CONTRACT SERVICES IMPLEMENTATION

1. Award & Contractor Selection:

The District will award multiple contracts to vendors that can supply busses in each respective category (bus type and capacity).

Once contracts are awarded, the District will create and keep a list of contractors, organized by category. Within each category, contractors will be listed in order based on their bid amounts, starting with the one who submitted the lowest bid. When bus service is requested and cannot be provided by District's transportation carriers, the following will occur:

1. District Transportation Services will contact the low bid Contractor for the appropriate as needed category.
2. The work will be offered and may then be accepted or declined by the low bid Contractor.
3. If the work is accepted, then all terms and provisions of this Contract will apply.
4. If the work is rejected, then District Transportation Services will offer the work to the Contractor with the next lowest bid for the appropriate category.
5. This procedure will continue until all Contractors in the applicable bid category have been contacted.
6. The District reserves the right, at its sole discretion, to modify the assignment procedure if deemed to be in its best interest. In evaluating service requests, the District may consider additional factors, including but not limited to: vendor availability, types of buses provided, safety record, service quality, punctuality, accuracy of invoicing, and the vendor's demonstrated ability to meet contract requirements.

2. Pricing Adjustments for Option Terms

In preparation of the Parties extending the Contract per Section 4.b. of the Agreement, the Contractor may propose to increase their rates as specified herein. Contractor shall provide District with a written proposal including justification for an increase on or before April 1 of each year this Contract is in effect. The proposed increase in rates shall not exceed the annual Consumer Price Index (CPI) for Pacific Cities and U.S. City Average, for the period July 1 through June 30, of the then current year, in the category All Urban Consumers, Los Angeles-Riverside-Orange, as published in the U.S. Department of Labor, Bureau of Labor Statistics.

3. Emergency Pricing Adjustments

In the event circumstances occur which significantly affect the cost of transporting pupils, such as insurance costs, labor costs or fuel costs, either party may request an adjustment in the compensation rates. After substantial evidence of an operational cost increase or decrease has been presented and analyzed, District may make such adjustments as are deemed by District to be reasonable and fair. District's decision shall be final.

- a. Termination for Convenience. If District elects to terminate this Contract for its convenience, such termination shall be effective upon delivery of said Notice of Termination to the Contractor, unless a later date is specified in the Notice of Termination. Thereafter, District shall pay the Contractor for services provided through the date of termination and for those allowable costs determined by District to be reasonably necessary to effect such termination. Thereafter, the Contractor shall have no further claims against District under this Contract.
- b. Termination for Nonperformance. In the event of termination under this section, District shall secure the required services from another transportation contractor. If the cost to District exceeds the cost of providing the service pursuant to the Contract, the excess cost shall be charged to, and collected from, the Contractor and/or his sureties, as the case may be.

- 11. Employee Background Checks:** During the entire time this Contract is in effect, the Contractor will comply with the fingerprinting requirements of Education Code section 45125.1 with respect to all Contractor's employees and all of its subcontractors' employees who interact with pupils, outside of the immediate supervision and control of the pupil's parent or guardian or a school employee.
