SRCS Weekly Updates

Dear Parents, Guardians, Students, SRCS Staff, and Community Members,

We're excited to update you on our progress as we work to reconfigure some of our campuses and programs. Here are some highlights of what we're working on. ***To make it easier for families to find information relevant to their students, we have reorganized this update email into several sections: District, elementary, and secondary.***

District Level

The process to fill the Trustee position for Area 6 will be announced soon. The interviews are tentatively scheduled for Wednesday, June 26, 2025, and the successful candidate will be sworn in and assume their position following the Board vote. Stay tuned for more information on how to apply to fill this important role.

We are continuing to improve our district website, in particular the information pertaining to campus reconfiguration. We invite you to view these changes. Thank you to everyone who completed our communication preferences survey. It will remain open for one more week, so please provide feedback, if you have not already done so.

Protecting Students from Online Scams: What Families Should Know

During today's Finance Subcommittee meeting, we announced the launch of our new webtool, Transparent SRCS, where the public can access historical comparison data for budget, average daily attendance, staffing, and more. Check out our YouTube channel later this week to watch the presentation.

Secondary Schools

We have exciting progress to share regarding the upcoming transitions at both Santa Rosa and Montgomery High Schools!

Santa Rosa High School campus:

We've successfully confirmed that we have adequate space on the Santa Rosa campus to accommodate all of our core academic programs and electives, with. clear separation between the junior and senior high school areas. The site administration and staff will work together to finalize classroom assignments.

The existing Santa Rosa Middle School College and Career Readiness (CCR) Lab (also known as the CTE Wheel) will be relocated to Santa Rosa High School.

Montgomery High School campus:

We are making significant progress in finalizing the configuration to accommodate junior/senior high school programs on the Montgomery campus. The new CCR Lab for our 7th and 8th-grade students will be established at Montgomery High School. We anticipate being able to share a virtual tour of a similar CTE wheel soon!

Anchors Aweigh 2 Event:

A special informational and welcoming event, "Anchors Aweigh 2," was held at Montgomery High School on Wednesday, April 30, for our incoming junior high families, staff, and students. We extend our sincere thanks to all the staff and student panelists who supported this important event.

Elementary Schools

Our planning for expanded Transitional Kindergarten (TK) space is underway and will be included in the upcoming facilities update on the Board agenda. This includes added space at Helen Lehman and James Monroe elementary schools. We are committed to ensuring our youngest learners have the best possible environment to thrive.

Charter Schools

Stay tuned for future updates!

And find more information on the District website at: https://www.srcschools.org/transition-plan. We plan to update our FAQ later this week.
