

PHYSICAL EXAMINATIONS OF STUDENTS

- A. General.** Each child must have written evidence of a complete physical examination within one year preceding first entry to school. Additionally, each child shall have written evidence of a physical examination within one year before entering seventh grade and again before entering into high school.

Parents of students transferring to the District must present documentation evidencing the physical examination requirement prior to or upon first entry into the District's schools. Failure to comply with this provision may result in exclusion from school for the child.

- B. Conditional Enrollment.** If an examination required under paragraph A above has not been performed within the preceding year, the school will accept documentation of an appointment for a physical examination within two months of enrollment, or other time deemed appropriate by the Superintendent.

- C. Homeless Students and Unaccompanied Youth.** Pursuant to the McKinney-Vento Act and Board policy **JFABD**, homeless students and/or unaccompanied youth may enroll and attend school while the Homeless Liaison works with the family/student to obtain examinations or documentation of the same.

- D. Special Examination.** Pursuant to RSA 200:34, every child with a presenting problem and whom the school nurse deems to require further evaluation may be referred by the school nurse, with the consent of the principal, to the parents/guardians of said child for examination and evaluation by an appropriate practitioner. If the parents/guardians fail or neglect to have said child so examined and fail to present the recommendations from said examiner within a reasonable period after the referral by the school, then said child may be examined by a qualified health care provider. In significant cases, the matter may be reported to DCYF pursuant to Board policy **JLF**.

- E. Religious Exemption.** No medical examination shall be required of a child whose parent/guardian objects thereto in writing on the grounds such medical examination is contrary to their religious tenets and teachings.

- F. Participation on Athletic Teams.** Prior to participation on a school athletic team, students must provide written documentation that they have passed a physical exam. Such exam must be completed at least once every school year. This requirement does not apply to students participating in intramural athletics. At the District's sole discretion, the school may schedule physical exams with a single, qualified health care provider (i.e., physician, advanced registered nurse practitioner, or licensed physician's assistant). Any student who misses the scheduled physicals must present evidence of a physical exam from a licensed health care provider.

- G. Parent/Guardian Notification - Certain Circumstances.** Pursuant to the Protection of Pupil Rights Amendment, if the District utilizes federal money to perform physical exams or screenings on students, the District will notify parents/guardians of such physical exam or screening and will allow the parents/guardians to "opt out" their child of any non-emergency, invasive physical

exam or screening required as a condition of attendance, administered by the school or its agent and scheduled by the school, and not necessary to protect the immediate health and safety of a student or of another student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under state law.
