

TSDS Web-Enabled Data Standards Application

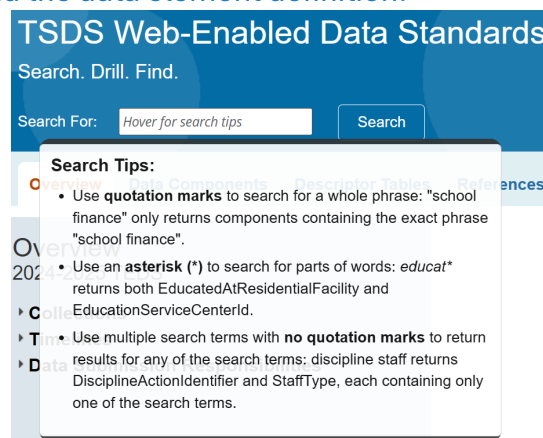

Cumulative Search

Search Tips:

Use quotation marks to search for a whole phrase: “staff serving” only returns components containing the exact phrase “staff serving”.

Use an asterisk (*) to search for parts of words: `educat*` returns both `EducatedAtResidentialFacility` and `EducationServiceCenterId`. Currently, the system does not require an asterisk to search for a part of words.

Use multiple search terms with no quotation marks to return results for any of the search terms: `emergent bilingual` returns `BilingualESLFunding`, `ParentalPermission`, and `EmergentBilingualIndicator`, each containing only one of the search terms. The search is performed on the data element name and the data element definition.

When no values are returned (Search: jazzhands):
