the consortium. The Williamsburg Community School District Business Manager is serving as the current Fiscal Agent for the consortium. District fees are based upon plan design and participant count. The consortium and the Districts rate of increase in coverage has averaged 5.05% over the past 15 years.

Note 13. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets, errors, or omissions. Significant losses are covered by commercial insurance for all major programs. For insured programs, there have been no significant reductions in settlement coverage. Settlement amounts have not exceeded insurance coverage for the current or the three prior years.

Recent developments arising from the coronavirus pandemic and efforts to mitigate the disease's domestic and global impacts have impacted the operations and finances of School Districts. Changes in service approach, labor and personnel changes, facility closings, contracted service disruptions, personal protective equipment purchases, and technological equipment acquisitions have affected all School Districts. Unstable conditions enhance School District's risk factors as they have significant reliance on revenues from taxpayers and governmental agencies to fund their operations. These factors impact revenue recognition, cash flows and liquidity, and contingencies. Presently, the ultimate, effects of this crisis on financial position, results of operations, and cash flows are indeterminable because the duration of the crisis is also indeterminable; however, management continues to monitor developments.

Note 14. Prior Period Adjustment

As of July 1, 2021, the District changed allocation methods for allocating the Net Pension Liability and OPEB liabilities between governmental funds and business-type activities. This change resulted in a restatement of government-wide net position of \$(956,000) and business type activities net position of \$(956,000).

SUPPLEMENTARY INFORMATION

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of School Directors
Tyrone Area School District
Tyrone, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Tyrone Area School District (District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 27, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards*, in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH
MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER
COMPLIANCE AS REQUIRED BY THE UNIFORM GUIDANCE**

Board of School Directors
Tyrone Area School District
Tyrone, Pennsylvania

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Tyrone Area School District's (District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2022. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District's complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the District's Federal award programs for year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Note 2. Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

Note 3. Indirect Cost Rate

Tyrone Area School District has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.
