May is Mental Health Awareness Month

Throughout the month, we'll be sharing some information about mental health, how to assist us all in becoming more aware of mental health issues, and decreasing the stigma that comes with mental health illnesses. We treat physical problems with medicine, surgeries, physical therapy, and other remedies, but are often secretive and embarrassed when we, or someone we know, has a problem with mental health. To remove the stigma, we need to talk about it, and help each other!

There will be special announcements this month, posters, a special advisory lesson with more information about how to help our students and others to become mentally healthy.

There are still scholarship opportunities available in the last month of the 24-25 school year. Be sure that you're in contact with the personnel involved with awards you may have received to understand how to get those funds transferred to your college account.
