The Board of Education recognizes its responsibility to the taxpayers of the district and the state to expend public moneys wisely and prudently for the maintenance of a thorough and efficient system of public education and to institute appropriate controls and accounting procedures.

The Board shall use accounting and resorting directives as prepared, published and distributed by the Commissioner of education in addition to any books, materials or bulletins, for the guidance of school officials in establishing and maintaining the double entry bookkeeping and accounting system mandated in N.J.A.C. 6A:23-2.1.

The Board shall develop a system of accounting and reporting objectives that make it possible to present fairly and with full disclosure the funds and activities of the district and to determine and demonstrate compliance with finance-related legal and contractual matters. The Board shall develop an accounting system that is organized and operated on a fund basis and shall report governmental, proprietary and fiduciary funds in the fund financial statements to the extent they have activities that meet the criteria for using those funds. The Board shall establish and maintain those funds required by law and sound financial administration (only the minimum number of funds consistent with legal and operating results in accordance with GAAP).

The Board shall adopt an annual budget and include the adopted annual budget in the minutes of the Board. A detailed budget statement, which includes classification of expenditures by program and function shall be prepared on a fund basis in accordance with N.J.S.A. 18A:22-8 and on a form prescribed by the Commissioner. A detailed budget shall be prepared for each special project, capital project, and Federal or State grant. This budget shall be maintained, along with all authorized revisions, on file in the district Board of Education or Charter School Board of Trustees business office. The Board shall take appropriate action, as necessary, to maintain a balanced budget.
