

WANT MORE KID TIME? JOIN SCOUTS!

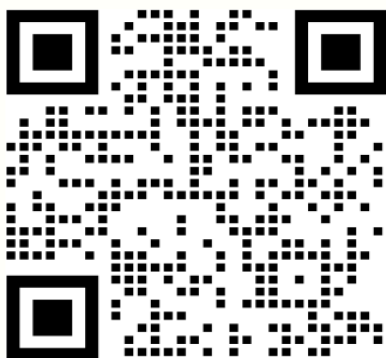

Scouting doesn't have parents standing on the sideline watching, it has them **alongside** their children as they **learn and have fun**.

Scouting is family fun at kid friendly prices. Any child from kindergarten to 18 yrs old can join in this lifelong fraternity— it's an activity that many brothers & sisters will join after seeing their older siblings participate.

Scouting is easily integrated with other activities that some think are roadblocks to participation—like a child's involvement in sports. Leaders always work with Scouts to make sure they can do both! Scouts

are a service oriented organization that teaches **confidence, leadership**, and in 2024 alone was responsible for over **200,000 hours of community service** just in MA.
