

Campus Improvement Plan 2024-2025

PSJA Thomas Jefferson T-STEM Early College High School

Executive Summary

- •Mission: It is the mission of all stakeholders of PSJA Thomas Jefferson Early College High School to assist every student in developing college, career, and global citizen capacities to the fullest while completing college core coursework or earning a postsecondary degree by high school graduation.
- •Demographics Summary: The current enrollment of PSJA Thomas Jefferson Early College High School, as of 9/3/2024 is 556 students. The student population consists of 98.3% Hispanic and less than 1% African American, White, and Asian (each). Our students represent low socio-economic status of approximately 93 %, with 33.9% English Limited population and a 4.0 mobility rate. Approximately 5.1% of our student population receive special education services, while 2.6% receive accommodation under RTI and 504. Our Gifted and Talented population accounts for approximately 13.2% or 70 students.
- •The bilingual population is approximately 33.7% where most of the students' home language is Spanish. The attendance rate for the campus has consistently been maintained at approximately 98.3%. Since we are a school of choice, most of our students come from the tri-city area (Pharr, San Juan, and Alamo) area boundary marked between Owassa Road (Northside) to Dicker Drive (Southside) and Tower Road (Eastside) to a bit past Jackson Road (Westside). We currently have over 89 students who transfer into our campus from zones out of our district (Edinburg CISD, Donna ISD, McAllen ISD, and Valleyview ISD, etc...).
- •Comprehensive Needs Assessment Summary: PSJA Thomas Jefferson Early College High School received an overall grade of 96 out of 100 based on performance in three different areas, or domains. In the Effective Teaching and Learning domain, we earned 96, which shows how much students know and can do at the end of the school year. The School Progress domain, 96 for T-STEM, shows how students perform over time and how that growth compares to similar schools. T-STEM scored 95 in Closing Gaps, thedomain that shows how well different student groups within a school are performing. T-STEM, also, had four distinctions in the "Science", "Social Studies", "Comparative Academic Growth", and the "Post-Secondary Readiness" area, where we were compared to 40 other school from across the state with similar demographics.
- •Curriculum/ Instruction and Assessment: Teachers utilize curriculum in Pre-Advanced Placement, Advanced Placement, and Dual Credit programs for all students in both Spanish and English instruction with a focus on district/campus professional development instructional pedagogy. All students participate in a college prep program and/or dual credit college courses. These programs are the cornerstone for the successes of our student population, whereas all students graduate with several college credits if not a certificate, endorsement, or college degree. Coincidently the need to engage students in viable classes as leaders that focus in reading, writing, and content literacy is a strong point that embodies all programs that we offer for students, staff, and community.
- •Summary of Goals: Improve student mastery of grade level TEKS by utilizing TEKS based, data driven instruction to increase the number of all students scoring at the Masters level on EOC STAAR by 5% in all subject areas and subgroups. Students in grades 9-12 will show a one level increase in students' performance in their composite performance as determined by TELPAS assessment (prior year compared to current year). Improve practice of high-engagement, rigorous instruction for all students. State data will reflect a 5% increase in Domains I, II, and III. Provide a safe, rigorous, highly engaging learning environment to all students and staff. One hundred percent of students will participate in our campus wide PBIS and social emotional learning initiative. Increase the academic achievement of all students, in all subgroups by 10%. Close the achievement gap by 10% between the economically disadvantaged, special education and ELL populations. Students will improve to attendance to show 99% overall attendance for the campus. One hundred percent of parents will have the opportunity to participate in school events and engagement activities. T-STEM will continue to collaborate with community stakeholders to ensure student/campus success.
