#TRENDING TROUBLE

TikTok Warning for Parents

We want to make you aware of a concerning and dangerous trend circulating on TikTok that has recently come to our attention. Some students are attempting to insert objects such as pencils, springs, or other foreign items into the charging ports of their school-issued laptops. This behavior poses a serious risk, including the potential to damage the device, and in some cases, even cause a fire.

Please take a moment to speak with your student about the dangers of participating in this trend. Engaging in this type of activity is not only unsafe but may also result in significant consequences, which may include disciplinary action and financial responsibility for any damage caused to the device.

We appreciate your support in helping us keep all students safe and responsible with their technology.
