

WRAPPING UP THE 2024-2025 SCHOOL YEAR!

By OAE Staff

As the school year winds down, adult learners can take a well-deserved moment to reflect on how far they've come. Balancing work, family, and education is no small feat, and completing another academic year is a powerful reminder of their resilience and commitment to personal growth. Whether completing a certification, exploring a new skill set, or working toward a long-term goal, adult students are proving that it's never too late to learn something new! Now is the time to celebrate progress, acknowledge challenges overcome, and start setting intentions for the upcoming season.

As we wrap up the school year, we want to extend heartfelt gratitude to the many supporters who make this journey possible. From dedicated instructors and program coordinators to family members, friends, and community partners, your encouragement and belief in adult learners make a lasting impact. Your support helps create spaces where learning thrives and where adults of all backgrounds can build confidence, skills, and brighter futures. Thank you for walking alongside us every step of the way!
