CERTIFICATE OF BOARD

Pittsburg Independent School District
Name of School District

Camp
County

032-902
Co.-Dist. Number

We, the undersigned, certify that the attached annual financial reports of the above-named school district were reviewed and (check one) ☒ approved _____ disapproved for the year ended August 31, 2020 at a meeting of the Board of Trustees of such school district on the 19th day of October, 2020.

Signature of Board Secretary

Signature of Board President

If the Board of Trustees disapproved of the auditors' report, the reason(s) for disapproving it is (are):
(attach list as necessary)

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Pittsburg Independent School District
Pittsburg, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Pittsburg Independent School District as of and for the year ended August 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2020, and the respective changes in financial position, thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and net pension liability and contributions to TRS and net OPEB liability and contributions to OPEB on pages 4 through 12 and pages 49 through 54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual non-major fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The combining and individual non-major fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The Texas Education Agency requires school districts to include certain information in the Annual Financial and Compliance Report in conformity with laws and regulations of the State of Texas. The information is in Exhibits identified in the Table of Contents as J-1, J-4, and J-5. These schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 7, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the PITTSBURG Independent School District we offer readers of the PITTSBURG Independent School District's financial statements this narrative overview and analysis of the financial activities of the PITTSBURG Independent School District for the year ended August 31, 2020. The information presented here should be read in conjunction with the District's financial statements.

FINANCIAL HIGHLIGHTS

The District's total combined net position was \$10.7 million at August 31, 2020. During the year, the District's total revenues exceeded expenses by \$1.37 million as compared to \$847 thousand the prior year. Total expenses of the District were \$28.8 million for the year. Revenues were \$30.1 million. Expenses increased \$2.3 million. Payroll was up \$1.3 million. Net pension and OPEB liabilities increased \$508 thousand. State revenues increased this year by \$1.9 million. Property tax revenue decreased \$179 thousand or 1.8% as tax rate decreased slightly. Operating grants increased \$1.4 million.

Under accounting standards as per GASB 68, the District's portion of the net pension liability has been recorded on the government-wide statements. The District's portion of this liability and the related deferred outflow and inflow as of August 31, 2020 is a net liability of \$4.85 million which is an increase of \$844 thousand over the prior year.

Under accounting standards as per GASB 75, the District's portion of the net OPEB liability for TRS Care has been recorded in the government-wide statements. The District's portion of this liability and the related deferred outflow and inflow as of August 31, 2020 is a net liability of \$16.6 million which is a decrease of \$336 thousand from the prior year.

The District reported fund balance in the general fund of \$8.33 million at August 31, 2020, which is an increase of approximately \$1.35 million. Expenditures in the general fund increased \$1.35 million. Instructional payroll costs were up \$520 thousand. Facilities costs were up \$250 thousand mainly because of replacing HVAC units. District safety equipment purchases of \$105 thousand were made. Total revenue in the general fund was up \$1.9 million. Local revenue was down \$338 thousand mainly due to decreased property tax revenue and decreased interest income. State revenue was up \$2.2 million.

Approximately \$542 thousand of new fixed assets were added this year. The District has now completed all the construction/renovation projects. No new debt was obtained this year. \$1.22 million was paid on debt principal.

Approximately 97% of the taxes levied for 2019-20 were collected by fiscal year end.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts--*management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in *more detail* than the government-wide statements.
 - The *governmental funds* statements tell how *general government* services were financed in the *short term* as well as what remains for future spending.
 - *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

Figure A-1. Required Components of the District's Annual Financial Report

Summary ⇌ Detail

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Figure A-2. Major Features of the District's Government-wide Fund Financial Statements

<i>Type of Statements</i>	Government-wide	Governmental Funds	Proprietary Funds	Fiduciary Funds
<i>Scope</i>	Entire Agency's government (except fiduciary funds) and the Agency's component units	The activities of the district that are not proprietary or fiduciary	Activities the district operates similar to private businesses: self insurance	Instances in which the district is the trustee or agent for someone else's resources
<i>Required financial statements</i>	*Statement of net position	*Balance sheet	*Statement of net position	*Statement of fiduciary net position
	*Statement of activities	*Statement of revenues, Expenditures & changes in fund balances	*Statement of revenues, expenses and changes in fund net position	*Statement of changes in fiduciary net position
			*Statement of cash flows	
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter, no capital assets included	all assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the Agency's funds do not currently contain capital assets, although they can
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon after	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

(A) The District has no proprietary funds.

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's *net position* and how they have changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, consideration should be given to additional non-financial factors such as changes in the District's tax base.

The government-wide financial statements of the District include the *Governmental activities*. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes and grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant *funds*-not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has two kinds of funds:

- *Governmental funds*-Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided that explains the relationship (or differences) between them.
- *Fiduciary funds*-The District is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that-because of a trust arrangement-can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. These activities are excluded from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net position. The District's combined net position were approximately \$10.7 million at August 31, 2020.

Table A-1
The District's Net Position
(in thousands of dollars)

	Governmental Activities	
	2020	2019
Current and other assets	11,713	10,919
Capital and non-current assets	39,910	40,988
TOTAL ASSETS	51,623	51,907
Deferred resource outflow related to TRS	3,318	4,228
Deferred resource outflow related to TRS OPEB	1,156	923
TOTAL DEFERRED OUTFLOWS OF RESOURCES	4,474	5,151
Long-term liabilities	34,737	38,894
Other liabilities	1,223	2,058
TOTAL LIABILITIES	35,960	40,952
Unavailable revenue-property taxes	147	163
Deferred resource inflow related to TRS	1,618	594
Deferred resource inflow related to TRS OPEB	7,680	5,987
TOTAL DEFERRED INFLOWS OF RESOURCES	9,445	6,744
Net position		
Invested in capital assets		
net of related debt	21,776	21,584
Restricted	1,547	1,490
Unrestricted	(12,631)	(13,712)
TOTAL NET POSITION	10,692	9,362

Net investment in capital assets reflects the book value of the District's capital assets in excess of the debt which financed those assets. Recording the OPEB liability, and the pension liability and deferred outflows and inflows related to them decreases unrestricted net position by \$16.6 million and \$4 million respectively.

The \$1.5 million is restricted as follows:

Restricted for federal & state programs	332
Restricted for capital projects	-
Restricted for debt service	1,215
	<u>1,547</u>

Net position of the District's governmental activities increased \$1.37 million. The increase was the result of several factors. First, the increase of governmental fund balances was \$1.65 million. Second, the District paid \$1.22 million principal on long-term debt and acquired capital assets through purchase or construction of approximately \$542 thousand. Third, the District recorded depreciation of \$1.35 million. The net pension liability increased \$844 thousand. The net OPEB liability decreased \$336 thousand.

Changes in net position.

The District's total revenues were \$30.1 million.

The total cost of all programs was \$28.8 million.

Net position increased by \$1.37 thousand from the excess of revenues over expenses. Reasons for these differences are described on page 4.

Ending Net Position	<u>10,692</u>	<u>9,362</u>

Table A-3 presents the cost of each of the District's largest functions as well as each function's *net cost* (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.

- The cost of all *governmental* activities this year was \$28.8 million.
- However, the amount that taxpayers paid for these activities through property taxes was only \$9.7 million.
- Some of the cost was paid by those who directly benefited from the programs \$152 thousand, and state aid of \$13.4 million.

Table A-3
Net Cost of Selected District Functions
(in thousands of dollars)

	Total Cost of Services		Net Cost of Services	
	2020	2019	2020	2019
Instruction	16,884	15,454	12,773	12,411
School administration	2,340	2,236	1,960	1,801
Plant Maintenance & Operations	2,996	2,828	2,780	2,685
Debt Service-Interest & Fiscal Charges	506	535	506	535

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The District reported fund balance in its governmental funds of approximately \$9.9 million reflecting a net increase of \$1.65 million. The general fund balance increased \$1.6 million.

The general fund revenue increased about 9% or \$1.9 million. State revenue increased. Other variances are discussed on page 4.

The food service fund balance is now \$331 thousand, an increase of \$2 thousand. The debt service fund increased \$82 thousand as property tax revenue increased because of higher values.

General Fund Budgetary Highlights

Several budget amendments were made during the year. With these amendments, actual expenditures were less than budgeted by approximately \$1 million or 4%. Actual revenues were more than budget by \$409 thousand or 2%. Fund balance increased \$1.59 million more than budgeted.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

Table A-4
District's Capital Assets Including Blended Component Unit
(in thousands of dollars)

	Governmental Activities	
	2020	2019
Land	511	536
Buildings and improvements	54,459	54,731
Furniture and equipment	5,993	5,479
Totals at historical cost	60,963	60,746
Total accumulated depreciation	(21,053)	(19,758)
Net capital assets	39,910	40,988

The District replaced some HVAC units this year and added two buses.

Long-Term Debt

Table A-5
District's Long-Term Debt Including Blended Component Unit
(in thousands of dollars)

	Governmental	
	2020	2019
Bonds payable	18,059	19,259
Notes payable	75	145
Total bonds and notes payable	18,134	19,404

No new debt was obtained this year. Principal payments of \$1.22 million were made this year.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The district's elected and appointed officials considered many factors when setting the fiscal year 2021 budget and tax rates. Three of those factors were COVID-19 and the economy and the population of Camp County. In 2019, Camp County, TX had a population of 13,094 people with a median age of 36.8 and a median household income of \$42,604. As of July 2019, the population of Camp County, TX grew from 12,670 to 13,094, a 0.032% increase and its median household income grew from \$41,811 to \$42,604, a 0.018% increase. The population of Camp County, TX is 78.6% White Alone, 25.9% Hispanic or Latino, and 16.5% Black or African American Alone. The median property value in Camp County, TX is \$87,500, and the homeownership rate is 71.7%. Camp County, TX borders Wood County, TX, Upshur County, TX, Titus County, TX, Morris County, TX, and Franklin County, TX. The economy of Camp County, TX employs 5.27k people. The largest industries in Camp County, TX are Manufacturing (912 people), Retail Trade (838 people), and Health Care & Social Assistance (575 people), and the highest paying industries are Utilities (\$85,755), Mining, Quarrying, & Oil & Gas Extraction (\$78,523), and Transportation & Warehousing, & Utilities (\$60,536). Males in Texas have an average income that is 1.41 times higher than the average income of females, which is \$45,959. The income inequality in Camp County, TX (measured using the Gini index) is 0.482, which is higher than the national average.

The enrollment of students at the district was 2237 on the first day of school for the 2020-21 school year and 2340 on the first day of school for the 2019-20 school year which gives an estimated decrease of one hundred three students for the 2020-21 school year as of August 2020. As of September 2020, enrollment was 2358 which indicates an increasing enrollment. Due to COVID-19, the student attendance fluctuates monthly. The board of trustees monitors the enrollment on a monthly basis.

The tax rate for the 2020-21 school year was set by the board of trustees at \$0.9437 for maintenance operations plus \$0.20 for debt service resulting in a total tax rate of \$1.1437 per \$100 of valuation which decreased from the previous year due to HB3. The total taxable value as reported by the Camp Central Appraisal District increased by \$52.4M giving a total taxable value of \$903,204,974. The total appraised value of all property increased by \$182.1M giving a total appraised value of \$1,539,779,749. The average taxable values of residences increased 6% from \$95,751 to \$102,322. Taxes due on an average residence for the 2020-21 school year will amount to \$1,193 which is a decrease of approximately \$73.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the PITTSBURG Independent School District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be directed to the District's Central Business Office.

PITTSBURG INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET POSITION
AUGUST 31, 2020

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$ 9,877,682
1 The District has a blended component unit. The beginning fund balance/ net position is not included in the governmental funds.	377
2 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$60,746,339 and the accumulated depreciation was (\$19,757,767). In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to decrease net position. Note: Beginning Balances related to TRS are NOT included in this amount.	21,584,716
3 Current year capital outlays and debt principal are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2020 capital outlays and debt principal payments is to decrease net position.	1,494,535
4 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. At the beginning of the year, the net position related to TRS was a Deferred Resource Outflow in the amount of \$4,227,924, a Deferred Resource Inflow in the amount of \$593,878, and a net pension liability in the amount of \$7,638,580. The impact of this on Net Position is \$(4,004,534). Changes in the plan reported by TRS for this measurement period resulted in a decrease in net position in the amount of \$(843,609). The combination of the beginning of the year amounts and the changes during the year resulted in a difference between the ending fund balance and the ending net position in the amount of \$(4,848,143).	(4,848,143)
5 Included in the items related to debt is the recognition of the District's proportionate share of the net OPEB liability required by GASB 75. At the beginning of the year, the net position related to the OPEB liability was a Deferred Resource Outflow in the amount of \$922,658, a Deferred Resource Inflow in the amount of \$5,987,064 and a net OPEB liability in the amount of \$11,851,785. The impact of this on Net Position is \$(16,916,191). Changes in the OPEB reported by TRS for this measurement period resulted in an increase in net position in the amount of \$336,434. The combination of the beginning of the year amounts and the changes during the year resulted in a difference between the ending fund balance and the ending net position in the amount of \$(16,579,757).	(16,579,757)
6 The 2020 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.	(1,349,399)
7 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.	511,681
19 Net Position of Governmental Activities	\$ 10,691,692

PITTSBURG INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED AUGUST 31, 2020

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PITTSBURG INDEPENDENT SCHOOL DISTRICT (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board and other authoritative sources identified in *Statement on Auditing Standards No. 69* of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

Pensions. The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits. The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

PITTSBURG INDEPENDENT SCHOOL DISTRICT applies Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements. The District's investments are accounted for using the cost amortization method.

A. REPORTING ENTITY

The Board of Trustees (the "Board") is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." There is a Public Facility Corporation that is a blended component unit. The PFC was created to obtain financing to construct a new Cafetorium.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the PITTSBURG INDEPENDENT SCHOOL DISTRICT and its component unit's non-fiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other inter-governmental revenues.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. Direct costs are those that are clearly identifiable with a specific function. Program revenues of the District include charges for services and operating grants and contributions. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Interfund activities between governmental funds appear as due to/due froms on the Governmental Fund Balance Sheet and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due froms on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for two fund categories - governmental and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for un-matured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

D. FUND ACCOUNTING

The District's accounts are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which are comprised of each fund's assets, liabilities, equity, revenues and expenditures.

The District reports the following major governmental funds:

1. **The General Fund** -- The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. **Debt Service Funds** -- The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.

Additionally, the District reports the following fund type(s):

Governmental Funds:

1. **Special Revenue Funds** -- The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.
2. **Capital Projects Fund** -- The proceeds from long-term debt financing and revenue and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Fiduciary Funds:

1. **Agency Funds** - The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Funds are student activity funds.

E. OTHER ACCOUNTING POLICIES

1. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position.
2. Capital assets, which include land, buildings, furniture and equipment is reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District and the component units are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	50
Building Improvements	20-50
Vehicles	10
Office Equipment	10
Computer Equipment	5

3. Some cash and investments are restricted for future debt payments.
4. In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Commitments of fund balance represent tentative management plans that are subject to change.
5. When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.
6. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a Statewide data base for policy development and funding plans.
7. School Districts are required to report all expenses by function, except certain indirect expenses. General administration and data processing service functions (data control codes 41 and 53, respectively) include expenses that are indirect expenses of other functions. These indirect expenses are not allocated to other functions.
8. Investments are carried at fair value.
9. Fund balance measures the net financial resources available to finance expenditures of future periods.

The District's Unassigned General Fund Balance will be maintained to provide the District with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing. The Unassigned General Fund balance may only be appropriated by resolution of the Board of Trustees.

Fund balance of the District may be committed for a specific source by formal action of the Pittsburg ISD Board of Trustees. Amendments or modifications of the committed fund balance must also be approved by formal action of the Pittsburg ISD Board of Trustees.

When it is appropriate for fund balance to be assigned, the Board delegates authority to the Superintendent.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

10. Deferred Outflows/Inflows of Resources—The District implemented GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position and GASB Statement No. 65, Items Previously Reported as Assets and Liabilities for the year ended August 31, 2013. The District implemented GASB Statement No. 68 Accounting and Financial Reporting for Pensions for the year ended August 31, 2015. The District implemented GASB Statement No. 75 Accounting and Financial Reporting for Other Post-Employment Benefits for the year ended August 31, 2018. In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has three types of items that qualify for reporting in this category, deferred charge for refunding bonded indebtedness and deferred outflows related to TRS as per GASB 68 related to pension accounting, and related to TRS OPEB related to TRS Care. These will be recognized as an outflow of resources in the subsequent years as they are amortized.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has three types of items that qualify for reporting in this category, property taxes and deferred inflows related to TRS, and related to TRS Care. These amounts will be recognized as an inflow of resources in the subsequent years as collected.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET POSITION

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net position for governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds. The details of capital assets and long-term debt at the beginning of the year were as follows:

<u>Capital Assets at the Beginning of the year</u>	<u>Historic Cost</u>	<u>Accumulated Depreciation</u>	<u>Net Value at the Beginning of the Year</u>	<u>Change in Net Position</u>
District				
Land	535,557	-	535,557	
Buildings & Improvements	53,364,286	(15,094,200)	38,270,086	
Furniture & Equipment	5,478,767	(4,225,896)	1,252,871	
Construction in Progress	-	-	-	
Public Facility Corporation				
Buildings	1,367,729	(437,671)	930,058	
Change in Net Position	60,746,339	(19,757,767)		40,988,572

<u>Long-term Liabilities</u> <u>at the Beginning of the year</u>	<u>Payable at the</u> <u>Beginning of the</u> <u>Year</u>	
District		
Bonds Payable	19,023,856	
Loans Payable	145,000	
Public Facility Corporation		
Bonds Payable	<u>235,000</u>	
		<u>19,403,856</u>
Net Adjustment to Net Position		<u><u>21,584,716</u></u>

Another element of the reconciliation is the Public Facility Corporation, a blended component unit. Balances at the beginning of the year other than the fixed assets and debt from above are:

Cash	378
Due to District	<u>(1)</u>
Net adjustment to net position	<u><u>377</u></u>

B. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

Exhibit C-4 provides a reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net position of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net position balance and the change in net position. The details of this adjustment are as follows:

	<u>Amount</u>	<u>Adjustments to</u> <u>Changes in Net</u> <u>Position</u>	<u>Adjustments to</u> <u>Net Position</u>
<u>Current year Capital Outlay</u>			
Land	-		
Buildings & Improvements	27,251		
Furniture & Equipment	<u>514,284</u>		
Total Capital Outlay	<u>541,535</u>	<u>541,535</u>	<u>541,535</u>
Book Value of Land and Building Sold	<u>(271,000)</u>	<u>(271,000)</u>	<u>(271,000)</u>
<u>Debt Principal Payments</u>			
Bond Principal	1,154,000		
Loan Principal	<u>70,000</u>		
Total Principal Payments	<u>1,224,000</u>	<u>1,224,000</u>	<u>1,224,000</u>
Total Adjustment to Net Position		<u><u>1,494,535</u></u>	<u><u>1,494,535</u></u>

Another element of the reconciliation on Exhibit C-4 is described as various other reclassifications and eliminations necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. This adjustment is the result of several items. The details for this element are as follows:

	Amount	Adjustments to Change in Net Position	Adjustments to Net Position
<u>Adjustments to Revenue and Deferred Revenue</u>			
Taxes Collected from Prior Year Levies	318,943	(318,943)	-
Uncollected taxes (assumed collectible) from Current Year Levy	229,050	229,050	229,050
Uncollected Taxes (assumed collectible) from Prior Year Levy	236,762	-	236,762
Effect of prior year tax entries	85,684	85,684	-
Recorded net income (loss) from Public Facility Corporation before depreciation	10	10	10
<u>Debt Activity</u>			
Premium amortization	45,859	45,859	45,859
Total		<u>41,660</u>	<u>511,681</u>

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the Food Service Fund which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds if they are considered major funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit C-5 and the other two reports are in Exhibit J-4 and J-5.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

1. Prior to August 20 the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. However, none of these were significant.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end. A reconciliation of fund balances for both appropriated budget and non-appropriated budget special revenue funds is as follows:

	August 31, 2020
	<u>Fund Balance</u>
Appropriated Budget Funds - Food Service Special Revenue Fund	331,714
Nonappropriated Budget Funds	<u>622</u>
All Special Revenue Funds	<u><u>332,336</u></u>

IV. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents

District Policies and Legal and Contractual Provisions Governing Deposits

Custodial Credit Risk for Deposits State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the district complies with this law, it has no custodial credit risk for deposits.

Foreign Currency Risk The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit by not allowing foreign currency investments.

As of August 31, 2020, the following are the District's cash and cash equivalents with respective maturities and credit rating:

Type of Deposit	Fair Value	Percent	Maturity in Less than 1 year	Maturity in 1-10 Years	Maturity in Over 10 Years	Credit Rating
Cash, Money Markets and FDIC Insured Accounts	\$ 10,255,224	100.0%	\$ 10,255,224	-	-	N/A
Total Cash and Cash Equivalents	<u>\$ 10,255,224</u>	<u>100%</u>	<u>\$ 10,255,224</u>	<u>\$ -</u>	<u>\$ -</u>	

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- Depository: Pilgrim Bank
- The market value of securities pledged as of the date of the highest combined balance on deposit was \$15,597,651.
- The highest combined balances of cash, savings, and time deposit accounts amounted to \$13,986,139 and occurred during the month of January, 2020.
- Total amount of FDIC coverage at the time of the highest combined balance was \$500,000.

Investments

District Policies and Legal and Contractual Provisions Governing Investments

Compliance with the Public Funds Investment Act

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies; (2) guaranteed or secured certificates of deposit issued by state and national banks domiciled in Texas; (3) obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality not less than an "A"; (4) No load money market funds with a weighted average maturity of 90 days or less; (5) fully collateralized repurchase agreements; (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies OR one nationally recognized credit agency and is fully secured by an irrevocable letter of credit; (7) secured corporate bonds rated not lower than "AA-" or the equivalent; (8) public funds investment pools; and (9) guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas public Funds Investment Act in an amount equal to the bond proceeds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. PITTSBURG INDEPENDENT SCHOOL DISTRICT is in substantial compliance with the requirements of the Act and with local policies.

Additional policies and contractual provisions governing investments for PITTSBURG INDEPENDENT SCHOOL DISTRICT are specified below:

Credit Risk To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments in commercial paper, corporate bonds, mutual bond funds to the top ratings issued by nationally recognized statistical rating organizations (NRSROs).

Custodial Credit Risk for Investments To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party the District requires counterparties to register the securities in the name of the district and hand them over to the District or its designated agent. This includes securities in securities lending transactions. All of the securities are in the District's name and held by the District or its agent.

Concentration of Credit Risk To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District limits investments to less than 5% of its total investments. The District further limits investments in a single issuer when they would cause investment risks to be significantly greater in the governmental and business-type activities, individual major funds, aggregate non-major funds and fiduciary fund types than they are in the primary government. Usually this limitation is 20%.

Interest Rate Risk To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District requires all of the investment portfolio to have maturities of less than one year.

Foreign Currency Risk for Investments The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment by not allowing foreign investments.

1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below. In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

In this discussion and in the table below, investments are defined according to GASB 72 as a security or other asset that (a) a government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or to be sold to generate cash. An asset initially reported as a capital asset and later held for sale would not subsequently be reclassified as an investment.

The District had no investments at August 31, 2020.

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

D. INTERFUND RECEIVABLES AND PAYABLES

Interfund balances at August 31, 2020 consisted of the following individual fund balances:

Due to General Fund from:	
Trust and Agency Funds	32,000
	<u>32,000</u>

E. DISAGGREGATION OF RECEIVABLES AND PAYABLES

Receivables at August 31, 2020, were as follows:

	Property Taxes	Other Governments	Due From Other Funds	Other	Total Receivables
Governmental Activities:					
General Fund	1,030,157	978,345	32,000	-	2,040,502
Major Debt Service Fund	196,220	-	-	-	196,220
Nonmajor Governmental Funds	-	76,160	-	-	76,160
Total - Governmental Activities	<u>1,226,377</u>	<u>1,054,505</u>	<u>32,000</u>	<u>-</u>	<u>2,312,882</u>
Amounts not scheduled for collection during the subsequent year	<u>613,189</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>613,189</u>

Payables at August 31, 2020, were as follows:

	Accounts	Loans, Leases, and Bonds Payable- Current Year	Salaries and Benefits	Due to Other Funds	Due to Other Governments	Total Payables
Governmental Activities:						
General Fund	23,229	-	1,056,829	-	104,066	1,184,124
Nonmajor Gov. Funds	(10,719)	-	-	-	-	(10,719)
Total - Gov. Activities	<u>12,510</u>	<u>-</u>	<u>1,056,829</u>	<u>-</u>	<u>104,066</u>	<u>1,173,405</u>
Amounts not scheduled for payment during the subsequent year	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>

F. CAPITAL ASSET ACTIVITY

Capital asset activity for the District for the year ended August 31, 2020, was as follows:

	Primary Government			Ending Balance
	Beginning Balance	Additions	Retirements	
Governmental Activities:				
District:				
Land	535,557	-	(25,000)	510,557
Buildings and Improvements	53,364,286	27,251	(300,000)	53,091,537
Construction in Progress	-	-	-	-
Furniture and Equipment	5,478,767	514,284	-	5,993,051
Public Facility Corporation:				
Building	1,367,729	-	-	1,367,729
Totals at Historic Cost	<u>60,746,339</u>	<u>541,535</u>	<u>(325,000)</u>	<u>60,962,874</u>
Less Accumulated Depreciation for:				
Buildings and Improvements	(15,094,200)	(990,015)	54,000	(16,030,215)
Furniture and Equipment	(4,225,896)	(332,030)	-	(4,557,926)
Public Facility Corporation:				
Buildings and Improvements	<u>(437,671)</u>	<u>(27,354)</u>	<u>-</u>	<u>(465,025)</u>
Total Accumulated Depreciation	<u>(19,757,767)</u>	<u>(1,349,399)</u>	<u>54,000</u>	<u>(21,053,166)</u>
Governmental Activities Capital Assets, Net	<u>40,988,572</u>	<u>(807,864)</u>	<u>(271,000)</u>	<u>39,909,708</u>

Depreciation expense was charged to governmental functions as follows:

Instruction	853,058
Instructional Resources & Media Services	25,007
Student (Pupil) Transportation	229,213
Food Services	114,710
Cocurricular/ Extracurricular Activities	104,822
General Administration	10,798
Plant Maintenance and Operations	<u>11,791</u>
Total Depreciation Expense	<u>1,349,399</u>

G. NOTES PAYABLE

The District accounts for short-term debts for maintenance purposes through the General Fund. Short-term debts include notes made in accordance with the provisions of the Texas Education Code Section 45.108. The proceeds from loans are shown in the financial statements as Other Resources and principal payments are shown as Other Uses.

Delinquent tax notes totaling \$870,000 were issued in May 2001 pursuant to Texas Education Code Section 45.104 to purchase, renovate, and equip facilities and pay costs associated with the issuance of the notes. The notes bear an interest of 5.91%. The notes are payable February 15th, and August 15th, commencing February 15, 2002. The final note payment is due February 15, 2021.

Year Ended August 31	Principal	Interest	Total Requirements
2021	75,000	2,216	77,216
Total	75,000	2,216	77,216

H. BONDS PAYABLE

Bonded indebtedness of the District is reflected as a long-term liability. Current requirements for principal and interest expenditures are accounted for in the Debt Service Fund.

In accordance with the Public Property Finance Act, as amended Section 271.001, the District entered into a lease purchase contract with a nonprofit corporation, the Pittsburg ISD Public Facility Corporation, to be created pursuant to the provisions of Chapter 303, as amended, Texas Local Government Code, as amended, for the use, purchase or other acquisition and improvement of a new school cafeteria and related facilities. The original issue, \$1,420,000 is dated January 12, 2002 and bears interest of 5.50% principal and interest payments are due February and August each year beginning August 15, 2002 and maturing August 15, 2021. For this report, the Public Facility Corporation is treated as a blended component unit.

The Pittsburg Independent School District Unlimited Tax School Building Bonds, Series 2013 were issued in July, 2013 pursuant to Sections 45-001 and 45-003(b)(1), Texas Education Code, as amended. Proceeds from the sale of the bonds are being used to construct, renovate, and equip school buildings and to acquire sites, and to pay the cost of issuing the bonds. Interest ranges from 2.00% to 3.50%. Interest is repaid annually beginning in fiscal year 2015 and principal will begin being repaid in fiscal year 2019 and will continue until maturity in fiscal year 2031.

The Pittsburg Independent School District Unlimited Tax School Building Bonds, Series 2014 were issued in May, 2014 pursuant to Sections 45-001 and 45-003(b)(1), Texas Education Code, as amended. Proceeds from the sale of the bonds are being used to construct, renovate, and equip school buildings and to acquire sites, and to pay the cost of issuing the bonds. Interest ranges from 1.18% to 4.00%. Interest is repaid annually beginning in fiscal year 2015 and principal will begin being repaid in fiscal year 2015 and will continue until maturity in fiscal year 2020.

The Pittsburg Independent School District Unlimited Tax School Building Bonds, Series 2016 were issued in August, 2016 pursuant to Sections 45-001 and 45-003(b)(1), Texas Education Code, as amended. Proceeds from the sale of the bonds are being used to construct, renovate, and equip school buildings and to acquire sites, and to pay the cost of issuing the bonds. Interest ranges from 2.00% to 3.00%. Interest is repaid annually beginning in fiscal year 2017 and principal will begin being repaid in fiscal year 2017 and will continue until maturity in fiscal year 2036.

H. BONDS PAYABLE (cont'd)

The Pittsburg Independent School District Unlimited Tax School Building Bonds, Series 2017 were issued in June, 2017 pursuant to Sections 45-001 and 45-003(b)(1), Texas Education Code, as amended. Proceeds from the sale of the bonds are being used to construct, renovate, and equip school buildings and to acquire sites, and to pay the cost of issuing the bonds. Interest is 3.00%. Interest is repaid annually beginning in fiscal year 2017 and principal will begin being repaid in fiscal year 2018 and will continue until maturity in fiscal year 2031.

A summary of changes in long-term debt for the year ended August 31, 2020 is as follows:

Description	Interest Rate Payable	Payable		Issued	Retired	Outstanding 8/31/2020
		Amounts Original Issue	Amounts Outstanding 9/1/2019			
Public Facility Bonds	5.55%	1,420,000	235,000	-	(115,000)	120,000
Unlimited Tax School Building Bonds						
Series 2014	1.18%-4%	500,000	79,000	-	(79,000)	-
Unlimited Tax School Building Bonds Series 2013	2.00%-3.50%	9,450,000	8,905,000	-	(555,000)	8,350,000
Unlimited Tax School Building Bonds Series 2016	2.00%-3.00%	9,175,000	8,225,000	-	(315,000)	7,910,000
Unlimited Tax School Building Bonds Series 2017	3.00%	1,485,000	1,310,000	-	(90,000)	1,220,000
Unamortized Premium	Variable	720,741	504,856	-	(45,859)	458,997
			<u>19,258,856</u>	<u>-</u>	<u>(1,199,859)</u>	<u>18,058,997</u>

Debt service requirements are as follows:

Year Ended August 31	General Obligations		Total Requirements
	Principal	Interest	
2021	1,185,000	510,655	1,695,655
2022	1,085,000	483,224	1,568,224
2023	1,115,000	455,201	1,570,201
2024	1,150,000	422,874	1,572,874
2025	1,185,000	387,764	1,572,764
2026-2030	5,765,000	1,397,174	7,162,174
2031-2035	5,080,000	522,625	5,602,625
2036	1,035,000	15,525	1,050,525
Total	<u>17,600,000</u>	<u>4,195,042</u>	<u>21,795,042</u>

I. CHANGES IN LONG-TERM LIABILITIES

Long-term activity for the year ended August 31, 2020, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities:					
Bonds and Notes Payable:					
General Obligation Bonds					
Public Facility Bonds	235,000	-	(115,000)	120,000	120,000
Unlimited Tax Refunding					
Bonds, Series 2013	8,905,000	-	(555,000)	8,350,000	645,000
Unlimited Tax School Building					
Bonds, Series 2014	79,000	-	(79,000)	-	-
Unlimited Tax School Building					
Bonds, Series 2016	8,225,000	-	(315,000)	7,910,000	325,000
Unlimited Tax School Building					
Bonds, Series 2017	1,310,000	-	(90,000)	1,220,000	95,000
Unamortized Premium	504,856	-	(45,859)	458,997	45,859
Delinquent tax notes	145,000	-	(70,000)	75,000	75,000
Total Governmental Activities	<u>19,403,856</u>	<u>-</u>	<u>(1,269,859)</u>	<u>18,133,997</u>	<u>1,305,859</u>

The District has no unused lines of credit. No assets have been pledged as collateral for debt.

J. DEFINED BENEFIT PENSION PLAN

Plan Description. PITTSBURG INDEPENDENT SCHOOL DISTRICT participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592. The information provided in the Notes to the Financial Statements in the 2017 Comprehensive Annual Financial Report for TRS provides the following information regarding the Pension Plan fiduciary net position as of August 31, 2019.

<u>Net Pension Liability</u>	<u>Total</u>
Total Pension Liability	\$ 209,961,325,288
Less: Plan Fiduciary Net Position	(157,978,199,075)
Net Pension Liability	<u>\$ 51,983,126,213</u>
Net Position as percentage of Total Pension Liability	75.24%

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (A) above.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 86th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2019 and 2020.

	<u>Contribution Rates</u>	
	<u>2019</u>	<u>2020</u>
Member	7.7%	7.7%
Non-Employer Contributing Entity	6.8%	6.8%
TRS		
Employers	6.8%	6.8%
District's 2020 Employer Contributions	\$	636,311
District's 2020 Member Contributions	\$	1,214,242
District's 2020 NECE On-Behalf Contributions	\$	756,070

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment
- When any part or all of an employee's salary is paid by federal funding source or a privately sponsored source.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Actuarial Assumptions. The total pension liability in the August 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2019
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	7.25%
Long-term expected Investment Rate of Return	7.25%
Municipal Bond Rate	2.63%
Inflation	2.30%
Salary Increases Including Inflation	3.05% to 9.05%
Payroll Growth Rate	2.5%
Benefit Changes During the Year	None
Ad hoc Post Employment Benefit Changes	None

The actuarial methods and assumptions are based primarily on a study of actual experience for the three year period ending August 31, 2018 and adopted in July, 2019.

Discount Rate. The discount rate used to measure the total pension liability was 7.25%. There was an increase from the discount rate of 6.907% since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2019 are summarized below:

Asset Class	Target Allocation	Real Return Arithmetic Basis	Long-Term Expected Portfolio Real Rate of Return*
Global Equity			
U.S.	18%	6.4%	1.15%
Non-U.S. Developed	13%	6.3%	0.86%
Emerging Markets	9%	7.30%	0.66%
Directional Hedge Funds	4%	0.00%	0.00%
Private Equity	13%	8.40%	1.09%
Stable Value			
U.S. Treasuries	11%	3.10%	0.34%
Absolute Return	0%	0.0%	0.0%
Hedge Funds (Stable Value)	4%	4.50%	0.18%
Cash	1%	2.5%	0.03%
Real Return			
Global Inflation Linked Bonds	3%	0.0%	0.00%
Real Assets	14%	8.50%	1.19%
Energy and Natural Resources	5%	7.30%	0.37%
Commodities	0%	0.0%	0.0%
Risk Parity			
Risk Parity	5%	5.8%	0.29%
Inflation Expectations			2.30%
Alpha			-1.21%
Total	100%		7.25%

* The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (7.25%) in measuring the 2019 Net Pension Liability.

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
District's proportionate share of the net pension liability:	\$10,065,538	\$6,548,237	\$3,698,441

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2020, PITTSBURG INDEPENDENT SCHOOL DISTRICT reported a liability of \$6,548,237 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to PITTSBURG INDEPENDENT SCHOOL DISTRICT. The amount recognized by PITTSBURG INDEPENDENT SCHOOL DISTRICT as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with PITTSBURG INDEPENDENT SCHOOL DISTRICT were as follows:

District's proportionate share of the collective net pension liability	\$ 6,548,237
State's proportionate share that is associated with the District	11,229,480
Total	<u>\$ 17,777,717</u>

The net pension liability was measured as of August 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2018 thru August 31, 2019.

At August 31, 2019 the employer's proportion of the collective net pension liability was .000125968519% which was a decrease of 8.7% from its proportion measured as of August 31, 2018.

Changes Since the Prior Actuarial Valuation – There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

A change was made in the measurement date of the total pension liability for the current fiscal year. The actuarial valuation was performed as of August 31, 2019. Update procedures were used to roll forward the total pension liability to August 31, 2019. This is the first year using roll forward procedures.

At August 31, 2020, PITTSBURG INDEPENDENT SCHOOL DISTRICT reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experience	\$ 27,508	\$ 227,365
Changes in actuarial assumptions	2,031,585	839,547
Difference between projected and actual investment earnings	65,752	-
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	556,686	551,239
Contributions paid to TRS subsequent to the measurement date [to be calculated by employer]	636,714	-
Total	\$ 3,318,245	\$ 1,618,151

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended August 31:	Pension Expense Amount
2021	\$ 356,105
2022	\$ 271,139
2023	\$ 262,881
2024	\$ 247,508
2025	\$ 13,673
Thereafter	\$ (87,927)

Contributions. Contributions made by the State on behalf of the District are recorded in the governmental funds financial statements as both revenue and expenditures. State contributions to TRS made on behalf of the District's employees as well as the District's required contributions and federal grant program contributions for the years ended August 31, 2020, 2019 and 2018 are as follows:

	2020	2019	2018
Required District Contributions	\$ 636,311	\$ 599,776	\$ 631,249
Actual District Contributions	636,311	599,776	631,249
Federal Contributions	57,866	46,382	51,648
State Contributions	756,070	790,561	810,025
Employee Contributions	1,214,242	1,111,608	1,150,935

K. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Components of the net OPEB liability of the TRS-Care plan as of August 31, 2019 are as follows:

<u>Net OPEB Liability</u>	<u>Total</u>
Total OPEB Liability	\$ 48,583,247,239
Less: plan fiduciary net position	<u>1,292,022,349</u>
Net OPEB liability	<u>\$ 47,291,224,890</u>
Net position as a percentage of total OPEB liability	
2.66%	

Benefits Provided. TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of

the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible retirees and their dependents not enrolled in Medicare may pay premiums to participate in one of two optional insurance plans with more comprehensive benefits (TRS-Care 2 and TRS-Care 3). Eligible retirees and dependents enrolled in Medicare may elect to participate in one of the two Medicare health plans for an additional fee. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for the average retiree with Medicare coverage. These new premium rates for retirees with Medicare Part A and Part B became effective January 1, 2018.

TRS-Care Monthly Premium Rates Effective January 1, 2019 - December 31, 2019		
	<u>Medicare</u>	<u>Non-Medicare</u>
Retiree or Surviving Spouse	\$135	\$200
Retiree and Spouse	529	689
Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1,020	999

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

<u>Contribution Rates</u>		
	<u>2019</u>	<u>2020</u>
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.00%	1.25%
Employers	0.75%	0.75%
Federal/private Funding Remitted by Employers	1.25%	1.25%
District's 2020 FY Employer Contributions	\$ 118,270	
District's 2020 FY Member Contributions	\$ 102,501	
Measurement Year NECE On-Behalf Contributions	\$ 200,502	

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS-Care, a monthly surcharge of \$535 per retiree.

With Senate Bill 1, 85th Legislature, Regular Session, TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$73.6 million in fiscal year 2019.

Actuarial Assumptions. The total OPEB liability in the August 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Roll Forward—A change was made in the measurement date of the total OPEB liability (TOL) for this fiscal year. The actuarial valuation was performed as of August 31, 2018. Update procedures were used to roll forward the total OPEB liability to August 31, 2019. This is the first year using the roll forward procedures. The actuarial valuation of TRS-Care is similar to the actuarial valuations performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation, salary increases, and general payroll growth, used in this OPEB valuation were identical to those used in the respective TRS pension valuation. Since the assumptions were based upon a recent actuarial experience study performed and they were reasonable for this OPEB valuation, they were employed in this report.

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables.

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2019 TRS pension actuarial valuation:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Expected Payroll Growth
Rates of Disability Incidence	

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2018, rolled forward to August 31, 2019
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Discount Rate	2.63%
Aging Factors	Based on Plan Specific Experience
Expenses	Third-party administrative expenses related to the
delivery of health care benefits are	included in the age-adjusted claims costs.
Payroll Growth Rate	2.50%
Projected Salary Increases	3.05% - 9.05%
Healthcare Trend Rates	4.50% - 12.00%
Election Rates	Normal Retirement: 65% participation prior
to age 65 and	50% participation after age 65.
Ad-hoc Post Employment Benefit Changes	None

**Source: Fixed Income municipal bonds with 20 years to maturity that include only federal tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of August 31, 2019.*

***Includes inflation at 2.50%*

****Initial trend rates are 7.00% for non-Medicare retirees; 10.00% for Medicare retirees and 12.00% for prescriptions for all retirees. Initial trend rates decrease to an ultimate trend rate of 4.50% over a period of 10 years.*

Discount Rate. A single discount rate of 2.63% was used to measure the total OPEB liability. There was a change of 29 percent in the discount rate since the previous year. The Discount Rate can be found in the 2019 TRS CAFR on page 71. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability. The source of the municipal bond rate was Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of August 31, 2019.

Sensitivity of the Net OPEB Liability:

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (2.63%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate (1.63%)	Current Single Discount Rate (2.63%)	1% Increase in Discount Rate (3.63%)
District's proportionate share of the Net OPEB Liability:	\$12,139,650	\$ 10,055,036	\$ 8,424,255

Healthcare Cost Trend Rates Sensitivity Analysis - The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is one-percentage point lower or one-percentage point higher than the assumed healthcare cost trend rate.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
District's proportionate share of the Net OPEB Liability:	\$ 8,202,471	\$ 10,055,036	\$ 12,536,527

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At August 31, 2020, PITTSBURG INDEPENDENT SCHOOL DISTRICT reported a liability of \$10,055,036 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with PITTSBURG INDEPENDENT SCHOOL DISTRICT were as follows:

District's Proportionate share of the collective net OPEB liability	\$ 10,055,036
State's proportionate share that is associated with the District	<u>13,360,895</u>
Total	<u>\$23,415,931</u>

The Net OPEB Liability was measured as of August 31, 2019 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2018 thru August 31, 2019.

At August 31, 2019 the employer's proportion of the collective Net OPEB Liability was 0.000212620% which was a decrease of 10.4% compared to the prior year.

Changes Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The total OPEB liability as of August 31, 2019 was developed using the roll forward method of the August 31, 2018 valuation.
- Adjustments were made for retirees that were known to have discontinued their health care coverage in fiscal year 2018. This change increased the TOL.

- The health care trend rate assumption was updated to reflect the anticipated return of the Health Insurer Fee (HIF) in 2020. This change increased the TOL.
- Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. This change increased the TOL.
- The discount rate changed from 3.69 percent as of August 31, 2018 to 2.63 percent, as of August 31, 2019. This change lowered the total OPEB liability \$2.6 billion.

In this valuation the impact of the Cadillac Tax has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$850/\$2,292 were indexed annually by 2.30 percent.
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25 basis point addition to the long term trend rate assumption.

Future actuarial measurements may differ significantly from the current measurements due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements; and changes in plan provisions or applicable law.

There were no changes of benefit terms that affected measurement of the Total OPEB liability during the measurement period.

At August 31, 2020, PITTSBURG INDEPENDENT SCHOOL DISTRICT reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experience	\$493,285	\$ 1,645,400
Changes in actuarial assumptions	558,479	2,704,558
Net Difference between projected and actual investment earnings	1,085	0
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	38	3,330,151
Contributions paid to TRS subsequent to the measurement date [to be calculated by employer]	102,501	0
Total	\$1,155,388	\$7,680,109

The net amounts of the employer's balances of deferred outflows and inflows (not including the deferred contribution paid subsequent to the measurement date) of resources related to OPEBs will be recognized in OPEB expense as follows:

Year ended August 31:	OPEB Expense Amount
2020	\$ (1,003,798)
2021	(1,003,798)
2022	(1,004,149)
2023	(1,004,350)

L. HEALTH CARE COVERAGE - RETIREES AND ACTIVE EMPLOYEES

Retiree Health Care Coverage

Plan Description. PITTSBURG INDEPENDENT SCHOOL DISTRICT participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit post-employment health care plan administered by the Teacher Retirement System of Texas. TRS-Care provides health care coverage for certain persons (and their dependents) who retire under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Texas Insurance Code Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by phoning the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet Website, www.trs.state.tx.us under the TRS Publications heading.

Funding Policy. Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The Contribution Rate for the State was 1.25% for 2017, 2018, and 2019. The contribution rate for the district was 0.55% for each of these three years. The contribution rate for active employees was 0.65% of the district payroll for each of the three years. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For staff members funded by federal problems, the federal programs are required to contribution 1.0 %.

Medicare Part D. The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal year ended August 31, 2020, 2019, and 2018 the subsidy payments received by TRS-Care on-behalf of the District were \$57,862, \$46,382 and \$51,648 respectively. The information for the year ended August 31, 2017 is an estimate provided by the Teacher Retirement System. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements of the District.

Active Employee Health Care Coverage

Plan Description. The District participates in TRS Active Care sponsored by the Teacher Retirement System of Texas and administered through Aetna and Caremark (pharmacy). TRS-Active Care provides health care coverage to employees (and their dependents) of participating public education entities. Optional life and long-term care insurance are also provided to active members and retirees. Authority for the plan can be found in the Texas Insurance Code, Title 8, Subtitle H, Chapter 1579 and in the Texas Administrative Code, Title 34, Part 3, Chapter 41. The plan began operations on September 1, 2002. This is a premium-based plan. Payments are made on a monthly basis for all covered employees.

M. HEALTH CARE COVERAGE

During the year ended August 31, 2020, employees of the Pittsburg Independent School District were covered by a health insurance plan (the Plan) with TRS ActiveCare. The District contributed \$200 per month per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay contributions for dependents. All contributions were paid to a third party administrator. The Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

Total annual premiums paid by the District for health care premiums 2019-2020 totaled \$585,600. There were no non-medical expenses in this total so this \$585,600 is the total maintenance of effort for 2019-2020.

Maintenance of Effort

Total District Premium Paid for 2019-20	585,600
Subtract non-medical expenditures	-
2019-20 Maintenance of Effort	<u>585,600</u>

Changes in the balances of the claim liabilities during the past year for the workers' compensation plan are as follows:

	Year Ended August 31, 2020	Year Ended August 31, 2019
Unpaid claims, beginning of the year	7,089	8,890
Incurred claims (including IBNR'S)	(3,242)	(1,187)
Claim Payments	(423)	(614)
Unpaid claims, end of fiscal year	<u>3,424</u>	<u>7,089</u>

N. UNEARNED REVENUE

Unearned revenue at yearend consisted of the following:

	General Fund	Nonmajor Governmental Fund	Total
State Textbook	-	29,457	29,457
Other	-	19,000	19,000
Total Unearned Revenue	-	<u>48,457</u>	<u>48,457</u>

O. DUE FROM OTHER GOVERNMENTS

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of August 31, 2020, are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Due from State Agencies.

<u>FUND</u>	<u>STATE ENTITLEMENTS</u>	<u>FEDERAL GRANTS</u>	<u>OTHER</u>	<u>TOTAL</u>
General	978,344	-	1	978,345
Special Revenue	-	76,160	-	76,160
Debt Service	-	-	-	-
Total	<u>978,344</u>	<u>76,160</u>	<u>1</u>	<u>1,054,505</u>

P. REVENUE FROM LOCAL AND INTERMEDIATE SOURCES

During the current year, revenues from local and intermediate sources consisted of the following:

	General	Nonmajor	Major	
	Fund	Governmental	Debt Service	Total
	Fund	Fund	Fund	
Property Taxes	8,041,660	-	1,650,861	9,692,521
Penalties, Interest and Other Tax-related Income	173,457	-	26,802	200,259
Investment Income	103,211	3,985	14,812	122,008
Food Sales	-	64,769	-	64,769
Co-curricular	85,697	-	-	85,697
Other	65,658	-	-	65,658
Total	8,469,683	68,754	1,692,475	10,230,912

Q. DEFERRED INFLOWS OF RESOURCES

In the government wide statements and the governmental fund financial statements the amount of property taxes receivable expected to be collected in the future is reflected as a deferred inflow of resources and will be recognized as such each year as it is collected.

R. RISK MANAGEMENT

The District is exposed to various risk of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2020, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

S. COMMITMENTS AND CONTINGENCIES

The District has no significant commitments or contingencies at August 31, 2020.

T. LITIGATION

The District has no pending litigation at August 31, 2020.

U. BLENDED COMPONENT UNIT

The Public Facility Corporation is a blended component unit.

The assets and liabilities for the PFC at August 31, 2020 are:

ASSETS:

Cash	388
Buildings and improvements net of Accumulated depreciation	902,704

LIABILITIES:

Bonds payable	120,000
Due to district	1

The income and expense for the year ended August 31, 2020 is:

INCOME:

Rent income	124,851
Interest income	10

EXPENSES:

Interest expense	9,851
Depreciation	27,354

V. SUBSEQUENT EVENTS

Administration has evaluated subsequent events through October 7, 2020, the financial statement issuance date.

W. PRIOR PERIOD ADJUSTMENT

Prior period adjustments are reflected in the government wide and governmental fund financial statements. \$46,328 is posted as an adjustment to the beginning balance in the debt service fund to refund a prior year overpayment of the existing debt allotment revenue. Also, in the food service fund, an adjustment of \$360 is made to correct a prior year receivable.

PITTSBURG INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED AUGUST 31, 2020

A. Notes to Schedules for the TRS Pension

Changes of Benefit terms.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of Assumptions.

Assumptions, methods, and plan changes which are specific to the Pension Trust Fund were updated from the prior year's report. The Net Pension Liability increased significantly since the prior measurement date due to a change in the following actuarial assumptions:

- The total pension liability as of August 31, 2019 was developed using a roll-forward method from the August 31, 2018.
- Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2018.
- Economic assumptions including rates of salary increase for individual participants were updated based on the same experience study.
- The discount rate changed from 6.907 percent as of August 31, 2018 to 7.25 percent as of August 31, 2019.
- The long term assumed rate of return was unchanged at 7.25 percent.
- The change in the single discount rate was the primary reason for the increase in the net pension liability.

B. Notes to Schedules for the TRS OPEB Plan

Changes in Benefit.

The 85th Legislature, Regular Session passed the following statutory changes which became effective on September 1, 2017:

- Created a high-deductible health plan that provides a zero cost for generic prescriptions for certain preventive drugs and provides a zero premium for disability retirees who retired as a disability retiree on or before January 1, 2017 and are not eligible to enroll in Medicare.
- Created a single Medicare Advantage plan and Medicare prescription drug plan for all Medicare-eligible participants.
- Allowed the System to provide other, appropriate health benefit plans to address the needs of enrollees eligible for Medicare.
- Allowed eligible retirees and their eligible dependents to enroll in TRS-Care when the retiree reaches 65 years of age, rather than waiting for the net enrollment period.
- Eliminated free coverage under TRS-Care, except for certain disability retirees enrolled during

Plan Years 2018 through 2021, requiring members to contribute \$200 per month toward their health insurance premiums.

Changes in Assumptions.

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- Adjustments were made for retirees that were known to have discontinued their health care coverage in fiscal year 2018. This change increased the Total OPEB Liability.
- The health care trend rate assumption was updated to reflect the anticipated return of the Health Insurer Fee (HIF) in 2020. This change increased the Total OPEB Liability.
- Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. This change increased the Total OPEB Liability.
- The discount rate changed from 3.69 percent as of August 31, 2018 to 2.63 percent, as of August 31, 2019. This change lowered the Total OPEB Liability \$2.6 billion.

In this valuation, the impact of the Cadillac Tax has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$850/\$2,292 were indexed annually by 2.30 percent.
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25 basis point addition to the long-term trend rate assumption.

**REPORTS ON INTERNAL CONTROL,
COMPLIANCE, & FEDERAL AWARDS**

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Trustees
Pittsburg Independent School District
Pittsburg, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Pittsburg Independent School District, as of and for the year ended August 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 7, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Trustees
Pittsburg Independent School District
Pittsburg, Texas

Report on Compliance for Each Major Federal Program

We have audited the Pittsburg Independent School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2020.

Report on Internal Control over Compliance

Management of the District, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

PITTSBURG INDEPENDENT SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF
FEDERAL AWARDS
YEAR ENDED AUGUST 31, 2020

For all Federal programs, the District uses the fund types specified in Texas Education Agency's *Financial Accountability System Resource Guide*. Special revenue funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types and Expendable Trust Funds are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund which is a Governmental Fund type.

With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used for the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.

The period of performance for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 90 days after the end date of the period of performance as specified in the terms and conditions of the federal award under 2 CFR Section 200.343b (Uniform Guidance).

CFDA number 10.550 pertains to food commodities distributed by USDA under the following categorical programs (as applicable): the National School Lunch Program (CFDA 10.555), the Child and Adult Care Food Program (CFDA 10.558), the Summer Food Service Program (CFDA 10.559), the Commodity Supplemental Food Program (CFDA 10.565), and the Food Distribution Program on Indian Reservations (CFDA 10.567). USDA deleted this number from the CFDA on May 6, 2008. The audit covering PITTSBURG Independent School District fiscal year beginning September 1, 2013, and future audits, will therefore identify commodity assistance by the CFDA numbers of the programs under which USDA donated the commodities.

The District has not elected to use the 10% de minimis indirect cost rate.
